TITLE

Data in Emergencies Monitoring - Household Survey 2023, Round 7

ABBREVIATION OR ACRONYM

DIEM-HS-R7 2023

COUNTRY

Name	Country code
Yemen, Rep.	YEM

STUDY TYPE

Agricultural Survey [ag/oth]

ABSTRACT

The Food and Agriculture Organization of the United Nations (FAO) through its Country Office in Yemen, with technical support from the Data in Emergencies (DIEM) Hub, conducted the second round of its high-frequency monitoring (HFM) survey, marking the 7th survey overall, to track rapidly evolving indicators related to shocks and food security. Data collection was carried out from 28 April to 7 May 2023, reaching 2508 households across all 22 governorates of Yemen through Computer-Assisted Telephone Interviews (CATI). The HFM survey is a rapid assessment of the food security situation in Yemen aimed to inform early warning systems and decision-makers.

For more information, see <https://data-in-emergencies.fao.org/pages/monitoring>.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Households

Scope

NOTES

The survey collected information on:

- HOUSEHOLD: household information
- INCOME SOURCES, SHOCKS: income changes, shocks experienced by households
- FOOD SECURITY AND CONSUMPTION: food consumption, food utilization, coping strategies

Coverage

GEOGRAPHIC COVERAGE

National coverage

Producers and sponsors

PRIMARY INVESTIGATORS

Name
Food and Agriculture Organization of the United Nations, Data in Emergencies Hub, Office of Emergencies and Resilience

PRODUCERS

Name	Affiliation	Role
Data in Emergencies Hub, Office of Emergencies and Resilience	Food and Agriculture Organization of the United Nations	Data processing and analysis
Food and Agriculture Organization of the United Nations (FAO) Yemen Country Office	Food and Agriculture Organization of the United Nations	Conduct of the survey

FUNDING AGENCY/SPONSOR

Name	Abbreviation
United States Agency for International Development	USAID
European Union	EU
Food and Agriculture Organization of the United Nations, Special Fund for Emergency and Resilience Activities	SFERA

Sampling

SAMPLING PROCEDURE

The sample covered 2508 households in all 22 governorates of Yemen. The sample is representative at national and governorate level with a 95 percent confidence level and a 10 percent precision.

WEIGHTING

Data were weighted at the analytical stage to ensure a proportionate representation, based on population size and wealth proxies (access to drinkable water and education of the heads of household).

Data collection

DATA EDITING

The datasets have been edited and processed for analysis by the Data in Emergencies Hub (DIEM) team at the Office of Emergencies and Resilience, FAO, with some dashboards and visualizations produced. For more information, see <https://data-in-emergencies.fao.org/pages/countries>.

****STATISTICAL DISCLOSURE CONTROL (SDC)****

The dataset was anonymized by the Food and Agriculture Organization of the United Nations, Data in Emergencies (DIEM) Hub and reviewed by the Statistics Division, using Statistical Disclosure methods in accordance with FAO Corporate Statistical Disclosure Control Protocol. All direct identifiers have been removed prior to data submission. For more information, see <https://openknowledge.fao.org/server/api/core/bitstreams/833ee200-0484-4f87-8f5c-b3fed4a3722b/content>.

CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO.

ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:

- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific individual entities or data subjects;
- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.

