Methodological questionnaire

PLEASE WRITE IN THE NAME OF YOUR COUNTRY:

Section 1: the questionnaire

1. Was the WVS questionnaire translated or adapted in any way from the English master questionnaire?

Yes → **ANSWER Q2**

No → **GO TO Q3**

IF QUESTIONNAIRE TRANSLATED/ADAPTED

2a. Who carried out the translation of the questionnaire?

A specialist translator

A member of the research team

Other (PLEASE WRITE DETAILS BELOW)

SESRI who adopted the translation part of the original questionnaire, Gulf opinions has reviewed the typed questions, wording and used idioms (acronyms)

b. Was the translated questionnaire then back-translated into English?

Yes

No

c. Was the translated questionnaire pre-tested?

Yes → **ANSWER d**

No → **GO TO e**

d. **IF 'YES'**

How was the questionnaire pre-tested? How many pre-tests were carried out?

PLEASE WRITE IN:

Pre-test tested using a random sample of 30 household addresses with different random Kuwaiti families; the pre-test conducted to test the interviewers, questions sensitivity and needed time duration. We used CAPI to obtain data.

e. Were there any questions or concepts that caused particular problems when being translated into your language?

Yes, → **ANSWER f**

No → **GO TO Q3**

IF 'YES'

f. Which questions or concepts caused particular problems?

PLEASE WRITE IN:

Q#	Arabic	English
202	قبول الرشوة أثناء تأدية الوظيفة	GIFT instead of bribe word
	استلام مبالغ مالية خارج نطاق العمل والراتب	Someone accepting a bribe in the course of their duties

g. How were these problems solved?

PLEASE WRITE IN:

by coordinating with SESRI and agreeing on the right phrase.

EVERYONE PLEASE ANSWER

3. Did you use other questionnaires to make the WVS QUESTIONNAIRE?

the German questionnaire

the French questionnaire

Other (PLEASE WRITE IN BELOW)

NO _____

4. Have any optional WVS questions and/or items been included?

No

Yes (PLEASE WRITE IN QUESTION AND/OR ITEMNUMBERS BELOW)

We have added only one question Statement within the Media usage question No. 224.1 Social Media

5. Were country-specific questions, and/or items i. e. neither compulsory nor optional WVS questions, or questions included in the survey?

No country-specific questions included → **GO TO Q7**

Country-specific questions were included → **ANSWER Q6**

IF THERE WERE COUNTRY-SPECIFIC QUESTIONS

6. Were country specific questions included at the end of the questionnaire, just before the demographics?

Yes → **GO TO Q7**

No → **GO TO Q6a**

6a please indicate the location of the country-specific questions which were not at the end of the questionnaire
WRITE IN BELOW

EVERYONE PLEASE ANSWER

7. Were all questions asked in the prescribed order?

Yes

No

8. Were all core WVS questions included in your questionnaire (by core we mean all items except those that were optional)?

No - some question(s) from WVS questionnaire **not** included → **ANSWER Q9**

No - some demographic question(s) **not** included → **ANSWER Q9**

Yes - all questions included → **SECTION 2**

IF ANY CORE WVS QUESTIONS WERE NOT INCLUDED

9. Please write in details of the items and the reasons why they were not included.

WVS question number or description of question:

Q#	Arabic	English
28	اتحاد العمال	Labour Union
29	أحزاب سياسية	Political party

246	هل أنت مواطن في هذا البلد	Are you a citizen of this country?

Reason(s) not included:

These questions was declined from the Kuwait Central Statistical Bureau

Section 2: Sampling

10. Was your sample designed to be representative of the entire adult population, i. e. 18 years and older, of your country?

