ABSTRACT
The Quarterly Labour Force Survey (QLFS) is a household-based sample survey conducted by Statistics South Africa that collects data on the labour market activities of individuals aged 15 years or older who live in South Africa. Since 2008, Statistics SA have produced an annual dataset based on the QLFS data, Labour Market Dynamics in South Africa (LMDSA). The LMDSA is constructed using data from all all four QLFS in the year. The data also includes a number of variables (including income) that are not available in any of the QLFS datasets from 2010.
