## Identification

### SURVEY ID NUMBER

ETH\_2020-2024\_HFPS\_v14\_M

### TITLE

High Frequency Phone Survey 2020-2024

### COUNTRY

Name	Country code
Ethiopia	ETH

### STUDY TYPE

Socio-Economic/Monitoring Survey [hh/sems]

### SERIES INFORMATION

The World Bank is providing support to countries to help mitigate the spread and impact of the new coronavirus disease (COVID-19) and Beyond. One area of support is for data collection to inform evidence-based policies that may help mitigate the effects of this disease and other economic and social problems. Towards this end, the World Bank is leveraging the Living Standards Measurement Study - Integrated Survey on Agriculture (LSMS-ISA) program to implement high-frequency phone surveys in 5 African countries - Nigeria, Ethiopia, Uganda, Tanzania, and Malawi. This effort is part of a broader first wave of World Bank-supported national longitudinal high-frequency surveys that can be used to help assess the economic and social implications of the COVID-19 pandemic and other socio-economic shocks on households and individuals.

### ABSTRACT

The potential impacts of the COVID-19 pandemic in Ethiopia are expected to be severe on Ethiopian households' welfare. To monitor these impacts on households, the team selected a subsample of households that had been interviewed for the Living Standards Measurement Study (LSMS) in 2019, covering urban and rural areas in all regions of Ethiopia. The 15-minute questionnaire covers a series of topics, such as knowledge of COVID and mitigation measures, access to routine healthcare as public health systems are increasingly under stress, access to educational activities during school closures, employment dynamics, household income and livelihood, income loss and coping strategies, and external assistance.

The survey is implemented using Computer Assisted Telephone Interviewing, using a modular approach, which allows for modules to be dropped and/or added in different waves of the survey. Survey data collection started at the end of April 2020 and households are called back every three to four weeks for a total of seven survey rounds to track the impact of the pandemic as it unfolds and inform government action. This provides data to the government and development partners in near real-time, supporting an evidence-based response to the crisis.

The sample of households was drawn from the sample of households interviewed in the 2018/2019 round of the Ethiopia Socioeconomic Survey (ESS). The extensive information collected in the ESS, less than one year prior to the pandemic, provides a rich set of background information on the COVID-19 High Frequency Phone Survey of households which can be leveraged to assess the differential impacts of the pandemic in the country.

### KIND OF DATA

Sample survey data [ssd]

### UNIT OF ANALYSIS

Individual and household

## Version

### VERSION DESCRIPTION

Version 14: Edited, anonymized dataset for public distribution

### VERSION DATE

2024-04-04

### VERSION NOTES

This version includes datasets from 19 rounds of the survey.

## Scope

### NOTES

The Ethiopia - High Frequency Phone Survey covered the following topics:

- Household Roster (Round 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19)
- Knowledge Regarding the Spread of COVID-19 (Round 1)
- Behavior and Social Distancing (Round 1, 3, 6, 7)
- Access to Basic Services (Round 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11)
- Employment and Non farm Enterprise (Rounds 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 13, 14, 16, 18)
- Income Loss and Coping (Round 1, 2, 3, 4, 5, 6, 7)
- Food Security (Rounds 1, 2, 3, 4, 11, 15)
- Aid and Support/ Social Safety Nets (Round 1, 2, 3, 4, 5, 6, 7, 9)
- Agriculture (Round 3, 4, 5, 6, 7, 9, 14, 19)
- Locusts (Rounds 4, 6, 7)
- WASH (Round 4, 9)
- Education and Childcaring (Round 8, 11)
- Credit (Round 8)
- Migration (Round 8)
- Return Migration (Round 8)
- SWIFT (Round 11)
- Youth Aspirations and Employment (Round 12)
- Access to Health Services (Round 13, 14, 15, 16, 17, 18)
- Food and Non Food Prices (Round 13, 14, 15, 16, 17, 18, 19)
- COVID-19 Vaccine (Round 14)
- Economic Sentiments (Round 14, 15, 17, 18)
- Shock/Coping (Round 16)
- Subjective Welfare (Round 16)
- Food Insecurity Experience Scale (Round 17, 18)

## Coverage

### GEOGRAPHIC COVERAGE

National coverage - rural and urban

### UNIVERSE

The survey covered all de jure households excluding prisons, hospitals, military barracks, and school dormitories.

## Producers and sponsors

### PRIMARY INVESTIGATORS

Name

Global Financing Facility	GFF	Funded the study
---------------------------	-----	------------------

## Sampling

### SAMPLING PROCEDURE

The sample of the HFPS-HH is a subsample of the 2018/19 Ethiopia Socioeconomic Survey (ESS). The ESS is built on a nationally and regionally representative sample of households in Ethiopia. ESS 2018/19 interviewed 6,770 households in urban and rural areas. In the ESS interview, households were asked to provide phone numbers either their own or that of a reference household (i.e. friends or neighbors) so that they can be contacted in the follow-up ESS surveys should they move from their sampled location. At least one valid phone number was obtained for 5,374 households (4,626 owning a phone and 995 with a reference phone number). These households established the sampling frame for the HFPS-HH.

