SERIES INFORMATION

The World Bank Group Country Opinion Survey Program (COS) is an ongoing effort to systematically gauge and track the perceptions and views of the World Bank Group's clients and partners across the globe over time. The survey data give the institution a more in-depth understanding of stakeholders' views on issues related to the World Bank's work on the ground (how it operates, its relationships, and its knowledge) and other development-related issues. The Department of External and Corporate Relations Business Intelligence Team oversees the program. This collection hosts open, accessible survey data from 29 countries collected in FY 2012 (July 2011-June 2012), 41 countries in FY 2013 (July 2012-June 2013), 42 countries in FY 2014 (July 2013-June 2014), 35 countries in FY 2015 (July 2014-June 2015), 45 countries in FY 2016 (July 2015-June 2016), 35 countries in FY 2017 (July 2016-June 2017), and 39 countries in FY 2018 (July 2017-June 2018), 42 countries in FY 2019 (July 2018-June 2019), 21 countries in FY 2020 (July 2019-June 2020), 36 countries in FY 2021 (July 2020-June 2021), 23 countries in FY 2022 (July 2021-June 2022), 31 countries in FY 2023 (July 2022-June 2023) and over 40 countries in FY2024 (July 2023-June 2024). All data will be regularly updated, and more countries will be added as data becomes available.

ABSTRACT

The Country Opinion Survey in Tunisia assists the World Bank Group (WBG) in better understanding how Tunisia stakeholders perceive the WBG. It provides the WBG with systematic feedback from national and local governments, multilateral/bilateral agencies, media, academia, the private sector, and civil society in Tunisia on 1) their views regarding the general environment in Tunisia; 2) their overall attitudes toward the WBG in Tunisia; 3) overall impressions of the WBG's effectiveness and results, knowledge work and activities, and communication and information sharing in Tunisia; and 4) their perceptions of the WBG's future role in Tunisia.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Stakeholders of the World Bank Group in Tunisia

Version

VERSION DESCRIPTION

Edited, anonymized dataset for public distribution.

Sampling

SAMPLING PROCEDURE

From May to September 2024, a total of 447 stakeholders in Tunisia were invited to provide their opinions on the WBG's work by participating in a Country Opinion Survey (COS). A list of potential participants was compiled by the WBG country team and the field agency. Participants were drawn from the offices of the President, Head of Government, office of a minister, parliament, government institutions, local governments, bilateral or multilateral agencies, the private sector, civil society, academia, and the media. Of these stakeholders, 112 participated in the survey.

RESPONSE RATE

25% response rate

This year's survey results were compared to the FY18 Survey, with a response rate of 18% (N=198). Comparing responses across Country Surveys provides insights into changes in attitudes over time; however, it is also influenced by variations in respondent samples, methodological changes, and updates to the survey instrument. To minimize the impact of the latter, only questions with comparable response scales and options were analyzed. This year's survey featured a different distribution of respondents across stakeholder groups, with a lower representation from civil society and academia and a higher representation from the media. Furthermore, 70% of respondents in this survey reported collaborating with the WBG, compared to only 27% in the FY18 survey. These shifts in stakeholder composition between the two years should be carefully considered when interpreting the results of the past-year comparison analyses.

Data collection
