**DOMINICAN REPUBLIC 1996**

Geographical scope:

Dominican Republic

Principal investigator(s):

Josefina Zaiter Marcos Villaman Julio Valeiron Centro Poveda Pina 210-A (Ciudad Nueva) Santo Domingo Dominican Republic T+ 1-809-689-5689

Data Collection Organization:

Centro POVEDA (Santo Domingo)

Fieldwork Period:

01-04-1996 - 30-04-1996.

Universe:

National Population, Both sexes, 18 to 49 years

Sample size:

417

Estimated Error:

4,9

Questionnaire:

The WVS questionnaire was in Spanish. There have been included some special variable labels such as: V56 Neighbours: Haitianos and V149 Institution: OEA (Organización de Estados Americanos). Special categories labels are: V167 Least liked groups: 1. Comunistas de línea, 2. Los capitalistas, 3. Los narcotraficantes, 5. Los homosexuales, 6. Los delincuentes, 7. Extremistas de derecha y 9. No sabe/No contesta. V179: Religion: has different codes. V203/ V204: Geographical affinity: 3 stands for Region and 4 stands for El Caribe. V203/V204 has different structure. However, there is no need to recode since the equivalence is respected assuming Region means the Dominican Republic as a whole. Country Specific variables included are: The variables political parties V210 a V212; Ethnic group: V 233 and Region: V 234 are also included as country specific variables. The V 206 Born in this country and the V 232 Size of Town are also different in Armenia.

Sample:

Two methods were used for the sample design: Four communities were chosen as representatives of the four main regions: Central South and Santo Domingo, Western South (Barahona), East (San Pedro de Macorís) and North or Cibao (Santiago). For the sample distribution, we proceeded according to the census projections of that time, giving Santo Domingo the 60% of the sample, and proportionally dividing the rest among the other Provinces. Thus, Santo Domingo 275; Santiago,

Barahona and San Pedro de Macorís 60 each one respectively, in total 455 individuals. 38 incomplete questionnaires were eliminated, leaving the distribution as follows: Santo Domingo 274, Santiago 46, Barahona 55 and San Pedro de Macorís 42. In total 417 questionnaires. For the respondents selection, neighborhoods of the low class, middle class and upper class were taken into account. The streets and houses were systematically changed, and the individuals were randomly chosen between the ages of 18 and 50 years old. Instructions were given to the interviewers so that the age proportions remained as follows: Younger than 30 years = 50% Between 31 and 40 years = 30% Between 41 and 50 years = 20% These four population groups are representative of the national population. The sample was distributed among the urban sector and the marginal-urban sector. The age rank was established between 18 and 50 years, however, a few individuals were under and over this limit.

Survey procedure:

Personal Face to Face Interview

Response rate:

$(1831/2025) \times 100 = 90.4\%$

**V132.-** Now I'd like you to tell me your views on various issues. How would you place your views on this scale? 1 means you agree completely with the statement on the left; 10 means you agree completely with the statement on the right; and if your views fall somewhere in between, you can chose any number in between. Statement 1 :Ideas that have stood the test of time are generally best Statement 2: New ideas are generally better than old ones

**Y001.- Materialism/Postmaterialism (12-item index)** The MatPMat12 values index used here is created as follows from V104 to V109: V104. People sometimes talk about what the aims of this country should be for the next ten years. On this card are listed some of the goals which different people would give top priority. Would you please say which one of these you, yourself, consider the most important? CODE ONE ANSWER ONLY UNDER "First Choice." V105. And which would be the next most important? CODE ONE ANSWER ONLY UNDER "Second Choice." First ChoiceSecond Choice 1 A high level of economic growth11 Making sure this country has strong defense forces22 \*Seeing that people have more say about how things are done at their jobs and in their communities 33 Trying to make our cities and countryside more beautiful 44 Don't know [DO NOT READ OUT] 99 V106. If you had to choose, which one of the things on this card would you say is most important? CODE ONE ANSWER ONLY V107. And which would be the next most important? CODE ONE ANSWER ONLY First ChoiceSecond Choice Maintaining order in the nation11 \*Giving people more say in important government decisions22 Fighting rising prices 33 \*Protecting freedom of speech44 Don't know [DO NOT READ OUT] 99 V108. Here is another list. In your opinion, which one of these is most important? CODE ONE ANSWER ONLY V109. And what would be the next most important? CODE ONE ANSWER ONLY First ChoiceSecond Choice A stable economy 11 \*Progress toward a less impersonal and more humane society22 \*Progress toward a society in which ideas count more than money 33 The fight against crime44 Don't know [DO NOT READ OUT] 99 MatPMat12 index is constructed by summing the number of Postmaterialist items chosen as either first or second choice in its group (these five items are designated with an asterisk above). This produces an index that runs from 0 (no Postmaterialist items are given high priority) to 5 (all five Postmaterialist items are given high priority). SPSS code used to build V1000 is as follows: COMPUTE V1001=0. COMPUTE V1002=0. COMPUTE V1003=0. COMPUTE V1004=0. COMPUTE V1005=0. IF (V104=3 OR V105=3) V1001=1. IF (V106=2 OR V106=4) V1002=1. IF (V107=2 OR V107=4) V1003=1. IF (V108=2 OR V108=3) V1004=1. IF (V109=2 OR V109=3) V1005=1. COMPUTE V1010=9. IF NOT (V104=0 & V105=0 & V106 =0 & V107=0 & V108=0 & V109=0) V1010=V1001+V1002+V1003+V1004+V1005.

**Y003.-** Autonomy Index is a computed variable based on the Children qualities battery. It uses only four variables: V22= Children qualities: Religious Faith V24= Children qualities: Obedience V15= Children qualities: Independence V21= Children qualities: Perseverance Only variables with answers to all v22,v24,v15,v21 have an index. The SPSS like formula is: Compute Y003=-5. if v22>=0 and v24>=0 and v15>=0 and v21>=0 then Y003=(v22 + v24)-(v15 +v21).