To obtain representative strata at the national, urban, and rural level, the target sample size for the HFPS-HH is 3,300 households; 1,300 in rural and 2,000 households in urban areas. In rural areas, we attempt to call all phone numbers included in the ESS as only 1,413 households owned phones and another 771 households provided reference phone numbers. In urban areas, 3,213 households owned a phone and 224 households provided reference phone numbers. To account for non-response and attrition all the 5,374 households were called in round 1 of the HFPS-HH.

The total number of completed interviews in round one is 3,249 households (978 in rural areas, 2,271 in urban areas).  
 The total number of completed interviews in round two is 3,107 households (940 in rural areas, 2,167 in urban areas).  
 The total number of completed interviews in round three is 3,058 households (934 in rural areas, 2,124 in urban areas).  
 The total number of completed interviews in round four is 2,878 households (838 in rural areas, 2,040 in urban areas).  
 The total number of completed interviews in round five is 2,770 households (775 in rural areas, 1,995 in urban areas).  
 The total number of completed interviews in round six is 2,704 households (760 in rural areas, 1,944 in urban areas).  
 The total number of completed interviews in round seven is 2,537 households (716 in rural areas, 1,821 in urban areas).  
 The total number of completed interviews in round eight is 2,222 households (576 in rural areas, 1,646 in urban areas).  
 The total number of completed interviews in round nine is 2,077 households (553 in rural areas, 1,524 in urban areas).  
 The total number of completed interviews in round ten is 2,178 households (537 in rural areas, 1,641 in urban areas).  
 The total number of completed interviews in round eleven is 1,982 households (442 in rural areas, 1,540 in urban areas).  
 The total number of completed interviews in round twelve is 888 households (204 in rural areas, 684 in urban areas).  
 The total number of completed interviews in round thirteen is 2,876 households (955 in rural areas, 1,921 in urban areas).  
 The total number of completed interviews in round fourteen is 2,509 households (765 in rural areas, 1,744 in urban areas).  
 The total number of completed interviews in round fifteen is 2,521 households (823 in rural areas, 1,698 in urban areas).  
 The total number of completed interviews in round sixteen is 2,336 households.  
 The total number of completed interviews in round seventeen is 2,357 households.  
 The total number of completed interviews in round eighteen is 2,237 households (701 in rural areas, 1,536 in urban areas).  
 The total number of completed interviews in round nineteen is 2,566 households (806 in rural areas, 1,760 in urban areas).

### WEIGHTING

To obtain unbiased estimates from the sample, the information reported by households needs to be adjusted by a sampling weight (or raising factor)  $w_h$ . To construct the sampling weights, we follow the steps outlined in Himelein, K. (2014), which outlines eight steps, of which we follow six, to construct the sampling weights for the HFPS-HH:

1. Begin with base weights from the Ethiopia Socioeconomic Survey ESS 2018/19 for each household
2. Incorporate probability of sub-selection of round 1 unit for each of the phone survey households. We calculate the probability of selection for each of the 20 strata in the ESS (urban and rural in each of the 11 regions except for Addis Ababa where we only have an urban stratum) by creating the numerators as the number of completed phone interviews and the denominator as the number of households in the ESS for each stratum.
3. Pool the weights in Steps 1 and 2.
4. Derive attrition-adjusted weights for all individuals by running a logistic response propensity model based on characteristics of the household head (i.e. education, labor force status, demographic characteristics), characteristics of the household (consumption, assets, financial characteristics), and characteristics of the dwelling (house ownership, overcrowding).
5. Trim weights by replacing the top two percent of observations with the 98th percentile cut-off point; and
6. Post-stratify weights to known population totals to correct for the imbalances across our urban and rural sample. In doing so, we ensure that the distribution in the survey matches the distribution in the ESS.

\* Additional technical details and explanations on each of the steps briefly outlined above can be found in Himelein, K. (2014).

## Data Collection

### DATA COLLECTION MODE

Computer Assisted Telephone Interview [cati]

### DATA COLLECTION NOTES

The Ethiopia- COVID-19 High Frequency Phone Survey of Households (HFPS) was conducted using Computer Assisted Telephone Interview (CATI) techniques. The household questionnaire was implemented using the CATI software, SurveyCTO. Each enumerator was given a tablet which they used to implement the interviews, along with data bundles to be used on their own mobile phone devices.

