Identification

SURVEY ID NUMBER

GTM_1994_PHC_v01_M_v7.5_A_IPUMS

TITLE

X Population Census and V Housing Census of 1994 - IPUMS Subset

ABBREVIATION OR ACRONYM

PHC Guatemala 1994 (IPUMS Harmonized Subset)

COUNTRY

Name	Country code
Guatemala	GTM

STUDY TYPE

Population and Housing Census [hh/popcen] IPUMS International

SERIES INFORMATION

DOI:10.18128/D020.V7.5

KIND OF DATA

Population and Housing Census [hh/popcen]

UNIT OF ANALYSIS

Persons, households, and dwellings

UNITS IDENTIFIED:

- Dwellings: yes
- Vacant Units: no
- Households: yes
- Individuals: yes
- Group quarters: yes

UNIT DESCRIPTIONS:

- Dwellings: A dwelling is any structurally separate and independent lodging which was (1) built, converted, or arranged for human habitation, as long as it is not being used partially or completely for any other purpose on the census date or (2) was not built for human habitation but was being used for that purpose on the census date.
- Households: A household is a single person, or several people together who may or may not be related by family ties but who live together to provide for their food and other basic needs.
- Group quarters: Collective dwellings include lodging which is structurally separate and independent and which is intended to lodge persons who do not live in households, such as hotels, boarding houses, hospitals, boarding schools, family housing with more than five boarders, campgrounds, etc.

Version

VERSION DESCRIPTION

Version 7.5. The datasets contain selected variables from the original census microdata plus harmonized variables from the IPUMS-International database.

VERSION DATE

2024-10-05

Scope

NOTES

Additional notes on a sample that is part of this study: Guatemala 1994

CONFIDENTIALITY

IPUMS International distributes integrated microdata of individuals and households only by agreement of collaborating national statistical offices and under the strictest of confidence. Before data may be distributed to an individual researcher, an electronic license agreement must be signed and approved. To gain access to the data, a researcher must agree to the following: (1) Implement security measures to prevent unauthorized access to census microdata. Under IPUMS International agreements with collaborating agencies, redistribution of the data to third parties is prohibited. (2) Use the microdata for the exclusive purposes of scholarly research and education. Researchers must explicitly agree to not use microdata acquired for any commercial or income-generating venture. (3) Maintain the confidentiality of persons, households, and other entities. Any attempt to ascertain the identity of persons or households from the microdata is prohibited. Alleging that a person or household has been identified is also prohibited. (4) Report all publications based on these data to IPUMS International, which will in turn pass the information on to the relevant national statistical agencies. Once a project is approved, a password is issued and data may be acquired through the Internet. Penalties for violating the license include: revocation of the license, recall of all microdata acquired, filing of a motion of censure to the appropriate professional organizations, and civil prosecution under the relevant national or international statutes. These safeguards mirror the principles from the Joint ECE/Eurostat Work Session on Statistical Data Confidentiality. Employees of the Minnesota Population Center who work with the census microdata to produce the harmonized database also sign agreements to respect the confidentiality of the data. IPUMS International works with each country's statistical office to minimize the risk of disclosure of respondent information. The details of the confidentiality protections vary across countries, but in all cases, names and detailed geographic information are suppressed and top-codes are imposed on variables such as income that might identify specific persons. In addition, IPUMS International uses a variety of technical procedures to enhance confidentiality protection. These include the following: (1) Swapping an undisclosed fraction of records from one administrative district to another to make positive identification of individuals impossible. (2) Randomizing the placement of households within districts to disguise the order in which individuals were enumerated or the data processed. (3) Aggregating codes of sensitive characteristics (e.g., grouping together very small ethnic categories) (4) Top- and bottom-coding continuous variables to prevent identification of extreme cases. The safety record for public-use census microdata is apparently perfect. In almost four decades of use, there has not been a single verified breach of statistical confidentiality. The measures implemented by the IPUMS International are designed to extend this record.

ACCESS CONDITIONS

An adapted version of the dataset, harmonized for international comparability, is available from IPUMS International (<https://international.ipums.org/international/>) under the following conditions:

IPUMS International distributes integrated microdata of individuals and households only by agreement of collaborating national statistical offices and under the strictest of confidence. Before data may be distributed to an individual researcher, an electronic license agreement must be signed and approved. To gain access to the data, a researcher must agree to the following:

- (1) Implement security measures to prevent unauthorized access to census microdata. Under IPUMS International agreements with collaborating agencies, redistribution of the data to third parties is prohibited.
- (2) Use the microdata for the exclusive purposes of scholarly research and education. Researchers must explicitly agree to not use microdata acquired for any commercial or income-generating venture.
- (3) Maintain the confidentiality of persons, households, and other entities. Any attempt to ascertain the identity of persons or

households from the microdata is prohibited. Alleging that a person or household has been identified is also prohibited.

(4) Report all publications based on these data to IPUMS International, which will in turn pass the information on to the relevant national statistical agencies.

Once a project is approved, a password is issued and data may be acquired through the Internet. Penalties for violating the license include: revocation of the license, recall of all microdata acquired, filing of a motion of censure to the appropriate professional organizations, and civil prosecution under the relevant national or international statutes.

These safeguards mirror the principles from the Joint ECE/Eurostat Work Session on Statistical Data Confidentiality. Employees of the Minnesota Population Center who work with the census microdata to produce the harmonized database also sign agreements to respect the confidentiality of the data.

DDI DOCUMENT VERSION

Version 7.5 October 2024. NEW FEATURES.

--Historical data from NAPP project now available from IPUMS-International.

--Historical census data from Canada, Denmark, the United Kingdom, Germany, Iceland, Norway, Sweden, and the United States for the period 1703 to 1911 are now available from IPUMS-International. The complete count and sample datasets were previously disseminated by the North Atlantic Population Project (NAPP). Where possible, the data have been integrated into existing IPUMS-International variable coding schema. Some new variables have been created that are available only for these pre-1960 datasets. NAPP data users should note that many NAPP variables are available from IPUMS-International by different names. For a complete list of NAPP variables that have been renamed in IPUMS-International, refer to the crosswalk.

--Individual country shapefiles for the third-level administrative level of geography are now available for a few IPUMS samples.

--New spatially harmonized previous-residence variables at the second administrative level of geography are available for several samples in this data release. More information is available here. Users should note that many older migration variables are available by different names. Refer to this table for a crosswalk of old and corresponding new migration variables.

--IPUMS now hosts the Census Mosaic data collection. Census Mosaic identifies, gathers, harmonizes, and distributes surviving historical census microdata from regions of Continental Europe where complete centralized records are not available. The Mosaic project was founded by a consortium of historical social scientists in Europe. Data can be downloaded as static files from the Census Mosaic website. Although the data are not yet integrated fully into IPUMS International, variables have been standardized and harmonized to be roughly compatible with IPUMS coding structures.

NEW SAMPLES.

--Full-count datasets for Great Britain 1851, 1861, 1871 (Scotland only), 1891, and 1901.

--Full-count dataset for Sweden 1910. Denmark (1845, 1880, and 1885)

--Labor force surveys from Spain and eight new labor force surveys from Italy added to the series.

Newly added countries:

Benin, Cote d'Ivoire, Finland, Guatemala, Honduras, Laos, Lesotho, Mauritius, Myanmar, Papua New Guinea, Russia, Slovak Republic, Suriname, Togo, and Zimbabwe

New samples for:

Bolivia, Cambodia, Chile, Cuba, Cote d'Ivoire, Egypt (1848 and 1868, historical samples), Fiji, Guinea, Ireland, Israel, Italy, Lao PDR, Mexico, Morocco, Nepal, Netherlands, Palestine, Peru, Philippines, Puerto Rico, Rwanda, Senegal, Sierra Leone, South Africa, Switzerland, Uganda, United States, United Kingdom, United States, Vietnam, and Zimbabwe

SUPPLEMENTAL DATA.

Data from censuses from Benin and Lesotho that record individual fertility and/or mortality events were made available in IPUMS-International. These files can be downloaded and linked to data produced by the extract system.

NEW VARIABLES.

--IPUMS-International now provides harmonized and year-specific geography variables for all countries including 13 new samples from Dominican Republic, Germany, Indonesia, Israel, Malaysia, Mongolia, Nicaragua, Nigeria, Palestine, Paraguay, Thailand, United Kingdom, and Uruguay. First-level and second-level year specific geography variables are also available for all countries. IPUMS provides corresponding, downloadable GIS boundary files for all harmonized and year specific geography variables. More information about IPUMS geography variables is available here.

--IPUMS International now provides spatially harmonized previous-residence variables at the first administrative level of geography. The codes for the spatially harmonized previous-residence variables match the spatially harmonized place of current residence. More information is available here.

--IPUMS International provides spatially harmonized previous-residence variables at the first administrative level of geography for all samples; previously available country-specific migration variables at the first administrative level that were not fully harmonized spatially have been phased out. Spatially harmonized previous-residence variables at the second administrative level of geography are available for selected samples. More information is available here. Users should note that many older migration variables are available by different names. Refer to this table for a crosswalk of old and corresponding new migration variables.

--IPUMS International now provides spatially harmonized previous-residence variables at the first administrative level of geography for all samples. Spatially harmonized previous-residence variables at the second administrative level of geography are available for several samples in this data release. More information is available [here](#). Users should note that many older migration variables are available by different names. Refer to this [table](#) for a crosswalk of old and corresponding new migration variables.

--Lower (third) level geography codes and GIS files have been added for Bangladesh, China, Ethiopia, Mali, Rwanda, and Zimbabwe. Some geography codes and labels might have changed for these countries to accommodate the newer lower level geography.

--Added more detailed 3-digit industry and occupation variables for China 2000.

EDITED SAMPLES.

