## Section 4: Data

31. Were any measures of coding reliability employed?

Yes ☐

ANSWER Q31a

No ☐

Markinor has a specialised coding department to deal with the extracting, building of coding frames and the coding of open-ended questions. The Research Executive team approves the code sheets before coding commences.

Each questionnaire is coded against the coding frame. A minimum of 10% of each coder's work is checked to ensure consistency in interpretation. Should any discrepancies in interpretation be discovered, a 100% check is carried out on that particular coder's work.

31a. Which one? Please specify