**DATA COMMUNICATION SYSTEM:** SurveyCTO's built-in data monitoring functions are used. Each enumerator was provided with a data bundle, allowing for internet connectivity and daily synchronization of their tablet. Data was sent to the server daily. Senior Field Supervisors served as the first step in ensuring data quality. Senior Field Supervisors reviewed the survey with enumerators twice daily via one-on-one calls and were always available to address any concerns that arose while performing an interview. At the same time, a Research Analyst was in charge of checking the uploaded data daily to correct errors and work to prevent them in future surveys. The following data quality checks were completed:

- **Daily SurveyCTO monitoring:** This included outlier checks, skipped questions, a review of “Other, specify”, other text responses, and enumerator comments. Enumerator comments were used to suggest new response options or to highlight situations where existing options should be used instead. Monitoring also included a review of variable relationship logic checks and checks of the logic of answers. Finally, outliers in phone variables such as survey duration or the percentage of time audio was at a conversational level were monitored. A survey duration of close to 15 minutes and a conversation-level audio percentage of around 40% was considered normal.
- **Dashboard review:** This included monitoring individual enumerator performance, such as the number of calls logged, duration of calls, percentage of calls responded to and percentage of non-consents. Non-consent reason rates and attempts

per household were monitored as well. Duration analysis using R was used to monitor each module's duration and estimate the time required for subsequent rounds. The dashboard was also used to track overall survey completion and preview the results of key questions.

- **Daily Data Team reporting:** The Field Supervisors and the Data Manager reported daily feedback on call progress, enumerator feedback on the survey, and any suggestions to improve the instrument, such as adding options to multiple choice questions or adjusting translations.
- **Audio audits:** Audio recordings were captured during the consent portion of the interview for all completed interviews, for the enumerators' side of the conversation only. The recordings were reviewed for any surveys flagged by enumerators as having data quality concerns and for an additional random sample of 2% of respondents. A range of lengths were selected to observe edge cases. Most consent readings took around one minute, with some longer recordings due to questions on the survey or holding for the respondent. All reviewed audio recordings were completed satisfactorily.
- **Back-check survey:** Field Supervisors made back-check calls to a random sample of 5% of the households that completed a survey in Round 1. Field Supervisors called these households and administered a short survey, including (i) identifying the same respondent; (ii) determining the respondent's position within the household; (iii) confirming that a member of the the data collection team had completed the interview; and (iv) a few questions from the original survey.

#### DATA COLLECTORS

Name
Laterite BV

## Questionnaires

#### QUESTIONNAIRES

The survey questionnaires were administered to all the households in the sample. The questionnaires consisted of the following sections:

##### Baseline (Round 1)

- Household Identification
- Interview Information
- Household Roster
- Knowledge Regarding the Spread of Coronavirus
- Behavior and Social Distancing
- Access to Basic Services
- Employment
- Income Loss and Coping
- Food Security
- Aid and Support/ Social Safety Nets

##### Round 2

- Household Identification
- Household Roster
- Access to Basic Services
- Employment
- Income Loss and Coping
- Food Security
- Aid and Support/ Social Safety Nets

##### Round 3

- Household Identification
- Household Roster
- Behavior and social distancing
- Access to Basic Services
- Employment
- Income Loss and Coping
- Food Security
- Agriculture

- Aid and Support/ Social Safety Nets

Round 4

- Household Identification
- Household Roster
- Access to Basic Services
- Employment
- Income Loss and Coping
- Food Security
- Agriculture
- Aid and Support/ Social Safety Nets
- Locusts
- WASH

Round 5

- Household Identification
- Household Roster
- Access to Basic Services
- Employment
- Income Loss and Coping
- Aid and Support/ Social Safety Nets
- Agriculture
- Livestock

Round 6

- Household Identification
- Household Roster
- Behavior and Social Distancing
- Access to Basic Services
- Employment
- Income Loss and Coping
- Aid and Support/ Social Safety Nets
- Agriculture
- Locusts

Round 7

- Household Identification
- Household Roster
- Behavior and Social Distancing
- Access to Basic Services
- Employment
- Income Loss and Coping
- Aid and Support/ Social Safety Nets
- Agriculture
- Locusts

Round 8

- Household Identification
- Household Roster
- Access to Basic Services
- Employment
- Education and Childcaring
- Credit
- Migration
- Return Migration

Round 9

- Household Identification
- Household Roster Update
- Access to Basic Services
- Employment
- Aid and Support/ Social Safety Nets

- Agriculture
- WASH

Round 10

- Household Identification
- Household Roster Update
- Access to Basic Services
- Employment

Round 11

- Household Identification
- Household Roster Update
- Access to Basic Services
- Employment
- Education and Childcaring
- Food Insecurity Experience Scale
- SWIFT

Round 12

- Household Identification
- Household Roster Update
- Youth Aspirations and Employment

Round 13

- Household Identification
- Household Roster Update
- Access to Health Services
- Employment
- Food Prices

Round 14

- Household Identification
- Household Roster Update
- Access to Health Services
- COVID-19 Vaccine
- Employment
- Economic Sentiments
- Food Prices
- Agriculture

Round 15

- Household Identification
- Household Roster Update
- Access to Health Services
- Economic Sentiments
- Food Insecurity Experience Scale
- Food Prices

Round 16

- Household Identification
- Household Roster Update
- Access to Health Services
- Employment and Non-farm Enterprises
- Food and Non-food prices
- Shocks and Coping Strategies
- Subjective Welfare