Yes → **GO TO Q12**

No → **ANSWER Q11**

IF NOT DESIGNED TO BE REPRESENTATIVE

11. Which groups were excluded from, under-represented or over-represented in your sample design?

Excluded (PLEASE SPECIFY):

Over-represented: (PLEASE SPECIFY):

Under-represented (PLEASE SPECIFY):

EVERYONE PLEASE ANSWER

12. What was the lower age cut-off for your sample?

Yes - please write in cut-off 18

No cut-off

13. Was there any upper age cut-off for your sample?

Yes - please write in cut-off

No cut-off

14. What were the different stages in your sampling procedure?

PLEASE WRITE IN:

Sampling Procedure:

Probability proportional to size sampling design was employed. This involved a two stage sampling procedure:

Stage 1: 50 clusters were randomly selected. The clusters represent the residential districts. The number of households in each cluster is proportional to size.

Stage 2: In each cluster, the designated sample is distributed proportionally among strata's (proportional to the size of the strata in the whole population). The strata's represent family size.

15. What was the final number of clusters or sampling points?

No clusters

WRITE IN: 5 0

Sample Size: 2000 (oversampled to compensate for non-response)

Stratification: Strata's defined by family size:

strata 1: family size 5 or less

strata 2: family size 6 to 9

strata 3: family size 10 to 13

strata 4: family size greater than 13

Designated cluster size (number of individuals to be sampled from each cluster): 40

Number of clusters: $2000/40=50$

Sampling interval (SI): $1227012/50= 24540.12$ (total population)

Random Start: 14728

16. What was the sampled unit you got from office sampling?

Address → ANSWER Q17

Household → ANSWER Q17

Named individual → GO TO Q18

Other (PLEASE WRITE IN DETAILS BELOW) → ANSWER Q17

The sampling frame: the CSB 2011 Census data.

The primary sampling unit (PSU): The residential districts of Kuwait as defined in the sampling frame. These will constitute the sampling clusters.

Secondary sampling unit: Kuwaiti households

IF NAMED INDIVIDUAL WAS NOT THE SAMPLED UNIT

17. What selection method was used to identify a respondent?
PLEASE SPECIFY:

1. Clusters were selected according to a PPS sampling design.

2. In each cluster, the designated sample is distributed proportionally among strata's (proportional to the size of the strata in the whole population)

18. Were there any quota-controls on the type of individual selected to take part in the survey (for example, age or sex controls)?

Yes → ANSWER Q19

No → GO TO Q20

IF QUOTA CONTROLS

19. In what way were quota controls used?
PLEASE WRITE IN:

The number of female respondents was very low. We, therefore, used Gender (Sex) as quota control variable along with AGE to ensure the representativeness of the sample as defined by the 2011 census data.

EVERYONE PLEASE ANSWER

20. Was substitution permitted at any stage of your selection process or during fieldwork?

Yes → ANSWER Q21

No → GO TO Q22

IF 'YES'

21. In what way was substitution permitted?
PLEASE WRITE IN:

When the given address was wrong or not correct and in a situation, that the household respondent refused to conduct the interview, then we asked our interviewer to report this situation and select the neighbor household after that if the selected household refused to conduct the interview, the interviewer should follow up the given household list or we provide him another address list.

EVERYONE PLEASE ANSWER

22. Did you use any stratification factors when drawing your sample?

Yes → ANSWER Q23

No → GO TO Q24

IF STRATIFICATION FACTORS USED

23. What stratification factors were used, and at what stage(s) of selection?
PLEASE WRITE IN:

Stratification: Strata's defined by family size:
Strata 1: family size 5 or less
Strata 2: family size 6 to 9
Strata 3: family size 10 to 13
Strata 4: family size greater than 13

EVERYONE PLEASE ANSWER

24. All in all, what are the known limitations of your realized sample?

For example: non-response rate; is there differential coverage of particular groups, either because of sample design or response differences?

% response or % non-response: PLEASE WRITE IN:

	First fieldwork run	Supplemental fieldwork
Sample Size	2000	1000
Responses (# interviews)	1004	299
Refusal	401	158
No one at home	263	10
Repeated calls	0	0
Temporarily absent	0	0
Communication problem	0	0
% response	33.86%	43.81%
% non-response	66.14%	56.19%

Non-Response: All those households selected in the sample that where eligible but where not interviewed for one of the following reasons: (Refusal, No one at home, Repeated calls, Temporarily absent, Communication problem)

Non-Response rate = 100* number of non-response/ number interviewed

25. Please fill in the following details about your sample. If some categories do not apply, please complete to the highest level of detail possible and use the 'other' box to give more information.

