Subject: Benin I Access to Financial Services Data Accessibility

As part of the evaluation contract deliverables, and in addition to the Final Evaluation Report, the independent evaluator (NORC) submitted an [Annex](#) to the Evaluation Report detailing the set of data used for the analysis.

As per MCC Data Management Guidelines, MCC reached out to the [Managing Director of ANSSF](#) (*Cellule de Surveillance des Structures Financieres Decentralisées* (formerly CSSFS)) requesting approval for the dissemination of aforementioned data acquired by NORC during the evaluation process, including:

- Data on grant values received by each grantee
- Reports of sales
- Reports on savings
- Data on net profits
- Capital and reserves
- Data on short-term debts
- Amounts of current loans

MCC did not receive a response as of the deadline. MCC will therefore not move forward with publishing the data files listed above. If interested parties would like access to the data, requests should be directed to ANSSF. No further action from MCC is expected.