Round 17

- Household Identification
- Household Roster Update
- Access to Health Services for Individual Household Members (Sample A)
- Access to Health Services for Households (Sample B)

- Food and Non-food prices
- Economic Sentiments
- Food Insecurity Experience Scale

#### Round 18

- Household Identification
- Household Roster Update
- Access to Health Services for Individual Household Members
- Food and Non-food prices
- Economic Sentiments (Sample B)
- Food Insecurity Experience Scale (Sample A)

#### Round 19

- Household Identification
- Household's Residential Location Verification
- Household Roster Update
- Food and Non-food Prices
- Agriculture Crop
- Agriculture Livestock

## Data Processing

---

### DATA EDITING

#### DATA CLEANING

At the end of data collection, the raw dataset was cleaned by the Research team. This included formatting, and correcting results based on monitoring issues, enumerator feedback and survey changes. The details are as follows.

#### Variable naming and labeling:

- Variable names were changed to reflect the lowercase question name in the paper survey copy, and a word or two related to the question.
- Variables were labeled with longer descriptions of their contents and the full question text was stored in Notes for each variable.
- “Other, specify” variables were named similarly to their related question, with “\_other” appended to the name.
- Value labels were assigned where relevant, with options shown in English for all variables, unless preloaded from the roster in Amharic.

#### Variable formatting:

- Variables were formatted as their object type (string, integer, decimal, time, date, or datetime).
- Multi-select variables were saved both in space-separated single-variables and as multiple binary variables showing the yes/no value of each possible response.
- Time and date variables were stored as POSIX timestamp values and formatted to show Gregorian dates.
- Location information was left in separate ID and Name variables, following the format of the incoming roster. IDs were formatted to include only the variable level digits, and not the higher-level prefixes (2-3 digits only.)
- Full Household and Enumeration Area ID variables were given leading 0s to match incoming roster format.

#### Observation and variable arrangement:

- Only consented surveys were kept in the dataset, and all personal information and internal survey variables were dropped from the clean dataset.
- Roster data is separated from the main data set and kept in long-form but can be merged on the key variable (key can also be used to merge with the raw data).
- In the main dataset, ii4\_resp\_id and cs7\_hhh\_id are the roster IDs of the respondent and household head respectively, and

can be merged with individual\_id in the roster.

- The variables were arranged in the same order as the paper instrument, with observations arranged according to their submission time.

Backcheck data review: Results of the backcheck survey are compared against the originally captured survey results using the bcstats command in Stata. This function delivers a comparison of variables and identifies any discrepancies. Any discrepancies identified are then examined individually to determine if they are within reason.

**r4\_wb\_lsms\_hfpm\_hh\_survey\_public\_microdata.dta**

Round 4 Household level data collected through COVID-19 HFPS questionnaire:

- Household location identification.
- Respondent's knowledge about the pandemic including questions on knowledge of to reduce the risk of contracting coronavirus.
- Access to basic needs.
- Respondent's work status in the week preceding the survey; job loss and its reasons; employers and their sectors; changes in work arrangements; profile of household owned business and changes; employment and job loss status of non-respondent household member.
- Types of household income sources - farming, personal income from wage employment or pension, own non-farm business; remittances from within Ethiopia and abroad; income from properties, investments and savings; and support from government and NGOs and other charitable organizations; changes in income sources after the outbreak; and coping strategies for income loss.
- Household referenced questions on food insecurity experience by all household members for the 30 days preceding the survey.
- Household agriculture practices for the current agriculture season
- Aid and Support (Safety Net, other cash and in-kind support)
- Agriculture (for rural households only)
- Locust invasion (for rural household only)
- WASH

2878 251

**r4\_wb\_lsms\_hfpm\_hh\_survey\_public\_roster.dta**

Round 4 Individual level data collected through COVID-19 HFPS questionnaire:

- Household roster update: Roster of individuals living in the household; age; sex; and relationship to the household head.

12694 15

**r5\_wb\_lsms\_hfpm\_hh\_survey\_public\_roster.dta**

Round 5 Individual level data collected through COVID-19 HFPS questionnaire:

- Household roster update: Roster of individuals living in the household; age; sex; and relationship to the household head.

Round 5 Household level data collected through COVID-19 HFPS questionnaire:

- Household location identification.
- Access to basic needs.
- Respondent's work status in the week preceding the survey; job loss and its reasons; employers and their sectors; changes in work arrangements; profile of household owned business and changes; employment and job loss status of non-respondent household member.
- Types of household income sources - farming, personal income from wage employment or pension, own non-farm business; remittances from within Ethiopia and abroad; income from properties, investments and savings; and support from government and NGOs and other charitable organizations; changes in income sources after the outbreak; and coping strategies for income loss.
- Aid and Support (Safety Net, other cash and in-kind support)
- Agriculture (for rural households only)
- Livestock

2770 266

**r6\_wb\_lsms\_hfpm\_hh\_survey\_public\_roster.dta**

Round 6 Individual level data collected through COVID-19 HFPS questionnaire:

- Household roster update: Roster of individuals living in the household; age; sex; and relationship to the household head.