--Revised full-count data for Great Britain 1881

--Revised full-count datasets for Sweden 1890 and 1900. The revision includes the following changes that improve comparability across Sweden datasets:

--Revisions to certain ethnicity and work variables (and the underlying source data): ORIGIN, LABFORCE, OCCHISCO, OCRELATE, OCSTATUS.

--Revisions to unharmonized source variables: SE1890A_HISCOSE, SE1890A_HISCRELSE, SE1890A_HISCSTATSE, SE1890A_OCCMULTISE, SE1900A_HISCOSE, SE1900A_HISCRELSE, SE1900A_HISCSTATSE, SE1900A_OCCMULTISE.

--A new United States 1850 full-count dataset now matches the corresponding dataset distributed by the USA IPUMS data project. The source variable US1850A_0502 (HISTID) provides a linking key to match person records to the USA version of the data. The IPUMS International version of the data contains names, which the USA version cannot distribute.

EDITED VARIABLES.

An error affecting HHWT for South Africa 2007 was corrected. The existing values were adjusted by a factor of 0.01.

AGEMARR was edited to add data for Hungary 1980 and 1990.

Harmonized and year-specific geography variables for Brazil and Colombia have been edited to accommodate for the availability of refined municipal boundaries. Users should be aware that codes and labels have changed in all harmonized and year specific geography variables for these two countries.

Errors affecting BPLSE2 (formerly BPLPARSE) for Sweden 1890 and the underlying source variable were corrected. Several thousand cases were incorrectly coded as 258101000. These cases have been updated with the correct code: 258171000.

Harmonized geography variables for Italy, Philippines, Rwanda, and United States have been edited to accommodate new samples. Users should be aware that codes and labels have changed in all harmonized and year specific geography variables for these countries. More information about IPUMS geography variables is available [here](#).

The codes for the source variable RW2002A_0419 were corrected to include 0 and 8 as possible responses, which were previously identified as 'unknown years' within primary education.

Errors affecting EDUCFJ for Fiji 2006 were corrected.

A problem with PERWT for Tanzania 2012 was corrected. The previous weights were adjusted to properly reflect population totals.

MOMLOC, POPLOC, and PARRULE were updated for the United States 2010 and 2015 samples to include additional information on subfamilies. Prior to this correction, persons above age 17 were not receiving links to their co-resident mothers and fathers.

An error affecting codes for the URBAN variable in Egypt 1986 for Cairo, Alexandria, Port-Said, and Suez was corrected.

An error in INCEARN affecting Venezuela 2001 was corrected. Earned income in the source variable VE2001A_0440 is interpreted as a monthly amount, thus adjustments previously applied to convert data from daily or weekly income were suppressed.

All the six Brazil samples in IPUMS International were replaced with higher density samples.

An edited version of the Chile 2017 sample was introduced to correct an error in household breaks.

Errors affecting codes for GEO1_ZA in South Africa 2011 and ENUTS1 in United Kingdom 1991 were corrected.

Harmonized geography variables for Cambodia, Fiji, and Nepal have been edited to accommodate new samples. Users

should be aware that codes and labels have changed in all harmonized and year-specific geography variables for these countries. More information about IPUMS geography variables is available [here](#).

An error in PERWT affecting Nepal 2001 was corrected.

Errors affecting a code in GQ for Brazil 2010 and Indonesia 2010 were corrected. Both census samples now identify 1-person units created by splitting a large household.

An error in MARRNUM affecting Indonesia 1976 was corrected. Some codes for GEO1_EG2006 and GEO2_EG2006 were edited.

Harmonized geography variables for Bolivia, Cuba, Guinea, Ireland, Morocco, Palestine, Senegal, South Africa, and Uganda have been edited to accommodate new samples. Users should be aware that codes and labels have changed in all harmonized and year-specific geography variables for these countries. More information about IPUMS geography variables is available [here](#).

An error in INCEARN affecting Brazil 1980 was corrected.

An error in EDATTAIN affecting Ireland 1971 and 1981 was corrected.

A small proportion of person records in Mexico 1960 were re-classified in MIGRATEP based on information about their current and previous residence. These were previously coded to 'different major administrative unit', even though their place of residence suggests that their last move was within the same major administrative unit.

The second-level technician (higher) degrees for Spain 1991, 2001, and 2011 were re-classified into post-secondary technical education in EDATTAIN.

An error affecting codes for SEX for Egypt 1848 and 1868 was corrected. The values for male and female had been reversed.

A problem with HHWT and PERWT for Canada 2011 was corrected. The previous weights were adjusted to properly reflect population totals.

Harmonized geography variables for Cambodia, Lao PDR, Mexico, Peru, Switzerland, Vietnam, Puerto Rico, United Kingdom, and United States have been edited to accommodate new samples. Users should be aware that codes and labels have changed in all harmonized and year-specific geography variables for these countries. More information about IPUMS geography variables is available [here](#).

Harmonized geography variables for Chile and Sierra Leone have been edited to accommodate new samples. Users should be aware that codes and labels have changed in all harmonized and year-specific geography variables for these countries. More information about IPUMS geography variables is available [here](#).

An error affecting codes for COMPUTER for Senegal 2013 was corrected.

An error affecting labels available in IND for Peru 1993 was corrected.

An error affecting codes for persons previously residing abroad for MIG1_5_BO in Bolivia 2001 and 2012 was corrected.

EDUCAR, EDATTAIN, and YRSCHOOL were adjusted in the Argentina samples to incorporate information on completion of education levels in the data harmonization.

HHWT and PERWT were calibrated in Kenya 1979 to properly reflect the population distribution by province.

In GQ (group quarters status), persons residing in hospitals of all types were reclassified to 'institutional group quarters' from 'other group quarters,' making their treatment consistent with GQTYPE.

Errors affecting codes for BPLBJ2 in Benin 1979, 1992, and 2002 were corrected.

Errors affecting codes for GEO2_BR1970 in Brazil 1970 were corrected.

20	Group quarters (collective), n.s.
21	Institutions
22	Other group quarters
29	1-person unit created by splitting large household
99	Unknown/group quarters not identified

description

DEFINITION

GQ identifies households as vacant dwellings, group quarters, or private households. Group quarters -- collective dwellings -- are generally institutions and other group living arrangements such as rooming houses and boarding schools.

Institutions often retain persons under formal supervision or custody, such as correctional institutions, military barracks, asylums, or nursing homes. Educational and religious group dwellings (e.g., boarding schools, convents, monasteries, etc.) are also included in the institutional classification.

Group quarter designations are often useful for understanding the universe of households that answered questions about household characteristics. Censuses will often exclude group quarters from such questions.

999	NIU (not in universe)

description

DEFINITION

QTYPE identifies the type of group quarters -- collective dwellings -- which are broadly classified into institutional and non-institutional types.

Institutions are a place of residence where people are subject to a common authority or bound by a common objective or personal interest. The definition encompasses correctional facilities, health institutions, retirement homes, orphanages,

shelters (social welfare institutions), military or police establishments, boarding schools, and religious group dwellings.

Non-institutional group quarters comprise refugee and workers' camps (temporary accommodation), hotels, pensions, and all types of boarding or lodging houses. The "floating population" is included as a category within the non-institutional group quarters, when identified by the corresponding sample. This group refers to outdoor sleepers, homeless persons, travelers, and persons in ships, boats, or other mobile dwellings.

A more general classification of households between private and group quarters is available in GQ.

Group Quarters Variables -- HOUSEHOLD	IPUMS

HHWT: Household weight

Data file: GTM1994_PHC-H-H.dat

Overview

Type: Continuous Decimal: 2 Width: 8 Range: - Format: Numeric

description

DEFINITION

HHWT indicates the number of households in the population represented by the household in the sample.

For the samples that are truly weighted (see the comparability discussion), HHWT must be used to yield accurate household-level statistics.

NOTE: HHWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

concept

CONCEPT

var_concept.title	Vocabulary
Technical Household Variables -- HOUSEHOLD	IPUMS

Imputation and derivation

DERIVATION

HHWT is an 8-digit numeric variable with 2 implied decimal places. See the variable description.

PERSONS: Number of person records in the household

Data file: GTM1994_PHC-H-H.dat

Overview

Type: Continuous Decimal: 0 Width: 4 Range: - Format: Numeric

description

DEFINITION

PERSONS indicates how many person records are included in the household (i.e., the number of person records associated with the household record in the sample). These person records will all have the same serial number (SERIAL) as the household record. The information contained in the household record will normally apply to all of these persons.

concept

CONCEPT

var_concept.title	Vocabulary
Technical Household Variables -- HOUSEHOLD	IPUMS

Imputation and derivation

DERIVATION

PERSONS is a 4-digit numeric variable.

RECTYPE: Record type

Data file: GTM1994_PHC-H-H.dat

Overview

Type: Continuous Decimal: 0 Width: 1 Range: - Format: character

Questions and instructions

CATEGORIES

Value	Category
H	Household
P	Person

description

DEFINITION

RECTYPE identifies the type of record for the case: household or person.

NOTE: RECTYPE is an alphabetic (character string) variable with a value of 'H' for household records and 'P' for person records. RECTYPE will not appear as a variable in the default rectangular extracts produced by the data extract system. It is only available in hierarchical extracts, to distinguish between the two record types.

description

DEFINITION

SAMPLE identifies the IPUMS sample from which the case is drawn. Each sample receives a unique 9-digit code. The code is structured as follows:

The first 3 digits are the ISO/UN codes used in COUNTRY

The next 4 digits are the year of the census/survey

The final 2 digits identify the sample within the year. For the last two digits, censuses or large census-like surveys have a value "0" (e.g, 01) in the second-to-last digit, household surveys have a value of "2" (e.g., 21), and employment surveys have a value of "4" (e.g., 41).

