PREFACE

The Annual Employment Survey was designed to measure the levels and trends of organized sector employment of the Private Sector as well as Semi Government sector of the Sri Lankan economy over the period of time. This survey is being conducted annually since 1971 by the Statistics Division of the Department of Labour. This is the twenty seventh report in the series. The survey covers establishments having five or more paid employees in Private Sector and Semi-Government establishment in the Public Sector. Data is collected by using postal survey method. Non availability of a complete list of establishments for the whole country and collection of data through post were the main draw backs for the coverage of the survey.

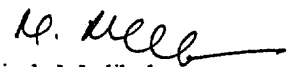

The distribution of organized sector employment by major divisions of industries, change of employment among major industries over the period of time and gender distribution are some of the major findings of the survey.

Planning and the execution of the survey was done by Mr. H.D.R.G. Peiris, Statistician and the staff of the Employment Survey Unit of the Statistics Division with the assistance of Mr. D.N. Jayakodige, Senior Statistician under the guidance and directions of Mr. A. Kahanda, Deputy Director, who was responsible of preparation of the final report.

Data processing activities and the printing of the cover page and final compilation of this publication was handled at the respective Divisions of the Department of Census & Statistics.