12152 15

**r6\_wb\_lsms\_hfpm\_hh\_survey\_public\_microdata.dta**

Round 6 Household level data collected through COVID-19 HFPS questionnaire:

- Household location identification.
- Access to basic needs.
- Selected questions on the respondents' behavior and social distancing practices in the week preceding the survey.
- Respondent's work status in the week preceding the survey; job loss and its reasons; employers and their sectors; changes in work arrangements; profile of household owned business and changes; employment and job loss status of non-respondent household member.
- Types of household income sources - farming, personal income from wage employment or pension, own non-farm business; remittances from within Ethiopia and abroad; income from properties, investments and savings; and support from government and NGOs and other charitable organizations; changes in income sources after the outbreak; and coping strategies for income loss.
- Aid and Support (Safety Net, other cash and in-kind support)
- Agriculture
- Locust

V24	kn1_heard	KN1: Heard of Coronavirus	Have you heard about the coronavirus or the pandemic/epidemic associated with the coronavirus?

ID	Name	Label	Question
V25	kn2_meas_handwash	KN2: Handwashing with Soap Reduces Risk of Coronavirus Contraction	To your knowledge, what measures can you adopt to reduce the risk of contracting coronavirus? - Handwashing with water and soap / use of sanitizer or alcohol
V26	kn2_meas_handshake	KN2: Avoiding Handshakes/Physical Greetings Reduces Risk of Coronavirus Contract	To your knowledge, what measures can you adopt to reduce the risk of contracting coronavirus? - No Handshake / physical greetings
V27	kn2_meas_maskglove	KN2: Using Masks or Gloves Reduces Risk of Coronavirus Contraction	To your knowledge, what measures can you adopt to reduce the risk of contracting coronavirus? - Use of mask / gloves
V28	kn2_meas_travel	KN2: Avoiding Travel Reduces Risk of Coronavirus Contraction	To your knowledge, what measures can you adopt to reduce the risk of contracting coronavirus? - Avoid travel
V29	kn2_meas_stayhome	KN2: Staying at Home Reduces Risk of Coronavirus Contraction	To your knowledge, what measures can you adopt to reduce the risk of contracting coronavirus? - Staying at home and avoid going out unless necessary
V30	kn2_meas_gatherings	KN2: Avoiding Crowds and Gatherings Reduces Risk of Coronavirus Contraction	To your knowledge, what measures can you adopt to reduce the risk of contracting coronavirus? - Avoid crowded places or gatherings with many people
V31	kn2_meas_distance	KN2: Mainting Social Distance of at least 1 Meter Reduces Risk of Coronavirus Co	To your knowledge, what measures can you adopt to reduce the risk of contracting coronavirus? - Maintain enough distance of at least 1 meter
V32	kn2_meas_facetouch	KN2: Avoiding Face Touching Reduces Risk of Coronavirus Contraction	To your knowledge, what measures can you adopt to reduce the risk of contracting coronavirus? - Avoiding touching your face
V33	kn3_gov	KN3: Government Containment Measures Taken	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area?
V34	kn3_gov_1	KN3: 1. Advised citizens to stay at home	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Advised citizens to stay at home
V35	kn3_gov_2	KN3: 2. Restricted travel within country/area	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Restricted travel within country/ area
V36	kn3_gov_3	KN3: 3. Restricted international travel	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Restricted international travel
V37	kn3_gov_4	KN3: 4. Closure of schools and universities	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Closure of schools and universities
V38	kn3_gov_5	KN3: 5. Curfew/lockdown	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Curfew/ lockdown
V39	kn3_gov_6	KN3: 6. Closure of non essential businesses	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Closure of non-essential businesses
V40	kn3_gov_7	KN3: 7. Building more hospitals or renting hotels to accomodate patients	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - To accomodate patients

