APPENDIX A: CODES FOR DEPARTMENT

I. CODEBOOK OVERVIEW

To aid the user, this codebook provides documentation for each variable in the BurkinaGirlsSchool.dta file including:

- Variable name: the variable name as it appears in the data file
- Label: variable label (a brief description of the variable)
- Universe: indicates which respondents were eligible to be asked the question
- N: total number of observations in the data file
- Question Text: the text of the question as it appears in the survey instrument
- Construct Specs: provides specifications used to create constructed variables

Additionally, frequency counts and numeric values and their labels are displayed for all categorical variables where frequencies are less than a page. An example of a categorical variable that has frequencies too long to display is hc5 (Interview date). Means, minimum and maximum values, and standard deviations are displayed for continuous variables.

Certain variables that contain information that would allow sample members potentially to be identified were dropped. An example of such a variable is hl2 (child's name). Variables used solely for the administration of the survey were also dropped. An example of a variable used solely for administration is hc28 (Interviewer/Supervisor Notes). In addition, variables in the school wave 1 student attendance roster are not in the dataset.

The data user should refer to the Burkina Faso's BRIGHT School Evaluation: Household and School Survey User's Manual for information about study methodology.

II. SURVEY VARIABLES

Variable Name:	hc1		
Label:	Village ID		
Question Text:	Village ID		
Universe:	287		
N:	287		
Description:	Contains a list of Village ID numbers.		
Variable Name:	hc2		
Label:	Household ID		
Question Text:	Household Number		
Universe:	8,467		
N:	8,467		
Description:	Contains a list of household numbers.		
Variable Name:	hc5		
Label:	Interview Date		
Question Text:	Day/Month/Year of Interview		
Universe:	8,467		
N:	8,467		
Description:	Contains the date, month, and year of the interview.		
Minimum:	January 20, 2008		
Maximum:	February 28, 2008		
Variable Name:	hc6		
Label:	Province

¹ sc9 and ed16 are similar questions about the meals or snacks served at school. sc9 was asked of respondents at schools (headmasters or teachers) regarding the food served at their school. ed16 was asked of household respondents about the food served at their children's schools. Response categories differ for these two questions as interviewers added additional categories in the field in an inconsistent manner.

² sc9 and ed16 are similar questions about the meals or snacks served at school. sc9 was asked of respondents at schools (headmasters or teachers) regarding the food served at their school. ed16 was asked of household respondents about the food served at their children's schools. Response categories differ for these two questions as interviewers added additional categories in the field in an inconsistent manner.
