TITLE  
Domestic Tourism Survey 2012

ABBREVIATION OR ACRONYM  
DTS 2012

COUNTRY

Name	Country code
South Africa	ZAF

STUDY TYPE  
Other Household Survey [hh/oth]

SERIES INFORMATION  
Statistics South Africa. Domestic Tourism Survey 2012 [dataset]. Version 1.1. Pretoria: Statistics South Africa [producer], 2013. Cape Town: DataFirst [distributor], 2013. DOI: <https://doi.org/10.25828/0wjz-am53>

ABSTRACT  
Statistics South Africa collects data on foreign tourism from the South African Department of Home Affairs. Data on domestic tourism is also needed to measure its contribution to the national economy. The Domestic Tourism Survey (DTS) is aimed at addressing this need by collecting data on the travel behaviour and expenditure of South African residents travelling within and outside the borders of South Africa. This survey provides data on domestic tourism activity during the period January to December 2011.

KIND OF DATA  
Sample survey data [ssd]

UNIT OF ANALYSIS  
The units of analysis in the Domestic Tourism Survey are households and individuals

## Version

---

VERSION DESCRIPTION  
Version 1.1: Edited, anonymized dataset for licensed distribution

VERSION DATE  
2012

VERSION NOTES  
Version 1 of the Domestic Tourism Survey 2012 was downloaded from Statistics South Africa's website on 9 July 2013. This version, version 1.1, is version 1 with value labels missing from the original added by DataFirst.

## Scope

---

NOTES  
The scope of the Domestic Tourism Survey 2012 includes: household characteristics, education of household members, tourism employment, and day/overnight trips by the respondent and/or other household members. These include travel for business, recreation, entertainment, sports and nature based travel, religious and medical travel, type of transport used and expenditure on this type of travel.

TOPICS

Topic	Vocabulary	URI
leisure, tourism and sport [13.4]	CESSDA	<a href="#">Link</a>

## Coverage

### GEOGRAPHIC COVERAGE

The survey had national coverage

### GEOGRAPHIC UNIT

The lowest level of geographic aggregation covered by the data is province.

### UNIVERSE

The target population of the survey consists of all private households and residents in workers' hostels in the nine provinces of South Africa. The survey does not cover other collective living quarters such as students' hostels, old age homes, hospitals, prisons and military barracks.

## Producers and sponsors

### PRIMARY INVESTIGATORS

Name
Statistics South Africa

## Sampling

### SAMPLING PROCEDURE

For the Domestic Tourism Survey SSA used a household survey master sample of 3 080 primary sampling units from the 80 787 enumeration areas (EAs) created for the 2001 Population Census. The master sample used a two-stage, stratified design with probability-proportional-to-size (PPS) sampling of PSUs from within strata, and systematic sampling of dwelling units (DUs) from the sampled primary sampling units (PSUs). A self-weighting design at provincial level was used and MS stratification was divided into two levels, primary and secondary stratification. Primary stratification was defined by metropolitan and non-metropolitan geographic area type. During secondary stratification, the Census 2001 data were summarised at PSU level. The following variables were used for secondary stratification; household size, education, occupancy status, gender, industry and income.

### WEIGHTING

Sampling weights for the data collected from the sampled households are constructed so that responses can be expanded appropriately to represent the entire population of South Africa. The weights are the result of calculations involving several factors, including design weights, adjustment for non-response, and benchmarking to known population estimates. The final survey weights are constructed by calibrating the adjusted base weight to the known population counts at national and provincial levels, cross-classified by 5-year age groups (0-4, 5-9, 10-14, 55-59, 60-64, and 65 and over), gender and race. The calibrated weights are constructed to ensure that all persons in a household have the same final weight (integrated weighting).

## Data collection

### DATES OF DATA COLLECTION

Start	End
2012-04	2012-06

### DATA COLLECTION MODE

Face-to-face [f2f]

## questionnaires

### QUESTIONNAIRES

Household Questionnaire: This includes sections on:

Household characteristics, household listing, education, tourism employment, trips taken, day trips, overnight trips, barriers to taking trips, business and professional trips, recreation entertainment, sports trips, nature based trips, religious trips, medical trips, type of transport, expenditure on trips, social activities
