ABSTRACT

More than 8 million refugees have fled Ukraine since the escalation of conflict on 24 February 2022. The number of people crossing fluctuated greatly in the early onset of the war in Ukraine.

To understand the drivers of displacement and intentions of refugees, over 18,000 interviews were conducted with people crossing from Ukraine into Poland, Hungary, Moldova and Slovakia. Interviews were conducted at several border checkpoint and certain reception centers, and began on 28 February. Interviewees were selected purposively to gain a broader understanding of experiences and intentions, and results should therefore be considered indicative.

This dataset is the anonymized version of the original data.