ID	Name	Label	Question
V41	kn3_gov_8	KN3: 8. Provide food to needed	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Provide food to needed
V42	kn3_gov_9	KN3: 9. Open clinics and testing locations	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Open clinics and testing locations
V43	kn3_gov_10	KN3: 10. Stopping or limiting social gatherings	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Disseminate knowledge about the virus
V44	kn3_gov_11	KN3: 11. Disseminate knowledge about the virus	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Don't know
V45	kn3_gov_12	KN3: 12. Creating hand washing kiosks or facilities	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? -
V46	kn3_gov_0	KN3: 0. Nothing	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Nothing
V47	kn3_gov__98	KN3: -97. Don't Know	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Don't know
V48	kn3_gov__99	KN3: -98. Refused	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Refused
V49	kn3_gov__96	KN3: -96. Other (specify)	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Other, specify
V50	kn3_gov_other	KN3: Government Containment Measures Taken (Other)	What steps has the government/local authorities taken to curb the spread of the coronavirus in your area? - Other
V51	bh1_handwash	BI1: Handwashed with Soap More Often Since Outbreak	Last week, did you wash your hands with soap more often than you used to?
V52	bh2_handshake	BI2: Avoided Handshakes/Physical Greetings Since Outbreak	Last week, did you avoid handshakes/physical greetings?
V53	bh3_gatherings	BI3: Avoided Crowds and Gatherings Since Outbreak	Last week, did you avoid groups of more than 10 people such as family gatherings, parties, church / mosque, funerals, etc?
V54	ac1_atb_med	AC1: Able to Buy Enough Medicine?	In the last week, has your household been able to buy enough of [ITEM] ? - Medicine
V55	ac2_atb_med_why	AC2: Reason Unable to Buy Medicine	Why was your household unable to buy [ITEM]? Medicine
V56	ac2_atb_med_why_other	AC2: Reason Unable to Buy Medicine (Other)	Why was your household unable to buy [ITEM]? Medicine, other
V57	ac1_atb_teff	AC1: Able to Buy Enough Teff or Injera?	In the last week, has your household been able to buy enough of [ITEM] ? - Teff/ injera
V58	ac2_atb_teff_why	AC2: Reason Unable to Buy Teff or Injera	Why was your household unable to buy [ITEM]? Teff/ injera
V59	ac2_atb_teff_why_other	AC2: Reason Unable to Buy Teff or Injera (Other)	Why was your household unable to buy [ITEM]? Teff/ injera, other
V60	ac1_atb_wheat	AC1: Able to Buy Enough Wheat Products (Flour/Grain/Bread)	In the last week, has your household been able to buy enough of [ITEM] ? - Wheat in any form (flour, grain)/bread

ID	Name	Label	Question
V61	ac2_atb_wheat_why	AC2: Reason Unable to Buy Wheat Products (Flour/Grain/Bread)	Why was your household unable to buy [ITEM]? Wheat in any form (flour, grain)/bread
V62	ac2_atb_wheat_why_other	AC2: Reason Unable to Buy Wheat Products (Flour/Grain/Bread) (Other)	Why was your household unable to buy [ITEM]? Wheat in any form (flour, grain)/bread, other
V63	ac1_atb_maize	AC1: Able to Buy Enough Maize	In the last week, has your household been able to buy enough of [ITEM] ? - Maize
V64	ac2_atb_maize_why	AC2: Reason Unable to Buy Maize	Why was your household unable to buy [ITEM]? Maize
V65	ac2_atb_maize_why_other	AC2: Reason Unable to Buy Maize (Other)	Why was your household unable to buy [ITEM]? Maize, other
V66	ac1_atb_oil	AC1: Able to Buy Enough Edible Oil?	In the last week, has your household been able to buy enough of [ITEM] ? - Edible oil
V67	ac2_atb_oil_why	AC2: Reason Unable to Buy Edible Oil	Why was your household unable to buy [ITEM]? Edible oil
V68	ac2_atb_oil_why_other	AC2: Reason Unable to Buy Edible Oil (Other)	Why was your household unable to buy [ITEM]? Edible oil, other
V69	ac3_sch_child	AC3: Children Attended School Before Outbreak	Before schools closed on [DATE], were there any children in your household who attended school?
V70	ac4_sch_girls	AC4: Girls Attending School Before Outbreak	How many girls were attending school before schools closed?
V71	ac4_sch_boys	AC4: Boys Attending School Before Outbreak	How many boys were attending school before schools closed?
V72	ac4_2_edu	AC4.2: Children Engaged in Learning Activities After Outbreak	Have the children been engaged in any education or learning activities since the schools closed?
V73	ac5_edu_type	AC5: Learning Activities After Outbreak	In what types of education or learning activities have the children been engaged since the schools closed?
V74	ac5_edu_type_1	AC5: 1. Completed assignments provided by the teacher	In what types of education or learning activities have the children been engaged since the schools closed? - Completed assignments provided by the teacher
V75	ac5_edu_type_2	AC5: 2. Used mobile learning apps	In what types of education or learning activities have the children been engaged since the schools closed? - Used mobile learning apps
V76	ac5_edu_type_3	AC5: 3. Watched educational TV programs	In what types of education or learning activities have the children been engaged since the schools closed? - Watched educational TV programs
V77	ac5_edu_type_4	AC5: 4. Listened to educational programs on radio	In what types of education or learning activities have the children been engaged since the schools closed? - Listened to educational programs on radio
V78	ac5_edu_type_5	AC5: 5. Session/meeting with lesson teacher (Tutor)	In what types of education or learning activities have the children been engaged since the schools closed? - Session/meeting with Lesson Teacher (tutor)
V79	ac5_edu_type__98	AC5: -97. Don't Know	In what types of education or learning activities have the children been engaged since the schools closed? - Don't know
V80	ac5_edu_type__99	AC5: -98. Refused	In what types of education or learning activities have the children been engaged since the schools closed? - Refused

