ABSTRACT
In 2022, Niger totalled more than 700.000 displaced population of which 250000 plus were refugees and asylum seekers. In the meantime, the country suffered an unprecedented food crisis. In these settings, the UNHCR and WFP carried-out between October 12 and November 4th, 2022, a joint assessment mission (JAM) to assess the situation and provide support to refugees, asylum seekers, internally Displaced (IDPs) and Host community members in the four regions of Diffa, Maradi, Tahoua, and Tillabéri in Niger. The data was collected from about 4600+ households with the specific objectives of assessing the basic needs, shelter, food security, nutrition, water and sanitation, education, protection, security, common services, and livelihoods of forcible displaced people to inform and improve humanitarian assistance.
