Welfare Monitoring Survey Round III, 2025

SUBTITLE

Monitoring Food Insecurity, Damage Assessment, Social Cohesion, and Access to Financial Services in Sudan

ABBREVIATION OR ACRONYM

SWMS R3

COUNTRY

Name	Country code
Sudan	SDN

STUDY TYPE

Other Household Survey [hh/oth]

SERIES INFORMATION

This survey represents the third round of a series of mobile phone surveys

ABSTRACT

Household living conditions in Sudan have been evolving rapidly, necessitating timely monitoring. In response, the World Bank conducted the third round of a welfare survey between February and March 2025, nearly three months after the second round. The survey focuses on four key themes: food insecurity, damage assessment, social cohesion, and access to financial services. It is based on a probability sample of 3,058 respondents across 18 states.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

-Household -Individual

Sampling

SAMPLING PROCEDURE

The survey is based on a probability sample of adult Sudanese (aged 18 and above) with mobile phones, spanning all 18 states. Respondents were selected through a one-stage random sampling process from a frame comprising 45,000 phone numbers from all over Sudan provided by the implementation partner, supplemented by approximately 1,000 numbers gathered during household listings in focus group discussions. The implementation partner made up to seven call attempts per number when initial contact was unsuccessful—whether due to unanswered calls, missed connections, or respondents being unavailable to complete the interview. In regions with insufficient or unstable network coverage, such as Darfur and Kordofan states, we adapted our methodology to ensure comprehensive data collection by implementing a robust random walk sampling technique.

WEIGHTING

To account for the survey design and correct for unequal selection probabilities, household and individual weights were constructed using a maximum entropy approach. The 2022 Labor Force Survey serves as the reference dataset, with its geographic distribution adjusted to reflect displacement patterns based on the International Organization for Migration's Displacement Tracking Matrix (March 2025 update).

Data collection

DATES OF DATA COLLECTION

Start	End
2025-02-16	2025-03-26

DATA COLLECTION MODE

Computer Assisted Telephone Interview [cati]

SUPERVISION

Voluntas organized supervision using interval recording and random call back of a sub-sample. There were 33 data collectors and 6 office supervisors.

DATA COLLECTION NOTES

1. Organization of the fieldwork: The survey was implemented using SurveyCTO's CATI (Computer-Assisted Telephone Interviewing) platform by a dedicated team of trained Voluntas enumerators operating from a centralized call center. The team comprised 33 enumerators and 6 supervisors, with each enumerator conducting individual phone interviews. 2. Data: Data from completed and partially completed interviews were uploaded daily to ensure timely monitoring and quality control. 3. Respondents: Each household interview was conducted with a single respondent (typically a knowledgeable adult or the head of households) who could consult other household members when needed to provide accurate responses.

Voluntas	Voluntas

questionnaires

QUESTIONNAIRES

The third-round questionnaire incorporated standardized tools to ensure data quality and comparability. Food insecurity questions were adapted from the World Food Program's established indicators. The survey instrument was initially developed in English, then translated and administered in Arabic. It covered four core sections: food insecurity, damage assessment, social cohesion, and access to financial services.

CONFIDENTIALITY

The dataset has been anonymized and is available as a Public Use Dataset.

CITATION REQUIREMENTS

Use of the dataset must be acknowledged using a citation which would include:

- the Identification of the Primary Investigator
- the title of the survey (including country, acronym and year of implementation)
- the survey reference number
- the source and date of download