Technical Household Variables -- HOUSEHOLD	IPUMS

SERIAL: Household serial number

Data file: GTM1994_PHC-H-H.dat

Overview

Type: Continuous Decimal: 0 Width: 12 Range: - Format: Numeric

description

DEFINITION

SERIAL is an identifying number unique to each household in a given sample. All person records are assigned the same serial number as the household record that they follow. (Person records also have their own unique identifiers -- see PERNUM.) The combination of SAMPLE and SERIAL provides a unique identifier for every household in the IPUMS-International database; SAMPLE, SERIAL and PERNUM uniquely identify every person in the database.

SERIAL can be used to identify dwellings in some samples. In these samples, the first 7 digits of SERIAL provide the dwelling number common to all households that were sampled from the same structure. The last three digits give the sequence of the household within the dwelling. The following is a list of samples in which dwellings can be inferred:

Chile 1970, 1992, 2002Colombia 1993, 2005Costa Rica 1984, 2000Cuba 2002Dominican Republic 1981, 2002, 2010Ecuador 1990, 2001Germany 1971Hungary 1980, 1990, 2001Jamaica 1982, 1991, 2001Malaysia 1970, 1991, 2000Mexico 1995, 1990, 2000, 2005Nigeria 2006Panama 2000Peru 1993, 2007Portugal 1981, 1991, 2001Spain 1991Uruguay 2011Venezuela 1990, 2001Vietnam 1989In all other samples, the last 3 digits are always zeroes.

SERIAL was constructed for IPUMS-International, and has no relation to the serial number in the original datasets.

The U.S. 1900 sample and 1880 10% sample have multi-household dwellings that can be identified using the last 3 digits of SERIAL.

concept

CONCEPT

var_concept.title	Vocabulary
Technical Household Variables -- HOUSEHOLD	IPUMS

Imputation and derivation

DERIVATION

SERIAL is a 10-digit numeric variable.

The last 3 digits of SERIAL indicate household number within dwelling for selected samples noted in the variable description. In all other samples, the last 3 digits are always zeroes.

description

DEFINITION

SUBSAMP allocates each case to one of 100 subsample replicates, randomly numbered from 0 to 99. Each subsample is nationally representative and preserves any stratification of the sample from which it is drawn. Users who need a

representative subset of a sample can use SUBSAMP to select their cases. For example, to randomly extract 10% of the cases from a sample, select any 10 of the 100 subsamples.

AREAMOLLWGE01: Area of GEOLEV1 unit in square kilometers

Data file: GTM1994_PHC-H-H.dat

Overview

Type: Continuous Decimal: 0 Width: 10 Range: - Format: Numeric

description

DEFINITION

AREAMOLLWGE01 indicates the area in square kilometers of the major administrative unit in which the household was enumerated. The major administrative unit of the household is identified by the GEOLEV1 variable.

The area of units in GEOLEV1 is calculated using Mollweide's equal area projection. For a full set of geography variables refer to IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1 and GEOLEV2. More information on IPUMS-International geography can be found here.

description

DEFINITION

GEO1_GT identifies the household's department within Guatemala in all sample years. Departments are the first level administrative units of the country. GEO1_GT is spatially harmonized to account for political boundary changes across census years. Some detail is lost in harmonization; see the comparability discussion. A GIS map (in shapefile format), corresponding to GEO1_GT can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Guatemala can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found here.

description

DEFINITION

GEO2_GT identifies the household's municipality within Guatemala in all sample years. Municipalities are the second level administrative units of the country, after departments. GEO2_GT is spatially harmonized accounting for political boundary changes across census years. Some detail is lost in harmonization; see the comparability discussion. A GIS map (in shapefile format), corresponding to GEO2_GT can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Guatemala can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found here.

description

DEFINITION

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

2	2 families
3	3 families
4	4 families
5	5 families
6	6 families
7	7 families
8	8 families
9	9 or more families

description

DEFINITION

NFAMS is a constructed variable that indicates the number of families within each household. Family membership is defined by FAMUNIT. A "family" is any group of persons related by blood, adoption, or marriage. An unrelated individual within the household is considered a separate family. Thus, a household consisting of a widow and a domestic employee contains two families; a household consisting of a large, multi-generation extended family with no persons unrelated to the head counts as a single family.

NFAMS is constructed from information in RELATE (relationship to head) and from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father). See those variable descriptions for more detail.

INTERVIEWER INSTRUCTIONS

3.3.2 Section II: Dwelling characteristics

This section contains questions and options about the characteristics of the premise. These questions are not applicable to the enumeration of the homeless population.

1. Type of dwelling

What is a dwelling?

A dwelling is a separate and independent lodging which was built, converted or arranged for human habitation. It may be inhabited at the time of the census even though it was not built as a dwelling. It may not be used in part or full for any other purpose at the time of the census.

A dwelling has two essential characteristics:

a) Separate: a lodging can be considered separate if it is surrounded by walls and covered by a roof in such a way that a person or group of persons has privacy and safety, and is separate from other persons in the community for purposes of sleeping, preparing and eating food, and protecting himself/herself from inclement weather (rain, sun, wind).

b) Independent: a lodging can be considered independent if it has direct access from the street, stairway, hallway or courtyard, i.e., when the occupants can go in and out of a dwelling without going through premises (dwellings) inhabited by other people.

There are two types of dwelling, private and collective.

[A drawing of a private dwelling and a collective dwellings are reproduced here.]

[p. 40]

This manual and this census refer only to the homeless population. There is no categorization for type of premise.

description

DEFINITION

MOMLOC: Mother's location in household**Data file:** GTM1994_PHC-P-H.dat**Overview**

Type: Continuous Decimal: 0 Width: 3 Range: - Format: Numeric

description

DEFINITION

MOMLOC is a constructed variable that indicates whether or not the person's mother lived in the same household and, if so, gives the person number of the mother (see PERNUM). MOMLOC makes it easy for researchers to link the characteristics of children and their (probable) mothers.

The method by which probable child-mother links are identified is described in PARRULE.

The general design of MOMLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly. For more details on the construction of MOMLOC, see the Comparability section of PARRULE and this paper on IPUMSI family linking methodology.

Note: MOMLOC identifies social relationships (such as stepmother and adopted mother) as well as biological relationships. The variable STEPMOM is designed to identify some of these social relationships. To restrict MOMLOC to biological mothers, such as for own children fertility estimation, MOMLOC should be reset to zero when STEPMOM is greater than zero.

concept

41	Other Relatives, within empirical child cap
42	Other Relatives, within constructed child cap
51	Non-Relatives, within empirical child cap
52	Non-Relatives, within constructed child cap

description

DEFINITION

PARRULE describes the criteria by which the IPUMS International variables MOMLOC and POPLOC linked the person to a probable mother and/or father.

IPUMS International establishes child-parent links according to five basic rules, and PARRULE gives the number of the rule that applied to the link in question. A link to any parent automatically generates a second link to that parent's spouse or partner, so only one rule is needed to describe both MOMLOC and POPLOC.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

Constructed Family Interrelationship Variables -- PERSON	IPUMS

PERNUM: Person number

Data file: GTM1994_PHC-P-H.dat

Overview

Type: Continuous Decimal: 0 Width: 4 Range: - Format: Numeric

description

DEFINITION

PERNUM numbers all persons within each household consecutively (starting with "1" for the first person record of each household). When combined with SAMPLE and SERIAL, PERNUM uniquely identifies each person in the IPUMS-International database.

concept

CONCEPT

var_concept.title	Vocabulary
Technical Person Variables -- PERSON	IPUMS

Imputation and derivation

DERIVATION

PERNUM is a 4-digit numeric variable.

PERWT: Person weight

Data file: GTM1994_PHC-P-H.dat

Overview

Type: Continuous Decimal: 2 Width: 8 Range: - Format: Numeric

description

DEFINITION

PERWT indicates the number of persons in the actual population represented by the person in the sample.

For the samples that are truly weighted (see the comparability discussion), PERWT must be used to yield accurate statistics for the population.

NOTE: PERWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

concept

CONCEPT

var_concept.title	Vocabulary
Technical Person Variables -- PERSON	IPUMS

DERIVATION

PERWT is an 8-digit numeric variable with 2 implied decimal places. See the variable description.

POLYMAL: Man with more than one wife linked

Data file: GTM1994_PHC-P-H.dat

Overview

Type: Discrete Decimal: 0 Width: 1 Range: - Format: Numeric

Questions and instructions

CATEGORIES

Value	Category
0	No more than one wife linked via SPLOC
1	More than one wife linked via SPLOC

description

DEFINITION

POLYMAL indicates if a man had more than one wife linked to him in the constructed IPUMS variable SPLOC -- Spouse's Location in Household.

The point of POLYMAL is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

concept

CONCEPT

var_concept.title	Vocabulary
Constructed Family Interrelationship Variables -- PERSON	IPUMS

POPLOC: Father's location in household

Data file: GTM1994_PHC-P-H.dat

Overview

Type: Continuous Decimal: 0 Width: 3 Range: - Format: Numeric

description

DEFINITION

POPLOC is a constructed variable that indicates whether or not the person's father lived in the same household and, if so, gives the person number of the father (see PERNUM). POPLOC makes it easy for researchers to link the characteristics of children and their (probable) fathers.

The method by which probable child-father links are identified is described in PARRULE.

The general design of POPLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly. For more details on the construction of POPLOC, see the Comparability section of PARRULE and this paper on IPUMSI family linking methodology.

Note: POPLOC identifies social relationships (such as stepfather and adopted father) as well as biological relationships. The variable STEPPOP is designed to identify some of these social relationships. To restrict POPLOC to biological mothers, such as for own children fertility estimation, POPLOC should be reset to zero when STEPPOP is greater than zero.

concept

CONCEPT

var_concept.title	Vocabulary
Constructed Family Interrelationship Variables -- PERSON	IPUMS

DERIVATION

POPLOC is a 3-digit numeric variable.

