### STUDY TYPE

Other Household Survey [hh/oth]

### ABSTRACT

IMPACT Initiatives (IMPACT), in collaboration with UNHCR, conducted a fifth round of the Multi-sector Needs Assessment (MSNA V) of refugees in Iraq who live in and out of formal camps, to provide a household-level analysis of sector-specific needs and vulnerabilities. This assessment and its findings aim to support the prioritization of decisions across and within different sectors and is to be used as a basis for developing the 3RP Regional Refugee & Resilience Plan 2021-2022. Further, for humanitarian actors and other partners to appropriately design their assistance and respond to COVID-19, information on the impact of the virus on refugees' lives and livelihoods is necessary. By conducting this research, IMPACT, on behalf of UNHCR, sought to fill the information gap on multi-sectoral needs, movement intentions and the impact of COVID-19 on refugees' lives, thus assisting humanitarian actors in organizing their response to protracted displacement of Syrian, Iranian, Turkish and Palestinian refugees across Iraq in the time of COVID-19.
