TITLE

Global School-Based Student Health Survey 2009

COUNTRY

Name	Country code
Malawi	MWI

STUDY TYPE

Other Household Survey [hh/oth]

SERIES INFORMATION

This is the first GSHS conducted by Malawi.

ABSTRACT

The GSHS is a school-based survey which uses a self-administered questionnaire to obtain data on young people's health behaviour and protective factors related to the leading causes of morbidity and mortality among children and adults worldwide.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Individuals

US Centers for Disease Control and Prevention	CDC

Sampling

SAMPLING PROCEDURE

The 2008 Malawi GSHS was a school-based survey of students in Standards 7 and 8. A two-stage cluster sample design was

used to produce data representative of all students in Standards 7 and 8 in Malawi . At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate.

RESPONSE RATE

National: The school response rate was 100%, the student response rate was 94%, and the overall response rate was 94%.

Rural: The school response rate was 100%, the student response rate was 91%, and the overall response rate was 91%.

Urban: The school response rate was 100%, the student response rate was 96%, and the overall response rate was 96%.

WEIGHTING

The weighting formula used is:

$$W=W1 * W2 * f1 * f2 * f3.$$

The list below shows what each variable in the formula represents.

W1 - The inverse of the probability of selecting each school

W2 - The inverse of the probability of selecting each classroom

f1 - A school-level non response adjustment factor

f2 - A student-level non response adjustment factor calculated by classroom

f3 - A post stratification adjustment factor calculated by sex within grade

self-administered

questionnaires

QUESTIONNAIRES

The following core modules were included in the survey:

alcohol use

dietary behaviours

drug use

hygiene

mental health

sexual behaviours

tobacco use

violence and unintentional injury

data_processing

DATA EDITING

All data processing (scanning, cleaning, editing, and weighting) was conducted at the US Centers for Disease Control.

Access policy

CONTACTS

Name	Affiliation	Email	URL

ACCESS CONDITIONS

The user undertakes:

- (1) to acknowledge the data source.
- (2) to share any planned publications with WHO prior to publication.
- (3) to offer co-authorship of any reports or publications using the survey results to the coordinator of the survey.
- (4) to use the data for non-commercial, not-for-profit public health purposes only.

CITATION REQUIREMENTS

Publications based on GSHS data should use the following acknowledgement:

"This paper uses data from the Global School-Based Student Health Survey (GSHS). GSHS is supported by the World Health Organization and the US Centers for Disease Control and Prevention."

Disclaimer and copyrights

DISCLAIMER

The data is being distributed without warranty of any kind. The responsibility for the use of the data lies with the user. In no event shall the World Health Organization be liable for damages arising from its use.
