**COLOMBIA 2012**

Geographical scope:

Colombia

Principal investigator(s):

Andrés Casas andres\_casas@yahoo.com

Data Collection Organization:

CENTRO NACIONAL DE CONSULTORÍA

Fieldwork Period:

17-11-2012 - 06-12-2012.

Universe:

National Population, Both sexes, 18 and more years

Sample size:

1512

Estimated Error:

2,6

Questionnaire:

We took as model the Master English Questionnaire, and the questionnaire from Uruguay. Optional WVS questions included: coV9, coV40, coV44, coV48, coV79, coV115, coV139, coV169, coV171, coV178, coV183, coV184, coV189, coV210, coV250, coV256. All the questions were previously approved by the WVSA. Country-specific questions included: Even though one of the new questions was included just before the demographics, the rest of the options were included as additional response alternatives within already existing questions. All these changes were previously approved by the WVSA. Questions were not included: V186 (a civil war). The omission of this option obeys to the current situation that is going on in our country. WVSA authorized its exclusion.

Sample:

The sample is representative of the adult population of Colombia aged 18+ and the sample size is 1,512 respondents. Sampling procedure: Stage 1: Municipalities selection: biggest municipalities were included, smallest municipalities were randomly selected. Stage 2: Block selection: within CNC's sampling frame. Stage 3: Individual selection: Interviewers were instructed to apply 4 interviews per block, according to age and gender quotas. Sampling units are multilevel: municipalities (50 in total); blocks (370 urban and 60 rural); households. The observation unit is the individual.

## Remarks about sampling:

- Etapa 1: La selección de municipios será aleatoria dentro de cada estrato. (Unidades primarias de Muestreo: UPM). - Etapa 2: Selección de Manzanas (Unidades secundarias de Muestreo: USM). Como se ha definido un MAS para la selección de las manzanas, uno de los métodos descritos para la selección de las manzanas al interior de cada estrato definido la población de cada estrato socio-económico es el método coordinado negativo: Método coordinado negativo: Para la de terminación de una muestra de tamaño  $n$  se definen los siguientes pasos: 1. Generar  $N$  realizaciones de una variable aleatoria  $\xi_k$  con distribución uniforme  $(0,1.)$  2. Asignar  $\xi_k$  al elemento  $k$ -ésimo de la población. 3. Ordenar la lista de elementos descendente (o ascendentemente) con respecto a este número aleatorio  $\xi_k$ . 4. Por último, seleccionar los  $n$  primeros (o los  $n$  últimos) elementos que corresponderían a la selección de la muestra. - Etapa 3: Selección de Hogares (Unidades terciarias de Muestreo: UTM). Para la terecera etapa, nuevamente se define un MAS como diseño y por lo tanto el método de selección de las USM, se utilizara método coordinado negativo: Método coordinado negativo: Descrito en el punto anterior.

## Survey procedure:

Missing

## Response rate:

We did not have any major obstacle or limitation during fieldwork. Response rate was high.

## Remarks about non-response:

We allowed block substitution in case the assigned block was not enough to complete de 4 surveys according to quotas. Individuals in the new block had to have similar quota characteristic than the replaced individual in the discarded block.

## Weighting:

Sex and age

**V195.-** Now, I would like to read some statements and ask how much you agree or disagree with each of these statements. For these questions, a 1 means that you “completely disagree” and a 10 means that you “completely agree”: One of the bad effects of science is that it breaks down people's ideas of right and wrong

Ahora le voy a leer algunas afirmaciones y a preguntarle si está de acuerdo o en desacuerdo con cada una. En estas preguntas vamos a usar esta tarjeta, en la que el 1 significa que está completamente en desacuerdo y 10 significa que está completamente de acuerdo.(Codifique un número para cada frase):

Uno de los efectos negativos de la ciencia es que destruye las ideas de lo que está bien y de lo que está mal en las personas
