Incomes should be made more equal

We need larger income differentials as an incentive for individual effort

Private ownership of business and industry should be increased

Government ownership of business and industry should be increased

The government should take more responsibility to ensure that everyone is provided for

People should take more responsibility to provide for themselves

Competition is good. It stimulates people to work hard and develop new ideas

Competition is harmful. It brings out the worst in people

In the long run, hard work usually brings a better life

Hard work doesn't generally bring success – it's more a matter of luck and connections

People can only get rich at the expense of others

Wealth can grow so there's enough for everyone