Codes0 = No father of this person present in the household.
1 or higher = The person number of this person's father

SPLOC: Spouse's location in household

Data file: GTM1994_PHC-P-H.dat

Overview

Type: Continuous Decimal: 0 Width: 3 Range: - Format: Numeric

description

DEFINITION

SPLOC is a constructed variable that indicates whether or not the person's spouse lived in the same household and, if so, gives the person number (PERNUM) of the spouse. SPLOC makes it easy for researchers to link the characteristics of (probable) spouses.

The method by which probable spouse-spouse links are identified is described in SPRULE.

The general design of SPLOC and other constructed variables is modeled on the methods developed for IPUMS-USA "Family Interrelationships", but the details vary significantly. For more details on the construction of SPLOC, see the Comparability section of SPRULE and this paper on IPUMSI family linking methodology.

Constructed Family Interrelationship Variables -- PERSON	IPUMS

STEPMOM: Probable stepmother

Data file: GTM1994_PHC-P-H.dat

Overview

Type: Discrete Decimal: 0 Width: 1 Range: - Format: Numeric

Questions and instructions

CATEGORIES

Value	Category
0	Biological mother or no mother present
1	Mother has no children born or surviving
2	Child reports mother is deceased
3	Explicitly identified step relationship
4	Mother reports no children in the home
5	Age difference implausible
6	Child exceeds known fertility of mother

description

DEFINITION

STEPMOM indicates whether a person's mother, as identified by MOMLOC, was most probably not the person's biological mother. Non-zero values of STEPMOM explain why it is probable that the person's mother was a step- or adopted mother. A value of 0 indicates no likely stepmother because (1) the mother identified in MOMLOC was probably the biological mother or (2) there is no mother of this person present in the household.

The codes for STEPMOM are as follows:

- 0 = Biological mother or no mother of this person present in household.
- 1 = Mother has no children born or surviving.
- 2 = Child reports mother is deceased.
- 3 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner, stepchild/child-in-law).
- 4 = Mother reports no children in the home.
- 5 = Age difference between mother and child was less than 12 or greater than 54 years.
- 6 = Child exceeds known fertility of mother.

In cases where more than one criterion for a likely stepmother is met, STEPMOM will take the value of the criterion with the lowest code. See PARRULE for a description of the linking process.

Users should note that there are many stepmothers and adopted mothers in the population that cannot be identified with information available in the censuses. Therefore, STEPMOM will always under-represent their actual number in the population.

CONCEPT

var_concept.title	Vocabulary
Constructed Family Interrelationship Variables -- PERSON	IPUMS

STEPPOP: Probable stepfather

Data file: GTM1994_PHC-P-H.dat

Overview

Type: Discrete Decimal: 0 Width: 1 Range: - Format: Numeric

Questions and instructions

CATEGORIES

Value	Category
0	Biological father or no father present
1	Child reports father is deceased
2	Explicitly identified step relationship
3	Age difference implausible
4	Spouse of mother
5	Identified as adopted
6	Surname difference -- male child or never-married female

description

DEFINITION

STEPPOP indicates whether a person's father, as identified by POPLOC, was most probably not the person's biological father. Non-zero values of STEPPOP explain why it is probable that the person's father was a step- or adopted father. A value of 0 indicates no likely stepfather because (1) the father identified in POPLOC was probably the biological father or (2) there is no father of this person present in the household.

The codes for STEPPOP are as follows:

- 0 = Biological father or no father of this person present in household.
- 1 = Child reports father is deceased.
- 2 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner; stepchild/child-in-law).
- 3 = Age difference between father and child was less than 12 or greater than 54 years.

In cases where more than one criterion for a likely stepfather is met, STEPPOP will take the value of the criterion with the lowest code. See PARRULE for a description of the linking process.

Users should note that there are many stepfathers and adopted fathers in the population that cannot be identified with information available in the censuses. Therefore, STEPPOP will always under-represent their actual number in the population.

description

DEFINITION

FAMSIZE counts the number of the person's own family members living in the household with her/him, including the person her/himself. These include all persons related to the person by blood, adoption, or marriage as indicated by the census forms or inferred from them.

FAMSIZE is calculated from the units identified in the IPUMS constructed variable FAMUNIT (family unit membership). The primary family is defined as all persons related to the head in the RELATE variable. Secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

CONCEPT

var_concept.title	Vocabulary
Constructed Family Interrelationship Variables -- PERSON	IPUMS

FAMUNIT: Family unit membership

Data file: GTM1994_PHC-P-H.dat

Overview

Type: Continuous Decimal: 0 Width: 4 Range: - Format: Numeric

description

DEFINITION

FAMUNIT is a constructed variable indicating to which family within the household a person belongs.

All persons related to the household head receive a 1 (see RELATE). Each secondary family or secondary individual receives a higher code. For purposes of FAMUNIT, secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

concept

CONCEPT

var_concept.title	Vocabulary
Constructed Family Interrelationship Variables -- PERSON	IPUMS

Imputation and derivation

DERIVATION

FAMUNIT is a 4-digit numeric variable.

CodesIf there is only one group of related individuals within the household, all of them will be coded "1;" if there is a second, separate such group listed on the form, all of them will be coded "2," and so on.

NCHILD: Number of own children in household

POLY2ND: Woman is second or higher order wife

Data file: GTM1994_PHC-P-H.dat

Overview

Type: Discrete Decimal: 0 Width: 1 Range: - Format: Numeric

Questions and instructions

CATEGORIES

Value	Category
0	Person is not the 2nd or higher order wife linked via SPLOC
1	Person is the 2nd or higher order wife linked via SPLOC

description

DEFINITION

POLY2ND indicates if a woman was the second or higher order wife linked to a husband in the constructed IPUMS variable

SPLOC -- Spouse's Location in Household. The variable does not suggest the actual marital order of wives, only their relative positions in the person order of the household as it was enumerated.

The point of POLY2ND is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

CATEGORIES

Value	Category
0	NIU (not in universe)
1	Single/never married
2	Married/in union
3	Separated/divorced/spouse absent
4	Widowed
9	Unknown/missing

description

DEFINITION

MARST describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

description

DEFINITION

EDATTAIN records the person's educational attainment in terms of the level of schooling completed (degree or other milestone). The emphasis on level completed is critical: a person attending the final year of secondary education receives the code for having completed lower secondary only -- and in some samples only primary.

EDATTAIN does not necessarily reflect any particular country's definition of the various levels of schooling in terms of terminology or the number of years of schooling. EDATTAIN is an attempt to merge -- into a single, roughly comparable variable -- samples that provide degrees, ones that provide actual years of schooling, and those that have some of both. In addition to EDATTAIN, a country-specific education classification is provided which loses no information and reflects the particular educational system of that country (for example EDUCBR for Brazil, EDUCCL for Chile, and EDUCUS for the United States). As always, users can refer to the original education source variables for each sample, if they wish.

Many samples also give single years of schooling completed, recorded in YRSCHOOL. Some samples provide educational information in a form that could not be incorporated into EDATTAIN.

description

DEFINITION

YRSCHOOL indicates the highest grade/level of schooling the person had completed, in years. Only formal schooling is counted. YRSCHOOL accounts for the number of years of study, regardless of the track or kind of study. Information on degree and/or technical track is available in EDATTAIN. Years of schooling for Israel, categorized into intervals, are given in YRSCHOOL2.

Users should pay close attention to the top-codes in each sample, as discussed in the comparability section.

CLASSWK: Status in employment (class of worker) [general version]

Data file: GTM1994_PHC-P-H.dat

Overview

Type: Discrete Decimal: 0 Width: 1 Range: - Format: Numeric

Questions and instructions

CATEGORIES

Value	Category
0	NIU (not in universe)
1	Self-employed
2	Wage/salary worker
3	Unpaid worker
4	Other
9	Unknown/missing

description

DEFINITION

CLASSWK refers to the status of an economically active person with respect to his or her employment -- that is, the type of explicit or implicit contract of employment with other persons or organizations that the person has in his/her job. In general, the variable indicates whether a person was self-employed, or worked for someone else, either for pay or as an unpaid family worker. CLASSWK is related to EMPSTAT, which is used to define the universe in many samples.

Class of worker is often referred to as "status in employment" in other sources.

EMPSTAT: Activity status (employment status) [general version]**Data file:** GTM1994_PHC-P-H.dat**Overview**

Type: Discrete Decimal: 0 Width: 1 Range: - Format: Numeric

Questions and instructions

CATEGORIES

Value	Category
0	NIU (not in universe)
1	Employed
2	Unemployed
3	Inactive
9	Unknown/missing

description

DEFINITION

EMPSTAT indicates whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EMPSTAT can also convey further information.

The first digit of EMPSTAT is fully comparable, and classifies the population into three groups: employed, unemployed, and inactive. The combination of employed and unemployed yields the total labor force. The second and third digits of EMPSTAT preserve additional information available for some countries and census years but not for others.

Employment status is sometimes referred to in other sources as "activity status".

Imputation and derivation

DERIVATION

IND is a 5-digit numeric variable.

Some samples use fewer than 5 digits. In those cases, the data are right-justified, and the extra leading digits are padded with zeroes.

999	Unknown

description

DEFINITION

INDGEN recodes the industrial classifications of the various samples into twelve groups that can be fairly consistently identified across all available samples. The groupings roughly conform to the International Standard Industrial Classification (ISIC). The third digit of INDGEN retains important detail among the service industries that could not be consistently distinguished in all samples.

"Industry" refers to the activity or product of the establishment or sector in which a person worked.

LABFORCE: Labor force participation

Data file: GTM1994_PHC-P-H.dat

Overview

Type: Discrete Decimal: 0 Width: 1 Range: - Format: Numeric

Questions and instructions

CATEGORIES

Value	Category
1	No, not in the labor force
2	Yes, in the labor force
8	Unknown
9	NIU (not in universe)

description

DEFINITION

LABFORCE is a dichotomous variable identifying whether a person participated in the labor force. Labor force participation generally means working or seeking work within a specified reference period.

