COUNTRY

Name	Country code
Yemen, Rep.	YEM

STUDY TYPE

Agricultural Survey [ag/oth]

ABSTRACT

The Food and Agriculture Organization of the United Nations (FAO) through its Country Office in Yemen, with technical support from the Data in Emergencies (DIEM) Hub, conducted the eighth round of its high-frequency monitoring (HFM) survey, marking the fifteenth survey overall, to track rapidly evolving indicators related to shocks and food security. Data collection was carried out from 5 to 14 February 2024, reaching 2 500 households across all 22 governorates of Yemen through computer-assisted telephone interviews (CATI). The HFM survey is a rapid assessment of the food security situation in Yemen aimed at informing early warning systems and decision-makers.

For more information, see <https://data-in-emergencies.fao.org/pages/monitoring>.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Households

Scope

NOTES

The survey collected information on:

- HOUSEHOLD: household information
- INCOME SOURCES, SHOCKS: income changes, shocks experienced by households
- FOOD SECURITY AND CONSUMPTION: food consumption, food utilization, coping strategies

Sampling

SAMPLING PROCEDURE

Data collection took place from 5 to 14 February 2024, and it reached 2 500 households in all 22 governorates of Yemen via CATI. Initially, the sample was designed to include 110 households in each of the 22 governorates, amounting to 2 420 households nationally. The sample is representative of the population of Yemen and the governorates (administrative 1 level), with a 95 percent confidence level and a 10 percent margin of error. Eventually, 2 500 households were interviewed.

WEIGHTING

Data were weighted at the analytical stage to ensure a proportionate representation of the population. Weights were computed based on population size and wealth proxies (access to drinkable water and education of the heads of household).

data_processing

DATA EDITING

The datasets have been edited and processed for analysis by the Food and Agriculture Organization of the United Nations, Data in Emergencies (DIEM) Hub at the Office of Emergencies and Resilience, with some dashboards and visualizations produced. For more information, see <https://data-in-emergencies.fao.org/pages/countries>.

****STATISTICAL DISCLOSURE CONTROL (SDC)****

The dataset was anonymized by the Food and Agriculture Organization of the United Nations, Data in Emergencies (DIEM) Hub and reviewed by the Statistics Division, using Statistical Disclosure methods in accordance with FAO Corporate Statistical Disclosure Control Protocol. All direct identifiers have been removed prior to data submission. For more information, see

<https://openknowledge.fao.org/server/api/core/bitstreams/833ee200-0484-4f87-8f5c-b3fed4a3722b/content>.

CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO.

ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:

- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific individual entities or data subjects;
- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.
