SECTION 4 - HEADS OR TAILS?

FIELDWORKER: Show Chart 5 with the bills and coins scenarios

SAY: Now we are going to play a game:

"Imagine that when playing "heads/tails" you can win either the amount in the green area for heads, or the amount in the white area for tails. Which scenario to play this game will you choose?"

Risk aversion game:                                

Show the child the pictures of the money choices. Tell them that you are going to flip a coin, and play a game with them. The game is not for real money, but let's imagine that it is. We want to know which choice you would make, if we play for real money.

There are six choices, each one has a green area and a white area. The amount you can win depends on your choice, and on whether the coin lands on heads, or tails. Let's start with the first choice, square 1. If the coin lands on heads, you win 50 rupees, and if it lands on tails, you also get 50 rupees. Now let us look at square 2. This time, if the coin lands on heads, you can win 100 rupees. But, if it lands on tails, you can only win 40 rupees. In square 3 you can win even more on heads, 130 rupees. But! If it lands on tails you only get 30 rupees. And so on, to 6, where you can win 200 rupees if it lands on heads! But if it lands on tails you will get nothing.

Check that the child understands the game, by asking some questions like: "which colour do you get if the coin lands on heads?" Now point at option 3, ask the child "how much do you get if the coin lands on tails? And on heads?"

If you are sure that the child understands the game, then tell them that this time you will flip the coin for the game. Which box do they want to choose? Again, ask them to confirm- "if the coin lands on heads, how much do you get? And if it lands on tails?". Record the answer 1-6 in the box below. Flip the coin, and tell the child if they won or lost!

FIELDWORKER: Write down the answer given by the child

<p>4.1 Scenario choose by the child</p> <p>01= 50 Rs / 50 Rs.</p> <p>02= 40 Rs / 100 Rs</p> <p>03= 30 Rs / 130 Rs</p> <p>04= 20 Rs / 160 Rs.</p> <p>05= 10 Rs / 190 Rs.</p> <p>06= 0 Rs / 200 Rs.</p>	<p>[_ _]</p>	<p>(RISKAVR3)</p>

So if you wait 30 days, you will get the 100 Rs. for sure. However, if you are willing to accept less tomorrow, you can get the money now. What is the lowest amount that you are willing to accept today instead of waiting 30 days?

<p>IF RESPONDENT IS HESITANT, PROBE WITH QUESTIONS OF THE FORM: "would you rather accept Rs. 50 tomorrow or wait for the Rs. 100 in 30 days?" IF THE RESPONDENT PREFERS 50, LOWER to 40. OTHERWISE, INCREASE to 60 AND ASK AGAIN UNTIL HE IS INDIFFERENT.</p>	<p>Rs[_ _ _]</p> <p>TMEDSCR3</p>

PEABODY PICTURE VOCABULARY TEST (PPVT)

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to work on. If these conditions are not available, try to look for other space or reschedule if possible.

FIELDWORKER: Use the PPVT picture easel here. Be sure to read the training items with the child and make sure the child understands what needs to be done before starting the test.

All instructions for introducing the PPVT and using the Training Items are located on the examiner's manual. Use Training Items C and D (designed for children 8 years and older).

FIELDWORKER: After you have administered the appropriate Training Items, begin testing using the Set of Test Items corresponding to the test taker's age. Once you begin a set, always administer all 12 items in that set in order, and always start with the first item in the set.

Use numerals (1-4) to record the test taker's response to each item in the blank in the "Resp" column. The "Key" column indicates the correct response (1-4). Compare the child's response with the correct response and indicate errors by drawing a line through the E in the last column as shown below:

READING AND WRITING ITEMS

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to write. If these conditions are not available, try to look for other space or reschedule if possible.

FIELDWORKER: Use the literacy card here. Administer the items on reading and writing with the literacy card and fill out the items below. For writing item, hand the child the Cognitive Development and Achievement Questionnaire opened on the **Answer sheet** page. The child must write the sentence in this answer sheet.

ADAPTATION OF EARLY GRADE READING ASSESSMENT (EGRA)

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to work on. If these conditions are not available, try to look for other space or reschedule if possible.

FIELDWORKER: Use the EGRA stimuli cards and your Fieldworker's manual for this part. Be sure to read the instructions to the child and make sure the child understands what needs to be done. All instructions for administering EGRA are located on your fieldworker's manual. Fill the answers and codes in the given spaces.

1.21	Test administration: Start Time (hour) (possible values: 07 to 17)	Hours: [____]
1.22	Test administration: Start Time (minutes) (possible values: 00 to 59)	Minutes: [____]

Section A. Familiar Word Identification

FIELDWORKER: Show the child card 1 of the EGRA stimuli cards. Read the instructions in your manual and practice the examples with the child. Ask the child to start reading the words and mark each incorrect word with a slash mark (/). Count self-corrections as correct. This is a **timed exercise**. When 60 seconds have gone by stop the child and **mark the final word attempted before you said "stop" with a bracket (|)**. If the child cannot read any of the examples correctly, discontinue this section and go directly to section C: Listening comprehension.

