PEABODY PICTURE VOCABULARY TEST (PPVT)

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to work on. If these conditions are not available, try to look for other space or reschedule if possible.

FIELDWORKER: Use the PPVT picture easel here. Be sure to read the training items with the child and make sure the child understands what needs to be done before starting the test.

All instructions for introducing the PPVT and using the Training Items are located on the examiner's manual. Use Training Items C and D (designed for children 8 years and older).

FIELDWORKER: TRAINING ITEMS

Plate	Series 1	Series 2	Series 3	Series 4
	<i>For most subjects under age 8 years</i>		<i>(If necessary)</i>	
A	ball (2)	dog (4)	banana (3)	Spon (1)

C	parrot (2)	scissors (1)	flower (3)	ope (4)
D	mowing (3)	riding (2)	mapping (1)	computing (2)

FIELDWORKER: After you have administered the appropriate Training Items, begin testing using the Set of Test Items corresponding to the test taker's age. Once you begin a set, always administer all 12 items in that set in order, and always start with the first item in the set.

Use numerals (1-4) to record the test taker's response to each item in the blank in the "Resp" column. The "Key" column indicates the correct response (1-4). Compare the child's response with the correct response and indicate errors by drawing a line through the E in the last column as shown below:

Item	Word	Key	Resp	Error
1	Bus	(4)		E

At the end of each set, record the number of errors in the box provided.

FIELDWORKER: Please complete questions 1.2 and 1.3 **after** administering the PPVT with the child. (These items will aid the database entry process.)

READING AND WRITING ITEMS

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to write. If these conditions are not available, try to look for other space or reschedule if possible.

FIELDWORKER: Use the literacy card here. Administer the items on reading and writing with the literacy card and fill out the items below. For writing item, hand the child the Cognitive Development and Achievement Questionnaire opened on the **Answer sheet** page. The child must write the sentence in this answer sheet.

ADAPTATION OF EARLY GRADE READING ASSESMENT (EGRA)

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to work on. If these conditions are not available, try to look for other space or reschedule if possible.

FIELDWORKER: Use the EGRA stimuli cards and your Fieldworker's manual for this part. Be sure to read the instructions to the child and make sure the child understands what needs to be done. All instructions for administering EGRA are located on your fieldworker's manual. Fill the answers and codes in the given spaces.

1.21	Test administration: Start Time (hour) (possible values: 07 to 17)	Hours: [_ _]
1.22	Test administration: Start Time (minutes) (possible values: 00 to 59)	Minutes: [_ _]

Section A. Familiar Word Identification

FIELDWORKER: Show the child card 1 of the EGRA stimuli cards. Read the instructions in your manual and practice the examples with the child. Ask the child to start reading the words and mark each incorrect word with a slash mark (/). Count self-corrections as correct. This is a **timed exercise**. When 60 seconds have gone by stop the child and **mark the final word attempted before you said "stop" with a bracket ()**. If the child cannot read any of the examples correctly, discontinue this section and go directly to section C: Listening comprehension.

1.23	The child can read at least one example (possible values: 01=yes, 02=no, -79=Refused to answer, -88=NA)	[_ _]
------	---	---------

FIELDWORKER: Fill the next items after you finished administering the test to the child, and he/she is no longer with you.

1.24	Total words read at 60 seconds (possible values: from 1 to 60, -79=Refused to answer, -88=NA)	[_ _]
1.25	Total incorrect words at 60 seconds (possible values: from 0 to 60, -79=refused to answer, -88=NA)	[_ _]

1.27	ONLY IF LESS THAN 60 SECONDS, number of seconds at completion (possible values: from 0 to 59, -79=refused to answer, -88=NA)	[_ _]

Section B. Passage reading

FIELDWORKER: Show the child card 2 of the EGRA stimuli cards. Read the instructions in your manual with the child. Ask him/her to start reading the story aloud and mark each correct word with a slash (/). Count self-corrections as correct. This is a **timed exercise**. When 60 seconds have gone by **mark the final word attempted before with a bracket ()**.

<u>Sandra and her grey cat</u>	5
My name is Sandra and I am eight years old.	15
My little brother is Charlie and he is four. We	25
like to play with our cat. Our cat is grey and fat	37
and she likes to hide behind the big furniture.	46
One day, our cat went missing. We thought	54
she was just playing hide and seek, but we	63
could not find her in her favorite places. So we	73
searched all around the house for the cat.	81
Finally, we found her under the bed, but she was	91
not alone! She had given birth to three kittens:	100
two grey and one white. When we told our parents	110
about the kittens, they told us that mom was also	120
having a baby. We are going to have a sister!	130

FIELDWORKER: If the 60 seconds have gone by and the child was not able to read the title and two first lines, mark "no" in the following question and fill out 1.29, 1.30, and 1.31 after you finished administering the test to the child, and he/she is no longer with you. Then, go on to section C: Listening comprehension. If the child was able to read mark "yes" and continue with this section.

