Informed consent and data protection:

[If surveyed in round 1,2,3 or 4]: Thank you for participating in the phone interview last month. We really appreciate your time and your willingness to tell us about your household. This is a follow-up survey to help us understand the experiences of your household since the last time we talked, and to ask some new questions.

As I told you, the KNBS, The World Bank and UNHCR are conducting a nationwide phone survey in Kenya. The objectives of the survey are to better understand the impacts of the Coronavirus here in Kenya to help design appropriate policy responses. If you agree to participate in this survey, we will ask you some questions related to your experience and knowledge of the virus and its impact on your employment, food security, access to health and educational facilities, mental well-being, and transfers. The interview will take about 30 minutes, and we will schedule it when it is convenient for you.

There are no direct benefits to you, but as a small gift you will receive 50 KSh as airtime for the interview after the interview has ended.

Any responses that you give us will be confidential, that is, the researchers will not let anyone else know how you answered. The anonymized responses will be used for research purposes and published in reports. We can assure you that we will never include any names or other personal details in publications. The study is voluntary and if you do not want to participate, you can decide that at any time. There will be no negative impacts on you.
