**This booklet should be kept in a safe place and returned only to an authorised agent of the National Bureau of Statistics.**

All information provided will be treated in the strictest confidence and not shown to unauthorised persons.

One or more booklets may be kept for the whole household. Please ask the interviewer for more booklets if you wish to keep private record of expenses for individual members of the household.

In this booklet, you should record:

- (a) all purchases made in cash, cheque, or credit card
- (b) value of all goods consumed by your household which:
  - You have produced yourself
  - You have received free from your employer or from a friend or relative
  - You have taken out of your own business stocks

#### NOTE

Please do not forget to record your purchases progressively, using a new line for each separate commodity. When buying several items at the same time, please record each item separately. For example, **DO NOT** record "groceries" but write each grocery item and its quantity and value in the appropriate column.

For each item, record the cost to you after you have allowed for any refunds from your employer, friend or business or any other source, even if these funds are expected at some future time.

If you need any help with this booklet (recording your expenses or in need of additional booklets), please do not hesitate to ask the interviewer.