For most samples LABFORCE is a recode of EMPSTAT (employment status). A consistent lower age universe of 15 or older

has been applied to increase comparability across samples. Full detail is retained in EMPSTAT, which should be used for any study of child labor.

DEFINITION

OCC records the person's primary occupation, classified according to the system used by the respective national census office at the time. For someone with more than one job, the primary occupation is usually the one in which the person spent the most time or earned the most money, although this may not have been explicit in the instructions for a specific census.

To ensure confidentiality, very small occupations are recoded to a residual category indicating the persons had an occupation, but the job title is not identified. The number of cases recoded should be too small to affect analyses.

Imputation and derivation

DERIVATION

OCC is a 4-digit numeric variable.

Some samples use fewer than 4 digits. In those cases, the data are right-justified, and the extra leading digits are padded with zeroes.

description

DEFINITION

OCCISCO records the person's primary occupation, coded according to the major categories in the International Standard Classification of Occupations (ISCO) scheme for 1988. For someone with more than one job, the primary occupation is typically the one in which the person had spent the most time or earned the most money.

description

DEFINITION

CLASSWK refers to the status of an economically active person with respect to his or her employment -- that is, the type of explicit or implicit contract of employment with other persons or organizations that the person has in his/her job. In general, the variable indicates whether a person was self-employed, or worked for someone else, either for pay or as an unpaid family worker. CLASSWK is related to EMPSTAT, which is used to define the universe in many samples.

Class of worker is often referred to as "status in employment" in other sources.

description

DEFINITION

GEOMIG1_5 indicates the major administrative unit in which the person resided five years prior to the survey. Only intra-national migrations are recorded; however, the variable incorporates geographies for every country that lists place of residence five years ago, to enable comparative analysis of subnational migration. Foreign migrants are coded 097 or 997. Codes for GEOMIG1_5 match the geographic codes in GEOLEV1 (current place of residence). For similar information for different time intervals since migration, see variables GEOMIG1_P, GEOMIG1_1, and GEOMIG1_10. More on migration and geography can be found here.

description

DEFINITION

GEOMIG1_P indicates the major administrative unit in which the person previously resided prior to the survey. Only intra-national migrations are recorded; however, the variable incorporates geographies for every country that lists place of

previous residence, to enable comparative analysis of subnational migration. Foreign migrants are coded 097 or 997. Codes for GEOMIG1_1 match the geographic codes in GEOLEV1 (current place of residence).

For similar information for different time intervals since migration, see variables GEOMIG1_1, GEOMIG1_5, and GEOMIG1_10. More on migration and geography can be found [here](#).

description

DEFINITION

MIG1_5_GT indicates the person's department of residence five years ago (for the 1973 and 1981 samples), four years ago (for the 1994 sample), or six years ago (for the 2002 sample) within Guatemala.

Click on the Source Variables tab for information on place of residence for each sample year. Source variables may contain more geographic unit detail but are not suitable for cross-temporal comparison.

11	Same major, same minor administrative unit
12	Same major, different minor administrative unit
20	Different major administrative unit
30	Abroad
99	Unknown/missing

description

DEFINITION

MIGRATE5 indicates the person's place of residence 5 years ago. The first digit records movement across major administrative divisions and countries. The second digit reports movement across minor administrative divisions, for samples in which that detail is available.

description

DEFINITION

MIG2_5_GT indicates the person's municipality of residence, five years ago (for the 1973 and 1981 samples), four years ago (for the 1994 sample), or six years ago (for the 2002 sample) within Guatemala. Migration municipality codes for MIG2_5_GT are compatible with codes for GEO2_GT.

Click on the Source Variables tab for information on place of residence for each sample year. Source variables may contain more geographic unit detail but are not suitable for cross-temporal comparison.

INTERVIEWER INSTRUCTIONS

3.3.4 Section VII: Persons in the census household

The first seven questions sets in this section refer to family relationship, age, sex, current marital status, ethnic group, death of mother and disability.

Questions 8-12 refer to the person's migration and ethnic characteristics. Only questions 11 and 12 are for persons aged three and older.

Questions 13-15 refer to literacy, level of education and attendance at school and are intended for persons aged seven and older.

The four following questions (16-19) refer to the person's type of economic activity, principal employment, branch of

activity, and occupational category. They are also intended for persons aged seven and older.</p>

<p>The last five questions (20-24) cover fertility, and are intended only for females aged 12 and older.</p>

<p>The housing form has enough space to record a maximum of ten person, and so the section is repeated an equal number of times. The information about each person who spends the night in the homeless shelter should be written in the same order as they were listed in section V, "list of persons."</p>

<p>If the homeless shelter has more than ten persons, use an additional form.</p>

<p>Section VII is designed to allow you to record the complete information about one person. Write the person's order number in the grid space according to the list in section V. Spell out completely the first names and complete surnames of each person.</p>

<p>2. Age

"Age" is understood to mean the length of time between the date of birth and the census date, expressed in completed years.</p>

<p>Ask, "How old are you in completed years?" Write the age in completed years in the corresponding grid spaces. If less than one year, write 00, and if more than 98, write 98.</p>

<p>[A graphic of box 2, "age," is reproduced on the left-hand side of the page.]</p>

<p>This question is an important one and you must make every effort to obtain the age in completed years. If that is not possible, insist on getting at least an approximate age so that there is always some information about age.

INTERVIEWER INSTRUCTIONS

3.3.4 Section VII: Persons in the census household

The first seven questions sets in this section refer to family relationship, age, sex, current marital status, ethnic group, death of mother and disability.

Questions 8-12 refer to the person's migration and ethnic characteristics. Only questions 11 and 12 are for persons aged three and older.

Questions 13-15 refer to literacy, level of education and attendance at school and are intended for persons aged seven and older.

The four following questions (16-19) refer to the person's type of economic activity, principal employment, branch of activity, and occupational category. They are also intended for persons aged seven and older.

The last five questions (20-24) cover fertility, and are intended only for females aged 12 and older.

The housing form has enough space to record a maximum of ten person, and so the section is repeated an equal number of times. The information about each person who spends the night in the homeless shelter should be written in the same order as they were listed in section V, "list of persons."

If the homeless shelter has more than ten persons, use an additional form.

Section VII is designed to allow you to record the complete information about one person. Write the person's order number in the grid space according to the list in section V. Spell out completely the first names and complete surnames of each person.

8. Place of birth

For the purposes of the census the enumerated person's place of birth is the municipality in which the mother was residing at the time of birth. This is so even if the mother gave birth in a municipality other than that of her residence for medical or other reasons.

Ask, "In which department, municipality or country were you born?"

[A graphic of box 8, "place of birth," is reproduced on the right-hand side of the page.]

If the person you are enumerating was born in the municipality in which you are interviewing him/her, mark an X in the circle for the 00 option, "In this municipality," and leave the rest of the question set blank.

If the person was born in a different municipality, write the name and department of the municipality.

<p>The box for country is only for people born abroad. Write the year of their arrival. </p>

<p>Leave the grid spaces on the right of the box blank; they are for office use only.

INTERVIEWER INSTRUCTIONS

3.3.4 Section VII: Persons in the census household

The first seven questions sets in this section refer to family relationship, age, sex, current marital status, ethnic group, death of mother and disability.

Questions 8-12 refer to the person's migration and ethnic characteristics. Only questions 11 and 12 are for persons aged three and older.

Questions 13-15 refer to literacy, level of education and attendance at school and are intended for persons aged seven and older.

The four following questions (16-19) refer to the person's type of economic activity, principal employment, branch of activity, and occupational category. They are also intended for persons aged seven and older.

The last five questions (20-24) cover fertility, and are intended only for females aged 12 and older.

The housing form has enough space to record a maximum of ten person, and so the section is repeated an equal number of times. The information about each person who spends the night in the homeless shelter should be written in the same order as they were listed in section V, "list of persons."

If the homeless shelter has more than ten persons, use an additional form.

Section VII is designed to allow you to record the complete information about one person. Write the person's order number in the grid space according to the list in section V. Spell out completely the first names and complete surnames of each person.

8. Place of birth

For the purposes of the census the enumerated person's place of birth is the municipality in which the mother was residing at the time of birth. This is so even if the mother gave birth in a municipality other than that of her residence for medical or other reasons.

Ask, "In which department, municipality or country were you born?"

[A graphic of box 8, "place of birth," is reproduced on the right-hand side of the page.]

If the person you are enumerating was born in the municipality in which you are interviewing him/her, mark an X in the circle for the 00 option, "In this municipality," and leave the rest of the question set blank.

<p>If the person was born in a different municipality, write the name and department of the municipality.</p>

<p>The box for country is only for people born abroad. Write the year of their arrival. </p>

<p>Leave the grid spaces on the right of the box blank; they are for office use only.</p>

INTERVIEWER INSTRUCTIONS

3.3.4 Section VII: Persons in the census household

The first seven questions sets in this section refer to family relationship, age, sex, current marital status, ethnic group, death of mother and disability.

Questions 8-12 refer to the person's migration and ethnic characteristics. Only questions 11 and 12 are for persons

aged three and older.</p>

<p>Questions 13-15 refer to literacy, level of education and attendance at school and are intended for persons aged seven and older.</p>

<p>The four following questions (16-19) refer to the person's type of economic activity, principal employment, branch of activity, and occupational category. They are also intended for persons aged seven and older.</p>

<p>The last five questions (20-24) cover fertility, and are intended only for females aged 12 and older.</p>

<p>The housing form has enough space to record a maximum of ten person, and so the section is repeated an equal number of times. The information about each person who spends the night in the homeless shelter should be written in the same order as they were listed in section V, "list of persons."</p>

<p>If the homeless shelter has more than ten persons, use an additional form.</p>

<p>Section VII is designed to allow you to record the complete information about one person. Write the person's order number in the grid space according to the list in section V. Spell out completely the first names and complete surnames of each person.</p>

<p>8. Place of birth

For the purposes of the census the enumerated person's place of birth is the municipality in which the mother was residing at the time of birth. This is so even if the mother gave birth in a municipality other than that of her residence for medical or other reasons.

