Palestinian Central Bureau of Statistics

Out of its mission in its precise scientific mission, the Palestinian Central Bureau of Statistics (PCBS) recently issued a Micro data for public use from Environmental Economic Survey 2008 on CD-ROM.

Summary about Environmental Economic Survey 2008:

This survey is based on establishment sample survey, which was conducted during the period 20/04/2008 to 03/08/2008. It provides basic statistics on various aspects of environment, including water and wastewater, solid waste. A special questionnaire was designed in accordance with United Nation standards and recommendations in the field of environment statistics adapted to the Palestinian conditions. The questionnaire covered the following items: Quantity and sources of consumed water in establishments, industrial solid waste disposal, components, and approximate quantity. The survey also provide data about the produced wastewater: (disposal and the existence of

treatment and reuse), in addition to the types of treatment.

Importance of providing Micro Data:

The importance of providing accurate and reliable data emanates from the need to provide micro data for concerned parties in the form of an expand database involving data on many indicators pertinent to the Establishment Environment in the Palestinian Territory. Providing data on this form will enable the researchers and intersted agencies to derive its own required data and indicators without refering to the Palestinian Central Bureau of Statistics, In addition, this step will save more time for both PCBS and the concern party.

Data Type and Size:

Data provided by Environmental Economic Survey 2008 refer to the last week before the fieldworker were in the establishment. The survey sample amounts 3,458 establishments. The data are available on SPSS, and ASCII format, and its size amounts 363 KB.

Micro Data Beneficiaries:

Many parties and institutions may benefit from a database of the Environmental Economic Survey 2008 in policy and decision-making based on solid scientific bases. Such parties and institutions involve governmental entities and ministries specialized in this field such as the Ministry of Planning, Ministry of Local Government, Environmental Quality Authority, in addition to universities, research centers, international organization concerning with this field of statistics.

Data Confidentiality:

Data compiled in the context of Environmental Economic Survey 2008 involves data about Palestinian Establishments. The confidentiality of such data is honored and safeguarded in accordance with Article (17) of the Palestinian General Statistical Law of 2000, which stipulates "All individual information and data submitted to the bureau for statistical purposes shall be

treated as confidential and shall not be divulged, in whole or in part, to any individual or to a public or private body, or used for any purpose other than for preparing statistical tables".

How to Obtain Micro Data for Public Use:

The aforementioned database is accessible by institutions and individuals. To obtain a copy of micro data from the Environmental Economic Survey 2008 on a CD-ROM format, interested institutions and individuals should contact the PCBS' *Dissemination and Documentation Dept. / Division of Users Services* located in the PCBS main office in Al-Bireh:
