WaterWorks™ 2

Free & Total Chlorine

Part Number: 480655

Contains 30 Test Strips

TEST PROCEDURE:

1. Dip one test strip into a 250mL (about 8oz) water sample for **10 seconds** with a constant, gentle back and forth motion.
2. Remove the strip and shake once, briskly, to remove excess water.
3. **Wait 15 seconds.**
4. View through the apertures to match colors for Free Chlorine and Total Chlorine.

Compare the test strip results to the color chart. You may use this photo if you do not have a color chart.

ec_bag_poc	<p>Prepare sample bag:</p> <p>-Apply hand sanitizer to your hands. -Find the bag labeled Whirl-Pak Coli-Test Bags with the correct Household ID. -Write the current date and time on the WhirlPak Bag. -Find the bag labeled HiE.coli Test Buds and take out one wrapped test bud.</p> <p>Take sample:</p> <p>-Remove the seal from the Whirl-Pak Coli-Test Bag by tearing along the perforated line at the top. -DO NOT touch the inside of the bag at any time; use the white tabs on the sides and in the middle to handle the bag. -Gently pull open the top of the bag using the white tabs. -Pour the water into the bag. -Fill the bag to the 100 ml FILL LINE (the lower of the two lines). Pour out any excess water, but DO NOT completely pour out the sample or the chlorine-neutralizing powder will be lost.</p>			
ec_plate_poc	<p>Prepare Compact Dry Plate:</p> <p>-Find the Compact Dry EC plate. -Place on a flat surface. -Record the current date and time on the plate. -Locate one disposable plastic pipette (dropper). Tear open at the large (bulb) end just enough to expose the bulb of the pipette.</p> <p>Place sample in Compact Dry Plate:</p> <p>-Pull out the pipette. ONLY touch the bulb of the pipette, not the tip. -Squeeze and hold the bulb, then place the tip into the Whirl-Pak Coli-Test Bag containing the water sample. -Gently release the bulb until the water fills the pipette up to the 1ml line (the mark closest to the bulb). Hold the bulb with the same amount of pressure as you remove the tip of the pipette from the water sample. -Open the lid on the Compact Dry EC plate and squeeze out the pipette into the center of the plate. Replace the lid immediately. -Place the pipette back into the wrapper it came in and put into the waste bag.</p>			
ec_bud_poc	<p>Add HiE.coli Test Bud to sample:</p> <p>-Tear open the HiE.coli Test Bud without touching the inside of the package or the bud. -Drop the bud into the Whirl-Pak Coli-test bag.</p> <p>Seal the Whirl-Pak Coli-test bag:</p> <p>-Pull the outside white tabs to close up the top of the bag. -Holding the bag by the outside tabs, flip the bag over the tabs 3 times to seal the top of the bag. -Fold over the white outside tabs onto themselves to keep the seal from unrolling.</p>			
image_ecoli_poc <i>(required)</i>	<p>This water test has been randomly selected for a photo. Please take an image of the whirlpak bag and compact dry plate for the point of consumption test.</p> <p><i>Question relevant when: $\{rand_photo\} \leq 0.3$</i></p>