1.32	ONLY IF LESS THAN 60 SECONDS, number of seconds to complete the paragraph (possible values: from 0 to 59, -79=refused to answer, -88=NA)	[_ _ _]

FIELDWORKER: Ask the child to read the text again, this time in silence. Tell her/him that you will ask her/him some questions about after she/he finishes. Let the child keep the card after her/him has read it. After you read each question, give the child at most 15 seconds to answer each question. Record the exact answer given by the child. Do not mark it as correct or incorrect. The answer will be assessed centrally by a professional with experience in test scoring.

There was a mouse passing by that saw the little chicken and came to help, but he fell in too. "What do we do now? I can't swim either" said the mouse. "I see something that is coming our way!" the chicken replied. They both climbed on the log and rowed to the shore. "We are saved!" they shouted when they finally arrived to land.

INSTRUCTIONS

In this part you will be asked to solve some numerical calculations like additions, subtractions, divisions and multiplications. Read each exercise thoroughly and answer the best and as fast as you can. If you are taking too long to answer a question, pass on to the next one. If you finish quickly you may go back to the questions you left blank.

Here is an example of the kind of exercises you will be solving. In these questions you will have to write down your answer.

Example:

$$4 + 5 = \underline{\quad}$$

FIELDWORKER: Fill out 1.1 **before** you administer the tests.

PEABODY PICTURE VOCABULARY TEST (PPVT)

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to work on. If these conditions are not available, try to look for other space or reschedule if possible.

FIELDWORKER: Use the PPVT picture easel here. Be sure to read the training items with the child and make sure the child understands what needs to be done before starting the test.

All instructions for introducing the PPVT and using the Training Items are located on the examiner's side of the Training Plates (picture easel). Use Training Items C and D (designed for children 8 years and older).

FIELDWORKER: TRAINING ITEMS

Plate	Series 1	Series 2	Series 3	Series 4
	<i>For most subjects under age 8 years</i>		<i>(If necessary)</i>	
A	ball (2)	dog (4)	banana (3)	Spon (1)
B	crying (4)	sleeping (1)	crawling (3)	walking (2)
	<i>For most subjects age 8 years and over</i>		<i>(If necessary)</i>	
C	parrot (2)	scissors (1)	flower (3)	ope (4)
D	mowing (3)	riding (2)	mopping (1)	computing (2)

FIELDWORKER: After you have administered the appropriate Training Items, begin testing using the Sets of Test Items corresponding to the test taker's age. Once you begin a set, always administer all 12 items in that set in order, and always start with the first item in the set.

Use numerals (1-4) to record the test taker's response to each item in the blank space in the "Resp" column. The "Key" column indicates the correct response (1-4). Compare the child's response with the correct response and indicate errors by drawing a line through the E in the last column as shown below:

Item	Word	Key	Resp	Error
1	Bus	(4)		E

At the end of each set, record the number of errors in the box provided.

FIELDWORKER: Please complete questions 1.2 and 1.3 **after** administering the PPVT to the child. (These items will aid the database entry process.)

1.2	Lowest item responded to (possible values: from 0 to 204, -79 Refused to answer, -88=NA)	[____]

MATHEMATICS ACHIEVEMENT TEST OLDER COHORT

FIELDWORKER: It is very important to assure adequate conditions for the assessment. You should look for a place with adequate lighting (natural or artificial), relative absence of noise and a flat surface for the child to work on. If these conditions are not available, try to look for other space or reschedule if possible.

Booklet 1. Math Computing

FIELDWORKER: Give the Mathematics Achievement Test Older Cohort - **Booklet 1** to the child. Read the instructions with the child to make sure she/he understands the instructions (**child must answer the questions in order**). Then let the child work by herself/himself with the test under your supervision. **After 4 minutes** you should register the last item completed by the child without interrupting his/her work. Let the child continue working **until 8 minutes** have passed since the beginning of the test. Then stop the administration. Later on, and without the child present, fill in the answer table below with the exact answers provided by the child. In some items you just have to write the response given by the child. In other items you have to write down the response given by the child and then check if it is correct or incorrect and mark accordingly. Consult your fieldworker's manual for detailed instructions.