Ask, "In which department, municipality or country were you born?"</p>

<p>[A graphic of box 8, "place of birth," is reproduced on the right-hand side of the page.]</p>

<p>If the person you are enumerating was born in the municipality in which you are interviewing him/her, mark an X in the circle for the 00 option, "In this municipality," and leave the rest of the question set blank.</p>

<p>If the person was born in a different municipality, write the name and department of the municipality.</p>

<p>The box for country is only for people born abroad. Write the year of their arrival. </p>

<p>Leave the grid spaces on the right of the box blank; they are for office use only.

<p>If the homeless shelter has more than ten persons, use an additional form.</p>

<p>Section VII is designed to allow you to record the complete information about one person. Write the person's order number in the grid space according to the list in section V. Spell out completely the first names and complete surnames of each person.</p>

<p>7. Disability

Take note of the following definitions before you begin asking the questions in this question set.</p>

A disability is the difficulty some people have in hearing, seeing, speaking, learning, and moving as others do. It may be from birth, illness, or any type of accident.

[A graphic of box 7 "disability," is reproduced on the left-hand side of the page.]

Physical disability: this is the inability to move one or more parts of the body: legs, arms, trunk or head. Some people may not be able to sit down, stand up or walk.
Sensory disability: this is the total or partial inability to see, hear, or speak. The most important categories are blind, deaf, and deaf-mute.
Mental disability: this is a person, either a child or an adult, who has difficulty learning or understanding and is less developed than he/she should be with respect to his/her age. These are people who appear not to have grown up completely. They have little heads, eyes which are far apart and small or almond-shaped, and a snub nose. They may have a small mouth and a large tongue, for which reason they keep their mouth open and the tongue hangs out, and the back of the head is flatter than normal.

Ask the respondent, "Is this person disabled" or "is this person blind, deaf, or mute, or does he/she have a mental disability?"

Note that there are more likely to be persons with disabilities among this population. Make sure you enumerate them!

INTERVIEWER INSTRUCTIONS

3.3.4 Section VII: Persons in the census household

The first seven questions sets in this section refer to family relationship, age, sex, current marital status, ethnic group, death of mother and disability.

Questions 8-12 refer to the person's migration and ethnic characteristics. Only questions 11 and 12 are for persons aged three and older.

Questions 13-15 refer to literacy, level of education and attendance at school and are intended for persons aged seven and older.

The four following questions (16-19) refer to the person's type of economic activity, principal employment, branch of activity, and occupational category. They are also intended for persons aged seven and older.

The last five questions (20-24) cover fertility, and are intended only for females aged 12 and older.

The housing form has enough space to record a maximum of ten person, and so the section is repeated an equal number of times. The information about each person who spends the night in the homeless shelter should be written in the same order as they were listed in section V, "list of persons."

If the homeless shelter has more than ten persons, use an additional form.

Section VII is designed to allow you to record the complete information about one person. Write the person's order number in the grid space according to the list in section V. Spell out completely the first names and complete surnames of each person.

5. Ethnic group

When determining whether or not a person is indigenous it is important to respect the right of an individual to identify his/her own ethnic group. This must be determined by asking the person directly, and not simply through what you observe.

[A graphic of box 5 "ethnic group," is reproduced on the right-hand side of the page.]

For children or those who are not able to self-identify, ask the parents or respondent about the person's ethnic identity.

Ask, "Are you indigenous?" and then mark an X in the appropriate circle.

INTERVIEWER INSTRUCTIONS

3.3.4 Section VII: Persons in the census household</p>

<p>The first seven questions sets in this section refer to family relationship, age, sex, current marital status, ethnic group, death of mother and disability.</p>

<p>Questions 8-12 refer to the person's migration and ethnic characteristics. Only questions 11 and 12 are for persons aged three and older.</p>

<p>Questions 13-15 refer to literacy, level of education and attendance at school and are intended for persons aged seven and older.</p>

<p>The four following questions (16-19) refer to the person's type of economic activity, principal employment, branch of activity, and occupational category. They are also intended for persons aged seven and older.</p>

<p>The last five questions (20-24) cover fertility, and are intended only for females aged 12 and older.</p>

<p>The housing form has enough space to record a maximum of ten person, and so the section is repeated an equal number of times. The information about each person who spends the night in the homeless shelter should be written in the same order as they were listed in section V, "list of persons."</p>

<p>If the homeless shelter has more than ten persons, use an additional form.</p>

<p>Section VII is designed to allow you to record the complete information about one person. Write the person's order number in the grid space according to the list in section V. Spell out completely the first names and complete surnames of each person.</p>

<p>4. Current marital status

If the person is 12 or older, ask, "What is your current marital status?"

If the person, male or female, is less than 12, do not ask this question and mark an X in the circle corresponding to option 1, "less than 12 years old."</p>

[A graphic of box 4, "current marital status," is reproduced on the left-hand side of the page.]

The following definitions will help you determine a person's current marital status:

[p. 48]- Co-habiting: this is a person who lives in a consensual or de facto relationship with another person, without any marital or legal ties.
 Married: this is a person who has contracted legal marriage and lives with his/her spouse, i.e., is not widowed, divorced or separated.
 Divorced or separated: this is a person whose marriage was legally dissolved or a person who is currently separated from his/her spouse. This person has not married again, nor is he/she cohabiting.
 Widowed: this is a person who was married but whose spouse died, and the person has not remarried and is not cohabiting.
 Single: this is a person who has never been married and is not cohabiting.

INTERVIEWER INSTRUCTIONS

3.3.4 Section VII: Persons in the census household

The first seven questions sets in this section refer to family relationship, age, sex, current marital status, ethnic group, death of mother and disability.

Questions 8-12 refer to the person's migration and ethnic characteristics. Only questions 11 and 12 are for persons aged three and older.

Questions 13-15 refer to literacy, level of education and attendance at school and are intended for persons aged seven and older.

The four following questions (16-19) refer to the person's type of economic activity, principal employment, branch of activity, and occupational category. They are also intended for persons aged seven and older.

The last five questions (20-24) cover fertility, and are intended only for females aged 12 and older.

The housing form has enough space to record a maximum of ten person, and so the section is repeated an equal number of times. The information about each person who spends the night in the homeless shelter should be written in the same order as they were listed in section V, "list of persons."

If the homeless shelter has more than ten persons, use an additional form.

Section VII is designed to allow you to record the complete information about one person. Write the person's order number in the grid space according to the list in section V. Spell out completely the first names and complete surnames of each person.

10. Previous permanent residence

The place of previous permanent residence is the municipality and department in which the person resided immediately prior to moving to the municipality in which he/she is living at the time of the census.

This question is for people who specified a number of years in the previous question set. Ask, "In what municipality and department, or country, were you living before moving to this municipality?"

[p. 52]

If the person was residing in a municipality other than that of his permanent residence, write the name of the municipality and department in the appropriate spaces.

If the person was living abroad write the name of the country in the appropriate space.

Leave the grid spaces on the right side of the box blank; they are for office use only.

If the person is less than three years old end the interview and go on to the next person.

INTERVIEWER INSTRUCTIONS

Questions for persons aged three and older

[Questions 11 - 12 were asked of persons age three or older.]

12. Ethnic characteristics

This question set is a new one which combines related variables and is intended to determine the ethnic make-up of the population. It is distinct from the "ethnic group" question, which is based on self-identification.

Only ask people who are three years old or older the questions these questions, which are about the first language learned; the ability to speak one of the Mayan languages or Spanish; and Mayan outfit.

Question A

Ask, "What language did you first learn to speak?" and mark an X in the appropriate circle.

If the person first learned to speak a Mayan language that is not specified in the box (K'iché, Kaqchikel, Mam, Q'eqchi'), mark an X in the circle for option 5, "other Mayan language," and specify which one in the space provided.

Fill in the circle for option 7, "other language," if the person's maternal language is neither Mayan nor Spanish. Specify the language in the space provided.

INTERVIEWER INSTRUCTIONS

>Questions for persons aged three and older

[Questions 11 - 12 were asked of persons age three or older.]</p>

<p>11. Permanent residence in the month of November, 1990

Ask, "In which municipality, department or country department were you residing in November, 1990?"</p>

<p>If the municipality of permanent residence in November, 1990 is the same as the one the person was residing in at the time of the census, mark an X for option 00, "in this municipality," and leave the rest of the question set blank.</p>

<p>[A graphic of box 11, "permanent residence in 1990," is reproduced on the left-hand side of the page.]</p>

<p>If the person was residing in a municipality other than that of his/her current permanent residency, write the name and department in the appropriate spaces.</p>

<p>If the person was living abroad write the name of the country in the appropriate space.</p>

<p>Leave the grid spaces on the right margin blank; they are for office use only.</p>

description

DEFINITION

This variable indicates the person's municipality of residence in 1990.

UNIVERSE

Guatemala 1994: Persons age 4+ who have moved from another municipality [discrepancies: type I trace; type II none]

INTERVIEWER INSTRUCTIONS

3.3.4 Section VII: Persons in the census household

The first seven questions sets in this section refer to family relationship, age, sex, current marital status, ethnic group, death of mother and disability.

