DATA FILES

Data are available in STATA (10.1) format. Data and electronic documentation are available on the MXFLS website.

Data is contained in folders, one for each household book. There are 11 folders. The folder names were assigned by the book prefix followed by the correspondent book initials. For example, in the Control book, section Household roster is in c_ls.

The modules names were assigned by using the book initials prefix followed by the section denomination. For example the section that corresponds to the cover of the Control book is denominated c_portad.

This book, Control, has 8 sections and 9 modules. The modules are the following ones:

MODULES	DESCRIPTION	OBSERVATION LEVEL	NUMBER OF OBSERVATIONS
