Hello, my name is ..... I would like to ask you some questions. You have been chosen from your class by luck. Your head teacher has said it is ok for you to take part in this study, but you can say if you would prefer not to take part. It is up to you. If we start and you decide later you'd prefer to stop, that's ok. You can go back to your class at any time. If you do not understand anything, you can ask me a question at any time. . If you are happy to take part, I will ask you to do things like counting, doing sums, spelling or reading like you do in school. I will also ask you some questions about yourself and your family. Altogether this will take about one hour.

The answers you give will not be given to your teachers or anyone else, except the study team. Afterwards, if you want, you can talk to anyone you like about this exercise. You can tell your teacher or parents if you are worried or unhappy about anything that happens during this session.

Do you have anything you want to ask me, or can we start?