Questions 8-12 refer to the person's migration and ethnic characteristics. Only questions 11 and 12 are for persons

aged three and older.</p>

<p>Questions 13-15 refer to literacy, level of education and attendance at school and are intended for persons aged seven and older.</p>

<p>The four following questions (16-19) refer to the person's type of economic activity, principal employment, branch of activity, and occupational category. They are also intended for persons aged seven and older.</p>

<p>The last five questions (20-24) cover fertility, and are intended only for females aged 12 and older.</p>

<p>The housing form has enough space to record a maximum of ten person, and so the section is repeated an equal number of times. The information about each person who spends the night in the homeless shelter should be written in the same order as they were listed in section V, "list of persons."</p>

<p>If the homeless shelter has more than ten persons, use an additional form.</p>

<p>Section VII is designed to allow you to record the complete information about one person. Write the person's order number in the grid space according to the list in section V. Spell out completely the first names and complete surnames of each person.</p>

<p>10. Previous permanent residence

The place of previous permanent residence is the municipality and department in which the person resided immediately prior to moving to the municipality in which he/she is living at the time of the census.</p>

<p>This question is for people who specified a number of years in the previous question set. Ask, "In what municipality and department, or country, were you living before moving to this municipality?"</p>

<p>[p. 52]</p>

<p>If the person was residing in a municipality other than that of his permanent residence, write the name of the municipality and department in the appropriate spaces.</p>

<p>If the person was living abroad write the name of the country in the appropriate space. </p>

<p>Leave the grid spaces on the right side of the box blank; they are for office use only.</p>

<p>If the person is less than three years old end the interview and go on to the next person.

INTERVIEWER INSTRUCTIONS

3.3.4 Section VII: Persons in the census household

The first seven questions sets in this section refer to family relationship, age, sex, current marital status, ethnic group, death of mother and disability.

Questions 8-12 refer to the person's migration and ethnic characteristics. Only questions 11 and 12 are for persons aged three and older.

Questions 13-15 refer to literacy, level of education and attendance at school and are intended for persons aged seven and older.

The four following questions (16-19) refer to the person's type of economic activity, principal employment, branch of activity, and occupational category. They are also intended for persons aged seven and older.

The last five questions (20-24) cover fertility, and are intended only for females aged 12 and older.

The housing form has enough space to record a maximum of ten person, and so the section is repeated an equal number of times. The information about each person who spends the night in the homeless shelter should be written in the same order as they were listed in section V, "list of persons."

If the homeless shelter has more than ten persons, use an additional form.

Section VII is designed to allow you to record the complete information about one person. Write the person's order number in the grid space according to the list in section V. Spell out completely the first names and complete surnames of each person.

9. Length of residence

Length of residence is the length of time, up to the census date, that a person lived in the municipality where his/her place of permanent residence is located. Express the number in complete years.

[A graphic of box 9, "Length of residence," is reproduced on the right-hand side of the page.]

Ask, "For how many years have you been living in this municipality?"

If the person has always lived in the municipality in which the enumeration is taking place, mark an X in the circle corresponding to option 98, "always," and go to question set 12, "Ethnic characteristics."

If the person has not always lived in the municipality, ask how many years he/she has lived there and write in digits the number of years.

If the length of residence is less than one year, write 00 in the appropriate grid space. The number of years a person has resided in the municipality cannot be greater than the person's age.

description

9	NIU (not in universe)

INTERVIEWER INSTRUCTIONS

Questions for persons aged seven and older only

If the person is less than seven, do not ask him/her question 13-24. Instead, go to the next person on the list.</p>

<p>16. Type of activity

Before continuing with this question note the following definitions:</p>

<p>Type of activity: this refers to each person's usual activity during the reference period. The reference period is the week previous to the census date.</p>

<p>[A graphic of box 16, "type of activity," is reproduced on the right-hand side of the page.]</p>

<p>Work:

Consider the following as a work:</p>

<div class="i1">a) Work performed for another person as an employee or laborer. This includes:</div><div class="i2">- Day labor or regular wages

- Work in exchange for payment in kind (food, lodging or supplies received instead of payment in cash.)

- Work paid by the piece, on commission or as tips.

- Active duty in the armed forces</div><div class="i1">b) Work done in one's own business, professional practice, or as a self-employed worker.

c) Work done without payment in a business or on a farm run by a family member. Examples are a son or daughter who works without pay in his/her parent's store or helps his father in his agricultural work.

d) Any other job performed during the reference period for which the person receives payment in cash or kind. This includes sewing and other work, such as making food or candy for sale, which is performed in the person's home for other persons or

companies.</div>[p. 59]</p>

<p>Keep in mind that housewives, students and the elderly may perform revenue-producing activity which should be considered "work," even though they may not appear to work.</p>

<p>For the census, the following is not considered work:</p>

<div class="i1">a) Jobs such as housework performed in the house (except when performed by domestic employees who receive pay for the work) and work that a person does on his/her own house.

b) Unpaid volunteer work for the church, as firefighters, or for other non-profit organizations.

c) Jobs performed by persons who are involuntarily confined in institutions such as prisons, sanatoriums, asylums, or jail-farms.</div><p>Keeping in mind the definition of "work," ask, "What did you do the week prior to the census?"</p>

<p>[p. 60]</p>

<p>- Worked: this is a person who performed paid or unpaid work for at least one hour in the week prior to the census.</p>

<p>- Did not work but had a job: this is a person who did not work during the reference week but who has a job or business which he/she did not do or from which he/she was absent due to illness, bad weather, vacations, etc.</p>

<p>- Looked for work and had worked before: this is a person who did not have work during the reference week because he/she left work due to a layoff or other reason, and was actively looking for work. Examples would be visiting factories, farms, etc.</p>

<p>- Looked for work for the first time: this is a person who had never worked before and was actively looking for a job for the first time during the reference week.</p>

<p>- Lived off of investment or retirement income and did not work: this is a person who did not perform any paid work during the reference week, and who received retirement, pension or investment income, or money from abroad.</p>

<p>- Studied and did not work: this is a person who was attending a school or university during the reference week and did not perform any work during this period.</p>

<p>- Did housework and did not work: this is a person who did not perform any paid work during the reference week and was dedicated exclusively to housework.</p>

<p>[p. 61]</p>

<p>If a woman performed work for which she was paid in cash or kind during the reference week, this must be considered work. Examples are:</p>

<div class="i1">- Doing washing and ironing for another person

- Preparing food for sale, such as tortillas or tamales

- Assisting with the harvest from the family plot, cleaning crops, etc. (as long as it was a performed as a regular job)

- Selling products in the market or from her home.</div><p>-Other. This is a person who does not fall into one of the previous categories, such as a person confined involuntarily in an institution (prison, hospital, etc.).</p>

<p>Include beggars in this category.</p>

<p>Mark an X in the appropriate circle.</p>

<p>If the answer is worked, did not work but had a job, or looked for a job but worked before, go to questions 17, 18, and 19.</p>

<p>If the respondent is a male and his answer fell into any other category, end the interview here.</p>

<p>If the respondent is a female who is 12 or older and her answer fell into any other category, go to question set 20 (live-born children).

INTERVIEWER INSTRUCTIONS

Questions for females aged 12 and older
The purpose of questions 20-24 is to obtain information that allows estimates as to the level and trend of fertility, mortality, and growth of the population.</p>

<p>[p. 68]</p>

<p>The enumerator must be dedicated and careful in order to obtain the appropriate information in this important question set. Ask all females older than 12, regardless of their marital status.</p>

<p>If possible, ask girls and women directly. They may forget sometimes, and state that children who have died were live-born, or are alive living elsewhere, and newborns. Keep this in mind so as to avoid missing anyone.</p>

<p>Note that information about live-born children should include all children that the girl or woman has had, either as the result of a marriage or cohabitation, or from a current or former marriage.</p>

<p>Remember that the following questions are to be asked of all girls or women aged 12 and older, regardless of their

current marital status.</p>

<p>20. Live-born children

Keep in mind the following definition as you are asking this question:</p>

<p>A live-born child is one who breathed, cried or moved when he/she was born, even if he/she died immediately afterward and regardless of whether or not the umbilical cord had been cut or the placenta delivered. If the child displayed any of these vital signs it should be considered live-born, even if he/she died immediately afterward.</p>

<p>[A graphic of box 20, "live-born children," is reproduced on the right-hand side of the page.]</p>

<p>Ask, "Have you had a child who was born alive?" and mark an X in the appropriate circle.</p>

<p>If the answer is no, finish the interview and go on to another person.

INTERVIEWER INSTRUCTIONS

>Questions for persons aged seven and older only

If the person is less than seven, do not ask him/her question 13-24. Instead, go to the next person on the list.</p>

<p>19. Occupational category

This is the relation between an employed person and his/her job, and indicates if the person is (or has been, in the case of the unemployed) an employer, a self-employed worker, a civil service employee, an employee in the private sector, or an unpaid family worker.</p>

<p>[A graphic of box 19, "occupational category," is reproduced on the left-hand side of the page.]</p>

<p>Ask "What was your occupational category in your principal occupation?" and mark an X in the appropriate circle.</p>

<p>Below are definitions for the "occupational category" so that you can better identify the options:</p>

<div class="i1">- Employer: this is a person who is responsible for one or more workers who receive payment in cash or kind for performing an economic activity. If someone is not responsible for employees he/she is not an employer.

- Self-employed: this is a person who does not have an employer and who manages his/her own business, company or farm and who does not employ paid employees.

- Self-employed with premises: this is a person who has a fixed place from which to conduct business, such as a grocery store, a permanent market stall, office, farm, workshop, plot of land, etc.

[p. 67]

- Self-employed without premises: these are persons such as street vendors or others who work for themselves and do not have a fixed place in which to conduct their business. Examples are broom sellers, basket sellers, shoeshine boys, etc.

- Civil service: this is a person who earns a wage or salary from any state office; this may be the central government, municipalities, or autonomous or semi-autonomous independent bodies.

- Paid private employee: this is any employee who earns a wage or salary in any company using private capital.

- Unpaid family member: this is a person who works in a company, business, farm or agricultural enterprise which a family member owns or manages, and who does not receive pay for his/her work.</div><p>It is important to understand the information about the person's occupational category to know the country's productive structure, which is important information for economic planning. There should always be an answer if the person has a job. Do not leave this area blank.

INTERVIEWER INSTRUCTIONS

Questions for persons aged seven and older only

If the person is less than seven, do not ask him/her question 13-24. Instead, go to the next person on the list.</p>

<p>14. Level of education

Before continuing with this question, familiarize yourself with the following definitions:</p>

[A graphic of box 14, "Level of education," is reproduced on the left-hand side of the page.]