CITATION REQUIREMENTS

V145	fies_worried	Question asked: 'During the last 30 days, was there a time when you or others in your household were worried about not having enough food to eat because of lack of money or other resources?'	
V146	fies_healthy	Question asked: 'During the last 30 days, was there a time when you or others in your household were unable to eat healthy and nutritious food because of lack of money or other resources?'	
V147	fies_fewfoods	Question asked: 'During the last 30 days, was there a time when you or others in your household ate only a few kinds of foods because of lack of money or other resources?'	
V148	fies_skipped	Question asked: 'During the last 30 days, was there a time when you or others in your household had to skip a meal because of lack of money or other resources to get food?'	
V149	fies_ateless	Question asked: 'During the last 30 days, was there a time when you or others in your household ate less than you thought you should because of lack of money or other resources?'	
V150	fies_ranout	Question asked: 'In the past 30 days, was there ever no food to eat of any kind in your house because of lack of resources to get food?'	
V151	fies_ranout_hhs	Following a 'Yes' answer to the 'fies_ranout' question 'How often did this happen?', the respondent is required to select the frequency of when there was no food to eat of any kind in household's house because of lack of resources to get food.	
V152	fies_hungry	Question asked: 'In the past 30 days, did you or any household member ever go to sleep at night hungry because there was not enough food?'	
V153	fies_hungry_hhs	Following a 'Yes' answer to the 'fies_hungry' question 'How often did this happen?', the respondent is required to select the frequency of any household member go to sleep at night hungry because there was not enough food.	
V154	fies_whlday	Question asked: 'In the past 30 days, did you or any household member ever go a whole day and night without eating anything at all because there was not enough food?'	
V155	fies_whlday_hhs	Following a 'Yes' answer to the 'fies_whlday' question 'How often did this happen?', the respondent is required to select the frequency of any household member go a whole day and night without eating anything at all because there was not enough food.	
V156	fies_rawscore	This variable represents the sum of the values of all fies_ fields.	
V157	p_mod	The variable is the probability that the respondent has been exposed to moderate or severe recent food insecurity (experienced in the 4 weeks preceding the survey). The weighted average of p_mod across a group of respondents produces the indicator 'preval	

ID	Name	Label	Question
V158	p_sev	The variable is the probability that the respondent has been exposed to for severe recent food insecurity (experienced in the 4 weeks preceding the survey). The weighted average of p_sev produces the indicator 'prevalence of severe recent food insecurity'	
V159	fcs	The Food consumption Score (FCS) is an index that aggregates household-level data on the diversity and frequency of food groups consumed over the last 7 days. It is then weighted according to the relative nutritional value of the consumed food groups. Foo	
V160	fcg	Food Consumption Group. Based on Food Consumption Scores, a household's food consumption can be classified into one of three categories: poor, moderate, or acceptable. The FCG will be 'poor' if the FCS is under or equal to 21 in most countries (threshold	
V161	hhs	Household Hunger Scale (hhs) measures hunger in the household by asking three questions on experiences of food deprivation at household level in the previous 4 weeks. hhs_# are rawscores obtained using these hhs questions.	
V162	hhg	Households are divided into five categories based on their household hunger scale (hhs). The Household Hunger Groups refer to a severity level of the IPC Chronic Food Insecurity Reference Table: 'Little to none (IPC-1)', 'Slight (IPC-2)', 'Moderate (IPC-3	
V163	cs_hh_assets	Question asked: 'Over the past 30 days, did anyone in your household have to sell household assets / goods (radio, furniture, television, jewelry, etc.) because of lack of food or money?'	
V164	cs_spent_savings	Question asked: 'Over the past 30 days, did anyone in your household have to spend savings because of lack of food or money?'	
V165	cs_credit	Question asked: 'Over the past 30 days, did anyone in your household have to purchase food on credit or borrowed food because of lack of food or money?'	
V166	cs_borrowed_money	Question asked: 'Over the past 30 days, did anyone in your household have to borrow money because of lack of food or money?'	
V167	cs_no_school	Question asked: 'Over the past 30 days, did anyone in your household have to withdraw children from school because of lack of food or money?'	
V168	cs_reduced_health_exp	Question asked: 'Over the past 30 days, did anyone in your household have to reduce expenses on health (including drugs) because of lack of food or money?'	
V169	cs_decrease_input_exp	Question asked: 'Over the past 30 days, did anyone in your household have to decrease expenditures on fertilizer, pesticide, fodder, animal feed, veterinary care, etc. because of lack of food or money?'	
V170	cs_sold_house	Question asked: 'Over the past 30 days, did anyone in your household have to sell a house or land because of lack of food or money?'	
V171	cs_begged	Question asked: 'Over the past 30 days, did anyone in your household have to beg because of lack of food or money?'	
V172	cs_sold_last_female	Question asked: 'Over the past 30 days, did anyone in your household have to sell your last female animals because of lack of food or money?'	
V173	lcsi	The Livelihood Coping Strategies Index (LCSI) indicates the maximum severity of coping measures that the households need to utilise as a response to lack of food or money to purchase food. This index varies from 0 to 3, respectively : 'no coping strategie	
V174	hdds_cereals	Question asked: 'Now I would like to ask you a set of questions on food consumption, referring to the 24 hours of yesterday. Please describe the foods (meals and snacks) that you or any household member ate or drank at home yesterday (in the 24 hours of y
