#### ABSTRACT

The World Values Survey ([www.worldvaluessurvey.org](http://www.worldvaluessurvey.org)) is a global network of social scientists studying changing values and their impact on social and political life, led by an international team of scholars, with the WVS association and secretariat headquartered in Stockholm, Sweden.

The survey, which started in 1981, seeks to use the most rigorous, high-quality research designs in each country. The WVS consists of nationally representative surveys conducted in almost 100 countries which contain almost 90 percent of the world's population, using a common questionnaire. The WVS is the largest non-commercial, cross-national, time series investigation of human beliefs and values ever executed, currently including interviews with almost 400,000 respondents. Moreover the WVS is the only academic study covering the full range of global variations, from very poor to very rich countries, in all of the world's major cultural zones.

The WVS seeks to help scientists and policy makers understand changes in the beliefs, values and motivations of people throughout the world. Thousands of political scientists, sociologists, social psychologists, anthropologists and economists have used these data to analyze such topics as economic development, democratization, religion, gender equality, social capital, and subjective well-being. These data have also been widely used by government officials, journalists and students, and groups at the World Bank have analyzed the linkages between cultural factors and economic development.

### Coverage

---

**GEOGRAPHIC COVERAGE**

The Survey covers the following countries: Andorra, Argentina, Australia, Brazil, Bulgaria, Canada, Chile, China, Taiwan, Colombia, Cyprus, Ethiopia, Finland, France, Georgia, Germany, Ghana, Guatemala, Hong Kong, Indonesia, Iran, Iraq, Italy, Japan, Jordan, South Korea, Malaysia, Mali, Mexico, Moldova, Morocco, Netherlands, New Zealand, Norway, Peru, Poland, Romania, Russia, Rwanda, Serbia, Vietnam, Slovenia, South Africa, Spain, Sweden, Switzerland, Thailand, Trinidad and Tobago, Turkey, Ukraine, Egypt, United Kingdom, United States, Burkina Faso, Uruguay and Zambia.

**UNIVERSE**

WVS surveys are required to cover all residents (not only citizens) between the ages of 18 and 85, inclusive. PI's can lower the minimum age limit as long as the minimum required sample size for the 18+ population (N=1200) is achieved.

## Sampling

### Sampling Procedure

---

Wave 5 covers 58 countries and societies around the world and more than 83,000 respondents.

The minimum sample size - i.e. the number of completed interviews which are included into the national data-set in the most of countries is 1200. Samples must be representative of all people in the age 18 and older residing within private households in each country, regardless of their nationality, citizenship or language. Whether the sampling method is full probability or a combination of probability and stratified, the national team should aim at obtaining as many Primary Sampling Units (starting points in case of random route sampling) in the sample as possible. It is highly recommended that a number of respondents per a PSU (or a route in case of random route sample) is not exceeding 10 respondents. It is possible to have several Primary Sampling Units per one settlement; they should be located in quite a good distance from each other. WVSA requires a complete explanation of proposed sampling procedures before the beginning of the survey fieldwork.

# Questionnaires

## Overview

---

For each wave, suggestions for questions are solicited by social scientists from all over the world and a final master questionnaire is developed in English. Since the start in 1981 each successive wave has covered a broader range of societies than the previous one. Analysis of the data from each wave has indicated that certain questions tapped interesting and important concepts while others were of little value. This has led to the more useful questions or themes being replicated in future waves while the less useful ones have been dropped making room for new questions.

The questionnaire is translated into the various national languages and in many cases independently translated back to English to check the accuracy of the translation. In most countries, the translated questionnaire is pre-tested to help identify questions for which the translation is problematic. In some cases certain problematic questions are omitted from the national questionnaire.

WVS requires implementation of the common questionnaire fully and faithfully, in all countries included into one wave. Any alteration to the original questionnaire has to be approved by the EC. Omission of no more than a maximum of 12 questions in any given country can be allowed.

### Data Collection Notes

The main method of data collection in the WVS survey is face-to-face interview at respondent's home / place of residence. Respondent's answers could be recorded in a paper questionnaire (traditional way) or by CAPI (Computer Assisted Personal Interview). The approval of the Scientific Advisory Committee in writing is necessary for application of any methods of data collection other than face-to-face interview.

Following the sampling, each country is left with a representative national sample of its public. These persons are then interviewed during a limited time frame decided by the Executive Committee of the World Values Survey using the uniformly structured questionnaires. The survey is carried out by professional organizations using face-to-face interviews or phone interviews for remote areas. Each country has a Principal Investigator (social scientists working in academic institutions) who is responsible for conducting the survey in accordance with the fixed rules and procedures. During the field work, the agency has to report in writing according to a specific check-list. Internal consistency checks are made between the sampling design and the outcome and rigorous data cleaning procedures are followed at the WVS data archive. No country is included in a wave before full documentation has been delivered. This means a data set with the completed methodological questionnaire and a report of country-specific information (for example important political events during the fieldwork, problems particular to the country). Once all the surveys are completed, the Principal Investigator has access to all surveys and data.