- Total number of starting names/addresses
- addresses which could not be traced at all
- Addresses established as empty, demolished or containing no private dwellings
- Selected respondent too sick/incapacitated to participate
- Selected respondent away during survey period
- Selected respondent had inadequate understanding of language of survey
- No contact at selected address
- No contact with selected person
- Refusal at selected address
- Proxy refusal (on behalf of selected respondent)
- Personal refusal by selected respondent
- Other type of unproductive (please write in full details in the box below)
- Full productive interview
- Partial productive interview

IF 'OTHER' CATEGORY USED

26. Please specify

Section 3: Fieldwork

27.If interviews were not face-to-face, please specify the way of interviewing:

Non

28. The next group of questions are about interviewers.
If no interviewers were used at any point in the WVS survey, please go to Q32.

IF INTERVIEWERS USED

a. Were interviewers paid according to performance (for example, according to the number of interviews they obtained)?

Yes

No

According to the fixed amount of money per completed and succeeded interviews

b. Which, if any, of these rules governed how an interviewer approached an address/household?
PLEASE TICK THOSE THAT APPLY

Calls must be made at different times of day

Calls must be made on different days of week

Neither of the above

c. Were interviewers required to make a certain number of re-calls before they stopped approaching an address or household?

Minimum number of re-calls required - please write in number

No minimum re-call requirement

d. Were any interviews supervised?

Yes - please write in approximate proportion %

No

e. Were any interviews back-checked?

Yes - please write in approximate proportion %

No

EVERYONE PLEASE ANSWER

28. Please write in the approximate start and end dates of fieldwork. (**first run fieldwork**)

D D M M Y Y

Start date

2	8	1	0	1	4
---	---	---	---	---	---

End date

2	8	0	2	1	4

30. Please write in the name of the institute, which has done the fieldwork.

Gulf Opinions of Polls & Statistics

Section 4: Data

31. Were any measures of coding reliability employed?

Yes → **ANSWER Q31a**
No

31a. Which one? Please specify

32. Were the data from the questionnaire keyed subsequent to the interview (that is, non-CAPI surveys)?

Yes → **ANSWER Q33**
No → **GO TO Q34**

IF DATA KEYED

33. Was keying verified?

Yes - please write in approximate level of verification %
No

EVERYONE PLEASE ANSWER

34. Were any reliability checks made on derived variables?

Yes
No

35. Were data checked/edited to ensure that filter instructions were followed correctly?

Yes
No

36. Were data checked/edited for logic or consistency?

Yes
No

37. Were data checked/edited to ensure they fell within permitted coding ranges?

Yes
No

38. Have you answered 'yes' on any or all of questions 32 to 34 above?

Yes → **ANSWER Q39**
No → **GO TO Q40**

IF DATA CHECKED/EDITED

39. Were errors corrected individually or automatically (through, for example, a 'forced' edit)?

Yes - individual correction

Yes - automatic correction

No - not corrected

EVERYONE PLEASE ANSWER

40. Did you add a weight variable?

Yes → **ANSWER Q.41**

No → **SECTION 5**

IF WEIGHT VARIABLE ADDED

41. Please describe the weighting or post-stratification strategy used.

The same answer code (weight) typed in the original questionnaire, described in separate document

Section 5: Characteristics of National Population

45. Each WVS member is asked to provide information on known characteristics of its national population, from census or the best available estimates from government surveys or other high-quality data-sources:

- sex distribution of the population
- age distribution of the population
- education (years of schooling) of the population
- other characteristics (PLEASE SPECIFY)

Please specify also the sources which have been used. Please note that the number of characteristics is what is minimal required. You can add as many characteristics as you like, but do not forget to specify them.

In the table below please present the information from census or from other government surveys or other high-quality data (column SOURCE 1) and the proportions obtained in your data, before and after weighting

	Source:	Unweighted data	Weighted data
