<i>CWBLDGPR</i>	5. May private individuals officially buy a building in this city (urban settlement, village, hamlet) and use it for industrial purposes, business activities? Yes 1 No 2 Couldn't find out 3						
<i>CWL FARM</i>	6. [QUESTION 6. IS INTENDED ONLY FOR RURAL PLACES] May a private citizen use this land for farming? Yes 1 No 2 Couldn't find out 3						
<i>CWTELPHM</i>	23. Do the residents here have telephones at home? Yes 1 No 2 => [SKIP TO 25.1.]						
<i>CWTELPH</i>	24. Approximately what percentage of families living here have home telephones? _____ % of families						
<i>CWTELPHO</i>	25. These home telephones operate: Around the clock 1 Several hours a day 2 Less than that 3 Other (write how often) 4						
<i>CWOTELOP</i>	<hr/>						
<i>CWOMOBTF</i>	25.1. Is there in this population center steady mobile communication? Yes 1 No 2						

CWTVINTR

26. Is the reception of television programs uninterrupted?

All programs are uninterrupted.....	1
Only part of the programming is uninterrupted.....	2
All programs are interrupted.....	3

CWTv

27. Can local residents receive programming from some television stations?

Yes 1
No 2

CWLTRMOS

32. [FOR ALL POPULATION CENTERS EXCEPT MOSCOW]

How long does it usually take for a simple letter to travel from Moscow to this place?

_____ days

CWMOVIE

37. Is there in this population center a movie theater, house of culture, club, or hall where movies are shown?

Yes 1
No 2 => [SKIP TO 39.0]

CWMOVIEC

38. How much does a ticket cost for a one-part film?

rubles

39.0. What types of Internet-connection are available in this population center?

Yes No

CWLOWMIC

1. Low modem internet connection, through common telephone line, e.g. Dial-up

.. 1 2

CWHSPICT

2. High-speed internet connection – through telephone line (DSL), e.g. broadband access without disrupting telephone

se1 2

CWBANK **66. Are there branch offices of any banks, including a Russian Federation Savings Bank, here?**

Yes 1

No 2 => [SKIP TO 69.]

CWBANKO **68. Are there branch offices of any banks other than a Russian Federation Savings Bank here?**

Yes 1 => [SKIP TO 70.]

No 2

CWD2BANK **69. How far is it to the nearest bank or branch office?**

_____ km

CWPOLICE **70. Is there a police station in this population center?**

Yes 1 => [SKIP TO 74]

No 2

CWD2POLC

71. How far is it to the nearest police station?

_____ km

74. Are the following municipal services available in this population center?

	Yes	No
CWELECTR 1. Electricity	1	2
CWCWATER 2. Central water supply	1	2
CWCTEWER 3. Central sewerage system	1	2
CWCHEAT 4. Central steam heating	1	2
CWCHOTW 5. Central hot water supply	1	2
CWCGARBG 6. Central garbage and waste collection	1	2

CWWATERS

75. Do residents have enough water for all domestic purposes?

Yes, always enough water1
 Sometimes not enough water.....2
 Never enough water.....3
 Other (write)4

CWOWATER

CWGARBG

78. How do you see the state of garbage disposal here?

It is not clear that there is central garbage collection.....1
 It is clear that part of the garbage is collected centrally.....2
 Most of the garbage is obviously collected centrally.....3

CWNOELEC

78.3. Are there regular interruptions of electric power here?

Yes1
 No2

IMMIGRATION

CWIMSERV

80A. Are there immigration services in this population center (RURAL COMMUNITY, RAION CENTER)?

Yes1
 No2 =>[SKIP TO "SPORT AND HEALTH"]

CWNUMIMM

80B. How many immigrants has your community (RURAL COMMUNITY, RAION CENTER) received since 1993?

[VISIT THE IMMIGRATION SERVICE]

_____ immigrants

80C. From which republics, kraia, oblasts of the former USSR did immigrants come during this period?

[VISIT THE IMMIGRATION SERVICE]

CWAREA01

CWAREA02

CWAREA12

SPORT AND HEALTH

CWPARKS

81. In this population center are there any parks or sports complexes where residents can engage in sports: play soccer or hockey, ice skate, ski, swim, etc.?

Yes1
 No2

SECTION "COST OF FOOD PRODUCTS"

Fill out for every population center in which research is conducted from 15 October to 15 December 2014.

I. The costs of products in form A. should be recorded by the observer only from stores in the population center where research is carried out (exclude stationary markets).

Selection of stores

They may be any store, except specialized ones (stores for veterans, invalids, military personnel, etc.). Among these, there shouldn't be expensive stores where the price levels are substantially higher than the average prices in this population center.

If the observer is a resident of the population center where the research is conducted, then the prices of products in form A. should be recorded by him from the stores in the population center that his family usually uses.

If the observer is not a resident of this population center, then the prices of products in form A. should be recorded by him in those stores that are usually used by the observed families of the area of observation.

The task of the observer is to get information, which means the costs of as many products as possible in form A.

Therefore, during the indicated week it is necessary to go to the stores a few times, but no more than 3 times.

If some of the products listed in form A. are not sold in the stores chosen for the research, then the observer should go to those stores (given that they exist) where the listed products are for sale.

Furthermore, these additional stores should be chosen so the price level is only slightly different from the price level in the stores where the prices were already recorded.

Only in cases where it is impossible to find some products in form A. in the stores with the same price level, can the prices of these products be recorded in the "expensive" stores, that is, those with substantially higher price levels.

Writing the cost of products in form A.

If the products are sold in packages of less than or more than 1 kg or 1 liter, the observer should calculate the cost of the product for 1 kg or 1 liter.

If during one of the visits to the stores several kinds of the same product are available for different prices, the observer should record the price of the least expensive and the price of the most expensive product.

After this the line in form A. will be considered filled out and the observer should not return to it any more.

If during one of the visits only one kind of the given product is available, its price should be written down in the column "Cost of the least expensive available item."

After this the line in form A. will be considered filled out and the observer should not return to it any more.

If during all 3 visits, including the visits to the additional stores, some item is absent from the stores, then the line corresponding to it in form A. will be left empty.

II. The cost of products from form B. should be recorded by the observer only from stationary markets in the given population center.

If the population center has several markets, then the cost of products in form B. should be noted from one of them that has average prices.

At the market territory one should pay attention to traditional market trade, in other words, to products sold by private individuals, collective farms, state farms at the counters or from cars. One should not pay attention to the trade of stationary stores on the market territory, or trade by stores conducted from cars or temporary counters.
