

Documentation MICS for Indonesia

Size
Households: [9852]
Household members: [40774]
Women: [11183]
Children: [4053]

Household identification : Ident1, ident2, ident3, ident4,ident5, ident6, ident7
Household members identification : Ident1, ident2, ident3, ident4,ident5, ident6, ident7, HL1
Type of weights : Weights not normalized used for population estimates
Variable weight : Household and household members = Hhweight
Vaiable weight : Women = Wmweight
Variable weight : Children = chweight.

Notes on Data File

1. The wealth index is not included because they are not enough variables to produce one
2. Questions that are related to pregnancy and childbirth are asked of married women only because of cultural sensitivity.
3. Some heaping is observed at ages ending in '0' and '5'.
4. There are country-specific variables for educational attainment and for transmission of HIV/AIDS via syringes.
