Data Collection Organization:

CBOS Public Opinion Research Centre

Fieldwork Period:

08-12-2005 - 15-12-2005.

Universe:

National Population, Both sexes, 18 and more years

Sample size:

1000

Estimated Error:

Questionnaire:

1. The WVS common questionnaire was implemented fully and faithfully. 2. Previously asked questions were kept to the possible extent so as to make longitudinal analysis possible. 3. The master questionnaire was translated into Polish by research team members using previous questionnaires translations. 4. Whenever a question has been used in previous surveys, the same translation was preserved to the extent possible. Obvious and serious errors in translation were nevertheless corrected. 5. Every question in the original English questionnaire was asked in the survey. 6. Country specific questions were added to the questionnaire, some of them from previous WVS, some designed specifically for this survey. Country-specific questions were placed at the end of the questionnaire, before the demographics. There was one exceptions concerning computer literacy questions (question concerning PC, mail and internet use was broaden). Those additional questions were directly related to a set of questions in the master questionnaire.

Sample:

A. METHOD OF SAMPLING Full probability sample was used in a survey. The WVS was conducted in December 2005 as a part of national Omnibus survey conducted by CBOS Public Opinion Research Centre every month on representative sample of adult Poles. The sample size was 1000, and 18+. No quota sampling was used. B. SAMPLE SIZE The sample size (i.e. the number of

completed interviews) was 1,000. C. NON-RESPONSE During the fieldwork no replacements were allowed. Call-backs were performed to the possible extent. Full report on non-responses is attached. D. COVERAGE WVS covered all Polish residents 18+. Required sample size for the 18+ population was achieved. III. INTERVIEWING The mode of data collection was face-to-face interviewing. All the interviews were conducted by trained interviewers from CBOS Public Opinion Research Centre. IV. PERIOD OF DATA COLLECTION Data was collected December 1, 2005 through December 20, 2005. Fieldwork started accordingly to Omnibus survey regular data collection period. V. SUBMISSION OF DATA AND THE FINAL REPORT A. Cleaned and complete data set is attached. Data set was prepared on the basis of common mask. B. Data set is accompanied by the completed methodological questionnaire (attached) and a list of country-specific codings.

Remarks about sampling:

All groups were equally covered. The whole area of Poland was divided into 16 macroregions (voivodships). Each macroregion was divided into three classes according to the size of locality: voivodship capital (16 urban centers), other cities/towns, rural areas. Each class was further divided depending on the number of inhabitants. In this way the country was divided into 65 strata that cover the whole Polish territory and population.

Survey procedure:

Personal Face to Face Interview

Response rate:

Total number of starting names/addresses 1788 addresses which could not be traced at all 1.3 % selected respondent too sick/incapacitated to 3.6% participate selected respondent away during survey period 30.2% no contact at selected address 12.9% no contact with selected person 18.6% selected respondent dead 2.8 % personal refusal by selected respondent 24.5% other type of unproductive (please write in full details in the box below) 6.2% full productive interview 1000

Weighting:

Yes Weighting process took into account: - different degrees of realization in different place categories - different degrees of realization in different socio-demographical groups (by gender, age, education)

Niektórzy ludzie uważają, że pewne problemy powinny być rozwiązywane przez Organizację Narodów Zjednoczonych lub organizacje regionalne, takie jak Unia Europejska, zamiast poprzez rządy poszczególnych krajów. Inni sądzą, że te kwestie powinno się pozostawić całkowicie do rozwiązania rządów poszczególnych państw. Wymień teraz pewne problemy. Dla każdego z nich, proszę określić czy uważa Pan(i), że o ich rozwiązaniu powinny decydować rządy poszczególnych państw, organizacje regionalne czy ONZ?