Pre-primary education: the goal of pre-primary education is to provide early stimulation and promote the psychomotor development of the child in preparation for primary education.

Primary education: this level is intended to provide the basics of education (from first to sixth grade).

Secondary education: this level is intended to provide either general or specialized education, or both. The student must have successfully completed primary school to enter secondary school. This stage of education is divided into basic and vocational.

Higher education: this is education taught in state or private universities or advanced technical schools. The student must have successfully completed secondary school to enter an institute of higher education.

Ask, "What was the last grade you passed in pre-primary, primary, or secondary school, or an institute of higher education."

If the person has not passed any grade, mark an X in the circle corresponding to the 00 option. If the person passed pre-primary, mark an X in the circle corresponding to the 10 option.

For primary school, secondary school, and higher education, write the last grade passed in the appropriate grid space. Write the information in digits using number from 1 to 7 (7 being the maximum).

Classes taught at a university but of limited length (6 months, etc.) are not considered higher education.

INTERVIEWER INSTRUCTIONS

Questions for persons aged seven and older only

If the person is less than seven, do not ask him/her question 13-24. Instead, go to the next person on the list.

18. Branch of economic activity

Branch of economic activity is the activity of the company in which the person worked during the reference work, or in his/her last job. That is, the branch of activity refers to what the factory, industry, workshop, farm or company where the person works, or worked at his/her last job, does during the reference week.

[A graphic of box 18, "branch of economic activity," is reproduced on the right-hand side of the page.]

[p. 65]

Ask, "What is the branch of economic activity of the factory, workshop, office or establishment where the person was or is employed?"

Write the activity of the company in which the enumerated person performed his/her principal occupation, as declared in question set 17, "principal occupation," in the appropriate spaces.

When describing the branch of activity do not use general terms such as factory, ranch, workshop, store, etc. Do not write the name of the establishment or operation, such as El Ángel Coffee Processing Plant, Las Ilusiones Factory, etc., unless it is a government institution, such as the central government, a semi-independent state agency (IGSS, INDE, etc., including autonomous bodies such (USAC, municipalities, etc.). In those cases, write the name of the entity.

Branches of activity

<p>[The original document includes a table below.]</p>

<p>[Column headings:]

(A) Incorrect answer for branch of economic activity

(B) Correct answer for branch of economic activity</p>

<p>Incorrect answer for branch of economic activity: factory.

Correct answer for branch of economic activity: shirt factory, shoe factory, chocolate factory, food-products factory, factory making traditional woven clothing, wooden furniture factory.</p>

<p>Incorrect answer for branch of economic activity: store.

Correct answer for branch of economic activity: grocery sales.</p>

<p>Incorrect answer for branch of economic activity: workshop.

Correct answer for branch of economic activity: women's dress manufacture, vehicle repair and maintenance.</p>

<p>Incorrect answer for branch of economic activity: Santa Luisa farm.

Correct answer for branch of economic activity: Coffee farming, corn farming, vegetable farming, sugar cane farming, cardamom farming, tobacco farming, etc.</p>

<p>Incorrect answer for branch of economic activity: company.

Correct answer for branch of economic activity: customs-processing office, real-estate office.</p>

<p>[p. 66]</p>

<p>It is important to understand the information about the branch of activity of the person's job to know the production structure of the country, which is important for economic planning. There should always be an answer if the person has a job. Do not leave this area blank!

INTERVIEWER INSTRUCTIONS

Questions for persons aged seven and older only

If the person is less than seven, do not ask him/her question 13-24. Instead, go to the next person on the list.

17. Principal occupation

Occupation means the type of work a person performed during the reference period, or that he/she performed in the last week that he/she worked (unemployed).

[p. 62]

If the person has more than one occupation, the term "principal occupation" refers to the one for which he/she receives more income, or the one at which he/she works the most hours.

Ask, "What was your principal occupation, work or trade during the reference week, or at the last job that you held?"

[A graphic of box 17, "principal occupation," is reproduced on the left-hand side of the page.]

On the blank lines, write out completely the jobs stated by the respondent. Use words or phrases that give specific details about the type of job or work the person does or did. Avoid using general terms that do not furnish a clear idea of the type of work referred to.

Information about the enumerated person's job is important in understanding the economic profile of the country, which is important for economic planning. There should always be an answer if the person has a job. Do not leave this area blank.

Principal occupation

The following is a list of examples demonstrating correct and incorrect ways of recording occupations.

[The original document includes a table below.]

[Column headings:]

(A) Incorrect answer for principal occupation

(B) Correct answer for principal occupation

<p>Incorrect answer for principal occupation: mechanic.

Correct answer for principal occupation: automobile mechanic, technician who makes dental parts.</p>

<p>Incorrect answer for principal occupation: secretary.

Correct answer for principal occupation: typist who transcribes documents, secretary who writes letters and answers the phone, secretary in charge of sales files.</p>

<p>Incorrect answer for principal occupation: construction worker.

Correct answer for principal occupation: plumber who installs and repairs plumbing, bricklayer who prepares mortar and lays bricks, painter of interior and exterior walls.</p>

<p>Incorrect answer for principal occupation: engineer.

Correct answer for principal occupation: civil engineer, chemical engineer, electrical engineer.</p>

<p>Incorrect answer for principal occupation: teacher.

Correct answer for principal occupation: urban primary-school teacher, rural primary-school teacher, home-economics teacher, music education teacher.</p>

<p>Incorrect answer for principal occupation: cashier.

Correct answer for principal occupation: department-store cashier, bank cashier, factory cashier.</p>

<p>Incorrect answer for principal occupation: agricultural worker.

Correct answer for principal occupation: worker who plants tomatoes, worker who plants corn, worker who milks and cleans cows, worker who harvests coffee or sugarcane, etc.</p>

<p>[p. 64]</p>

<p>Incorrect answer for principal occupation: sales clerk.

Correct answer for principal occupation: counter clerk in a fabric store, counter clerk in footwear items, counter clerk in hardware items, counter clerk in office supplies.</p>

<p>Incorrect answer for principal occupation: street vendor.

Correct answer for principal occupation: street vendor of brooms, street vendor of candy, street vendor of variety goods.</p>

<p>For example, if a surgeon worked as the director of a hospital during the reference week, write: "hospital director (public or private)" as his/her principal occupation.</p>

<p>If a lawyer worked as a factory manager in a factory producing cotton fabric during the reference week, write "manager of a factory producing cotton fabrics" as his/her principal occupation.</p>

<p>If the person you are enumerating has several jobs, remember to write the principal occupation according to the criteria written above.

INTERVIEWER INSTRUCTIONS

Questions for females aged 12 and older

The purpose of questions 20-24 is to obtain information that allows estimates as to the level and trend of fertility, mortality, and growth of the population.

[p. 68]

The enumerator must be dedicated and careful in order to obtain the appropriate information in this important question set. Ask all females older than 12, regardless of their marital status.

If possible, ask girls and women directly. They may forget sometimes, and state that children who have died were live-born, or are alive living elsewhere, and newborns. Keep this in mind so as to avoid missing anyone.

Note that information about live-born children should include all children that the girl or woman has had, either as the result of a marriage or cohabitation, or from a current or former marriage.

Remember that the following questions are to be asked of all girls or women aged 12 and older, regardless of their current marital status.

21. Total number of live-born children

Keep in mind the definition of live-born child as you ask this question.

Ask, "How many live-born children, both male and female, have you had in all?" Record the total number of live-born children, live-born sons, and live-born daughters separately in the appropriate grid spaces.

Note that information about live-born children should include all children that the girl or woman has had, either as the result of a marriage or cohabitation, or from a current or former marriage.</p>

Remember that the following questions are to be asked of all girls or women aged 12 and older, regardless of their current marital status.</p>

22. Total number of surviving children

Keep in mind the following as you ask the following question:</p>

A child currently alive is one who is alive as of the census date, regardless of whether they:

a) Live with the mother or not
 b) Live in a different geographic area, or country from their mother

[A graphic of box 22, "total surviving children" is reproduced on the left-hand side of the page.]

Ask, "How many of your children are still alive?" Write separately and in digits the total number of surviving children, surviving sons, and surviving daughters.

The total number of surviving children you record in this questions must be less than or equal to the total number of children recorded in the previous question (total number of live-born children).

INTERVIEWER INSTRUCTIONS

Questions for females aged 12 and older

The purpose of questions 20-24 is to obtain information that allows estimates as to the level and trend of fertility, mortality, and growth of the population.

[p. 68]

The enumerator must be dedicated and careful in order to obtain the appropriate information in this important question set. Ask all females older than 12, regardless of their marital status.

If possible, ask girls and women directly. They may forget sometimes, and state that children who have died were live-born, or are alive living elsewhere, and newborns. Keep this in mind so as to avoid missing anyone.

Note that information about live-born children should include all children that the girl or woman has had, either as the result of a marriage or cohabitation, or from a current or former marriage.

Remember that the following questions are to be asked of all girls or women aged 12 and older, regardless of their current marital status.

INTERVIEWER INSTRUCTIONS

8. Place of birth

For the purposes of the census the enumerated person's place of birth is the municipality in which the mother was residing at the time of birth. This is so even if the mother gave birth in a municipality other than that of her residence for medical or other reasons.

Ask, "In which department, municipality or country were you born?"

[A graphic of box 8, "place of birth," is reproduced on the right-hand side of the page.]

If the person you are enumerating was born in the municipality in which you are interviewing him/her, mark an X in the circle for the 00 option, "In this municipality," and leave the rest of the question set blank.

If the person was born in a different municipality, write the name and department of the municipality.

The box for country is only for people born abroad. Write the year of their arrival.

Leave the grid spaces on the right of the box blank; they are for office use only.

description