ID	Name	Label	Question
V81	ac5_edu_type_96	AC5: -96. Other (specify)	In what types of education or learning activities have the children been engaged since the schools closed? - Other specify
V82	ac5_edu_type_other	AC5: Learning Activities After Outbreak (Other)	In what types of education or learning activities have the children been engaged since the schools closed? - Other
V83	ac6_med	AC6: Household Member Needed Medical Treatment After Outbreak	Have you or any member of your household needed any medical treatment or consultation since [DATE_OUTBREAK]?
V84	ac7_med_access	AC7: Able to Access Medical Treatment	Were you or the member of your household able to access the medical treatment?
V85	ac8_med_access_reas	AC8: Reason Unable to Access Medical Treatment	What was the main reason you or the member of your household were not able to access the medical treatment?
V86	ac8_med_access_reas_other	AC8: Reason Unable to Access Medical Treatment (Other)	What was the main reason you or the member of your household were not able to access the medical treatment? Other
V87	ac9_bank	AC9: Needed Financial Services (Bank, Money Agent or ATM) in the Last Week	In the last week, did your household need go to the bank, money agent (western union, moneygram) or use the ATM?

V7986	ya6_work_age	YA6: Age Respondent Started Working	At what age did you start working?
V7987	ya7_sch_age	YA7: Age Respondent Started School	At what age did you start school?

ID	Name	Label	Question
V7988	ya8_sch_qual	YA8: Highest Qualification Attained	What is your highest qualification attained?
V7989	ya8_sch_qual_other	YA8: Highest Qualification Attained (Other)	What is your highest qualification attained? Other
V7990	ya9_sch_qual_when	YA9: Year When Highest Qualification was Attained	When did you attain your highest qualification?
V7991	ya10_sch_attend_cur	YA10: Respondent is Currently Attending School (2020/2021)	Are you currently attending school (the 2020/2021 school year)? IF SCHOOL IS ON A REGULARLY SCHEDULED BREAK, BUT [NAME] WAS ATTENDING PRIOR TO THE BREAK, RECORD YES.
V7992	ya11_sch_attend_cur_level	YA11: School Level Respondent is Attending (2020/2021)	What level are you attending this 2020/2021 school year?
V7993	ya11_sch_attend_cur_level_other	YA11: School Level Respondent is Attending (2020/2021) (Other)	What level are you attending this 2020/2021 school year? Other
V7994	ya12_sch_finish	YA12: Approximation End of Study (Year)	Please approximate when you will finish with your studies
V7995	ya13_sch_attend_cur_no	YA13: Reason for Not Attending School (2020/2021)	Why are you not attending school this 2020/2021 school year?
V7996	ya13_sch_attend_cur_no_other	YA13: Reason for Not Attending School (2020/2021) (Other)	Why are you not attending school this 2020/2021 school year? Other
V7997	ya14_activity_cur	YA14: Current Main Activity	What is your current activity?
V7998	ya14_activity_cur_other	YA14: Current Main Activity (Other)	What is your current activity? Other
V7999	ya15_work_cur	YA15: Has Done Work for Pay/Business/Farming/Income Generating Activity	Have you ever done any work for pay, do any kind of business, farming or other activity to generate income?
V8000	ya16_work_age	YA16: Age Respondent Started Working	At what age did you start working?
V8001	ya17_plan	YA17: Plan After Completing Current Education/Training	What do you plan to do after completing the current education/training programme?
V8002	ya17_plan_other	YA17: Plan After Completing Current Education/Training (Other)	What do you plan to do after completing the current education/training programme? Other
V8003	ya18_plan_work_reason	YA18: Main Reason for Not Planning to Work After Education/Training	What is the main reason why you are not planning to work after education/training programme?
V8004	ya18_plan_work_reason_other	YA18: Main Reason for Not Planning To Work After Education/Training (Other)	What is the main reason why you are not planning to work after education/training programme? Other
V8005	ya19_plan_bus	YA19: Has Started Making Plans to Open Business	Have you already started making plans to open a business?
V8006	ya20_plan_intern	YA20: Has Started Looking for Job/Internship	Have you already started looking for a job/internship?
V8007	ya21_plan_4w	YA21: Activities Undertaken to Find Paid Job/Internship in Past 4 Weeks	What did you mainly do in the last four weeks to find a paid job/internship or start a business?
V8008	ya21_plan_4w_other	YA21: Activities Undertaken to Find Paid Job/Internship in Past 4 Weeks (Other)	What did you mainly do in the last four weeks to find a paid job/internship or start a business? Other