#### Non response

Non-response is an issue of increasing concern in sample surveys. Investigators are expected to make every reasonable effort to minimize non-response. More specifically,

In countries using a full probability design, no replacements are allowed. PIs should plan on as many call-backs as the funding will allow. In countries using some form of quota sampling, every effort should be made to interview the first contact.

V85	V46	How much freedom you feel	discrete	numeric	V46. Some people feel they have completely free choice and control over their lives, while other people feel that what they do has no real effect on what happens to them. Please use this scale where 1 means "no choice at all" and 10 means "a great deal of choice" to indicate how much freedom of choice and control you feel you have over the way your life turns out (code one number):
V86	V47	Do you think most people try to take advantage of you	discrete	numeric	V47. Do you think most people would try to take advantage of you if they got a chance, or would they try to be fair? Please show your response on this card, where 1 means that "people would try to take advantage of you," and 10 means that "people would try to be fair" (code one number):
V87	V48	First choice, if looking for a job	discrete	numeric	V48. Now I would like to ask you something about the things which would seem to you, personally, most important if you were looking for a job. Here are some of the things many people take into account in relation to their work. Regardless of whether you're actually looking for a job, which one would you, personally, place first if you were looking for a job (read out and code one answer):
V88	V49	Second choice if looking for a job	discrete	numeric	V49. And what would be your second choice (code one answer):
V89	V50	To develop talents you need to have a job	discrete	numeric	Please specify for each of the following statements how strongly you agree or disagree with it! Do you strongly agree, agree, neither agree nor disagree, disagree or strongly disagree? - V50. To fully develop your talents, you need to have a job.

V90	V51	It's humiliating to receive money without having to work for	discrete	numeric	Please specify for each of the following statements how strongly you agree or disagree with it! Do you strongly agree, agree, neither agree nor disagree, disagree or strongly disagree? - V51. It is humiliating to receive money without working for it.
V91	V52	People who don't work turn lazy	discrete	numeric	Please specify for each of the following statements how strongly you agree or disagree with it! Do you strongly agree, agree, neither agree nor disagree, disagree or strongly disagree? - V52. People who don't work become lazy.
V92	V53	Work is a duty towards society	discrete	numeric	Please specify for each of the following statements how strongly you agree or disagree with it! Do you strongly agree, agree, neither agree nor disagree, disagree or strongly disagree? - V53. Work is a duty toward society.
V93	V54	Work should always come first even if it means less spare time	discrete	numeric	Please specify for each of the following statements how strongly you agree or disagree with it! Do you strongly agree, agree, neither agree nor disagree, disagree or strongly disagree? - V54. Work should always come first, even if it means less free time.
V94	V55	Marital status	discrete	numeric	V55. Are you currently (read out and code one answer only)
V95	V56	How many children	discrete	numeric	V56. Have you had any children? (Code 0 if no, and respective number if yes):
V96	V57	Child needs a home with father and mother	discrete	numeric	V57. If someone says a child needs a home with both a father and a mother to grow up happily, would you tend to agree or disagree?
V97	V58	Marriage is an out-dated institution	discrete	numeric	V58. Do you agree or disagree with the following statement (read out): "Marriage is an out-dated institution."
V98	V59	Woman as a single parent	discrete	numeric	V59. If a woman wants to have a child as a single parent but she doesn't want to have a stable relationship with a man, do you approve or disapprove?
V99	V60	Being a housewife fulfilling	discrete	numeric	For each of the following statements I read out, can you tell me how strongly you agree or disagree with each. Do you strongly agree, agree, disagree, or strongly disagree? - V60. Being a housewife is just as fulfilling as working for pay.
V100	V61	Men make better political leaders	discrete	numeric	For each of the following statements I read out, can you tell me how strongly you agree or disagree with each. Do you strongly agree, agree, disagree, or strongly disagree? - V61. On the whole, men make better political leaders than women do.
V101	V62	University is more important for a boy	discrete	numeric	For each of the following statements I read out, can you tell me how strongly you agree or disagree with each. Do you strongly agree, agree, disagree, or strongly disagree? - V62. A university education is more important for a boy than for a girl.

V102	V63	Men make better business executives than women do	discrete	numeric	For each of the following statements I read out, can you tell me how strongly you agree or disagree with each. Do you strongly agree, agree, disagree, or strongly disagree? - V63. On the whole, men make better business executives than women do.
V103	V64	One of main goals in life has been to make my parents proud	discrete	numeric	People pursue different goals in life. For each of the following goals, can you tell me if you strongly agree, agree, disagree or strongly disagree with it? - V64. One of my main goals in life has been to make my parents proud.
V104	V65	I seek to be myself rather than to follow others	discrete	numeric	People pursue different goals in life. For each of the following goals, can you tell me if you strongly agree, agree, disagree or strongly disagree with it? - V65. I seek to be myself rather than to follow others.