FIELDWORKER: Show the child card 2 of the EGRA stimuli cards. Read the instructions in your manual with the child. Ask him/her to start reading the story aloud and mark each incorrect word with a slash (/). Count self-corrections as correct. This is a timed exercise. When 60 seconds have gone by mark the final word attempted before with a bracket (]).

Sharada and her grey cat

5

My name is Sharada and I am eight years old.	15
My little brother is Ramesh and he is four. We	25
like to play with our cat. Our cat is grey and fat	37
and she likes to hide behind the big furniture.	46
One day, our cat went missing. We thought	54
she was just playing hide and seek, but we	63
could not find her in her favorite places. So we	73
searched all around the house for the cat.	81
Finally, we found her under the bed, but she was	91
not alone! She had given birth to three kittens:	100
two grey and one white. When we told our parents	110
about the kittens, they told us that mom was also	120
having a baby. We are going to have a sister!	130

FIELDWORKER: If the 60 seconds have gone by and the child was not able to read the title and two first lines, mark "no" in the following question and fill out 1.29, 1.30, and 1.31 after you finished administering the test to the child, and he/she is no longer with you. Then, go on to section C: Listening comprehension. If the child was able to read mark "yes" and continue with this section.

FIELDWORKER: Ask the child to read the text again, this time in silence. Tell her/him that you will ask her/him some questions about after she/he finishes. Let the child keep the card after her/him has read it. After you read each question, give the child at most 15 seconds to answer each question. Record the exact answer given by the child. Do not mark it as correct or incorrect. The answer will be assessed centrally by a professional with experience in test scoring.

SECTION C. LISTENING COMPREHENSION

FIELDWORKER: This is **not** a timed exercise and **there is no stimuli card**. Read two times, aloud and slowly (1 one word per second) the following passage to the child and ask him/her the following questions.

A yellow little chicken was walking through a bridge. Suddenly, he slipped and fell in the river. “Help me! I can’t swim!” he cried. There was a mouse passing by that saw the little chicken and came to help, but he fell in too. “What do we do now? I can’t swim either” said the mouse. “I see something that is coming our way!” the chicken replied. They both climbed on the log and rowed to the shore. “We are saved!” they shouted when they finally arrived to land.

FIELDWORKER: After you read each question, give the child at most 15 seconds to answer each question. **Record the exact answer** given by the child. Do not mark it as correct or incorrect. The answer will be assessed centrally by a professional with experience in test grading.

1.41	Who fell in the river first? Child's response:	[_ _]

1.D MATHEMATICS ACHIEVEMENT TEST

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to work on. If these conditions are not available, try to look for other space or reschedule if possible.

FIELDWORKER: Explain the instructions in your Fieldworker's manual to the child. For the next items show him/her the Numeracy cards and read the instructions on your manual. Record the child's exact response and check if it is correct or incorrect and mark accordingly in spaces given below.

1.52	Test administration: Start Time (hour) (possible values: 07 to 17)	Hours: [_ _]
1.53	Test administration: Start Time (minutes) (possible values: 00 to 59)	Minutes: [_ _]

Booklet. Math Computing

FIELDWORKER: Give the Mathematics Achievement Test Younger Cohort – **Booklet. Math computing** to the child. Read the instructions with the child to make sure she/he understands the instructions (**child must answer the questions in order**). Then let the child work by herself/himself with the test under your supervision. **After 4 minutes** you should register the last item completed by the child without interrupting his/her work. Let the child continue working **until 8 minutes** have passed since the beginning of the test. Then stop the administration. Later on, and without the child present, fill in the answer table below with the exact answers provided by the child.

8 A Peabody Picture, Vocabulary Test (PPVT)

FIELD WORKER : Use the PPVT picture easel here. Be sure to read the training items with the child can make sure the child understands what needs to be done before starting the actual test.

All Instructions for introducing the PPVT and using the Training Items are located on the examiner's side of the Training Plates (Picture easel). Use training Items C and D (designed for children 8 years and older)

FIELDWORKER : TRAINING ITEMS				
<i>Plate</i>	<i>Series 1</i>	<i>Series 2</i>	<i>Series 3</i>	<i>Series 4</i>
	For most subjects under age 15 years			
A				
B				
	For most subjects age 15 years and over			
C

FIELDWORKER : After administered the appropriate Training Items, begin testing using the Sets of Test Items. Once you begin a set of test items, always administer all 12 items in that set in order, and always start with the first item in the set.

Use numerals (1-4) to record the test taker's response to each item in the blank in the "Resp" column. The "key" column indicates the correct response (1-4). Compare the child's response with the correct response and indicate errors by drawing a line through the E in the last column as shown below.

Item	Word	Key	Resp	Error

At the end of item set, record the number of errors in the box provided.

FIELDWORKER : Please complete questions 8.1 and 8.2 after administering the PPVT with the child. (These items will aid the database entry process).