ID	Name	Label	Question
V8009	ya22_edu_imagine	YA22: Ideal Level of Formal Education	Imagine you had no constraints and could study for as long as you liked, or go back to school if you have already left. What level of formal education would you like to complete?
V8010	ya22_edu_imagine_other	YA22: Ideal Level of Formal Education (Other)	Imagine you had no constraints and could study for as long as you liked, or go back to school if you have already left. What level of formal education would you like to complete? Other
V8011	ya23_edu_constr_1	YA23: First Constraint to Achieve Ideal Level of Education	What are the two most important constraints to achieving your ideal educational level? Constrain 1
V8012	ya23_edu_constr_1_other	YA23: First Constraint to Achieve Ideal Level of Education (Other)	What are the two most important constraints to achieving your ideal educational level? Constrain 1 - Other
V8013	ya23_edu_constr_2	YA23: Second Constraint to Achieve Ideal Level of Education	What are the two most important constraints to achieving your ideal educational level? Constrain 2
V8014	ya23_edu_constr_2_other	YA23: Second Constraint to Achieve Ideal Level of Education (Other)	What are the two most important constraints to achieving your ideal educational level? Constrain 2 - Other
V8015	ya24_job_30yrs	YA24: Dream Job When 30 Years Old	When you are about 30 years old, what job or "dream" job would you like to be doing? Description
V8016	ya24_job_30yrs_code	YA24: Dream Job When 30 Years Old (Code)	When you are about 30 years old, what job or "dream" job would you like to be doing? Code
V8017	ya24_job_30yrs_code_other	YA24: Dream Job When 30 Years Old (Other)	When you are about 30 years old, what job or "dream" job would you like to be doing? Other
V8018	ya25_job_char_1	YA25: First Characteristic of Dream Job	What are the two most important characteristics that your "dream" job should have? Characteristic 1
V8019	ya25_job_char_1_other	YA25: First Characteristic of Dream Job (Other)	What are the two most important characteristics that your "dream" job should have? Characteristic 1 - Other
V8020	ya25_job_char_2	YA25: Second Characteristic of Dream Job	What are the two most important characteristics that your "dream" job should have? Characteristic 2
V8021	ya25_job_char_2_other	YA25: First Characteristic of Dream Job (Other)	What are the two most important characteristics that your "dream" job should have? Characteristic 2 - Other
V8022	ya26_job_factor	YA26: Main Factor in Imagining Dream Job	What main factor influenced you to imagine your "dream" job?
V8023	ya26_job_factor_other	YA26: Main Factor in Imagining Dream Job (Other)	What main factor influenced you to imagine your "dream" job? Other
V8024	ya27_job_cur	YA27: Is Currently Doing Dream Job	Are you currently doing your "dream" job?
V8025	ya28_job_likely	YA28: Expected Likelihood of Achieving Dream Job	What is the likelihood that you will achieve your "dream" job?

ID	Name	Label	Question
V8026	ya29_job_constr_1	YA29: First Constraint to Realizing Dream Job	What are the two most important constraints to realizing your "dream" job? Constraint 1
V8027	ya29_job_constr_1_other	YA29: First Constraint to Realizing Dream Job (Other)	What are the two most important constraints to realizing your "dream" job? Constraint 1 - Other
V8028	ya29_job_constr_2	YA29: Second Constraint to Realizing Dream Job	What are the two most important constraints to realizing your "dream" job? Constraint 2
V8029	ya29_job_constr_2_other	YA29: Second Constraint to Realizing Dream Job (Other)	What are the two most important constraints to realizing your "dream" job? Constraint 2 - Other
V8030	ya30_job_com	YA30: Knows Someone in Community With Mentioned Dream Job	Do you know anyone in your community that has your "dream" job?
V8031	ya31_job_com_f	YA31: Knows Woman in Community With Mentioned Dream Job	Do you know any woman in your community that has your "dream" job?
V8032	ya32_job_com_f_mar	YA32: Knows Married Woman in Community With Mentioned Dream Job	Do you know any married woman in your community that has your "dream" job?
V8033	ya33_job_ok_f_mar	YA33: Thinks it OK for Married Women to Work Outside Home	Do you think it's okay for married women to work outside the home and return home after 5pm in the evening?
V8034	ya34_job_bad_f_mar	YA34: Likelihood Community Members Speak Badly About Working Married Women	What is the likelihood that people from your community (i.e. family members, friends, neighbors, etc.) will think or speak badly about married women who, because of work, return home after 5pm in the evening?
V8035	ya35_money	YA35: Currently Gets Most Money From:	Currently, where do you get most of your money from?
V8036	ya35_money_other	YA35: Currently Gets Most Money From (Other):	Currently, where do you get most of your money from? Other
V8037	ya36_leave	YA36: Would Consider Leaving Community for Job Opportunities	Would you consider leaving your community to look for better jobs opportunity?
V8038	ya37_leave_where	YA37: Would Consider Moving To:	Where would you consider moving?
V8039	ya37_leave_where_other	YA37: Would Consider Moving To (Other):	Where would you consider moving? Other
V8040	ir1_endearly	IR1: Survey Ended Early	
V8041	ir1_whyendearly	IR1: Reason Survey Ended Early	
V8042	ir1_whyendearly_other	IR1: Reason Survey Ended Early (Other)	
V8043	ir_lang	IR: Survey Language	
V8044	ir_understand	IR: Respondent Comprehension	
V8045	ir_confident	IR: Enumerator Confidence	

Total: 91
